MEALS WILL FIT! NO INDIGESTION, GAS OR ACIDITY

Eat without fear of sourness, heartburn, belching or dyspepsia.

The moment "Pape's Diapepsin" reaches the stomach all distress goes.

If your meals don't fit comfortably, or you feel bloated after eating and you believe it is the food which fills you; if what little you eat lays like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bit of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas which sours your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that instant relief is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out of order stomach within ten minutes, and digest promptly, without any fuss or discomfort all of any kind of food you eat.

Brotherhood Officials Charged With Violations

Washington, D. C., Nov. 27.—Charges that officials of the Brotherhood of Locomotive Engineers violated Federal laws when they expelled from their organization John T. Heller and W. H. Rother, two locomotive engineers, and testified in behalf of the railroad and against the use of high power headlights, were made to-day before the Interstate Commerce Commission, by Charles C. Paulding, solicitor for the New York Central road.

"It is a very serious matter," he said, "when in a proceeding of this kind men are punished for testifying. It is contrary to all our ideals, institutions and penal laws."

Warren S. Stone, head of the engineers, who defends the action on the ground that it was in compliance with the brotherhood regulations, was in the hearing room prepared to defend himself and his associates later.

Feared She Was Getting Typhoid

Had All the Symptoms of Dreaded Malady, But Master Medicine Dispelled Her Fears

"I'M CURED," SHE SAYS

"I had every symptom of typhoid fever and I felt almost certain that this dreadful disease had seized me," says Mrs. Catherine Uhlend, who lives at 719 North Nineteenth street, Harrisburg, Pa.

"I was all run down and so dreadfully weak and tired all the time. I had no appetite and my stomach did not seem able to digest what little food I did manage to eat.

"My nerves were in fearful shape. I was fast losing weight and I had so little energy and ambition that I couldn't even do my housework.

"But I simply wouldn't give in. I made up my mind that I was not going to be sick if I could help it and I heard so much about the wonderful good that Tanlac was doing for other people here in Harrisburg that I determined to try it myself.

"Now I am cured. I cannot praise Tanlac highly enough for the great benefit that it has been to me, yes and to all my family for we are all users of it and firm believers in its efficacy.

"I feel fine now and I find myself singing as I go about my household duties, something that I have not done for a long time. My whole system seems to have been invigorated and strengthened. The tired feeling has left me and I feel strong and active. My nerves are in splendid condition. I eat well and sleep soundly and my fear of typhoid is gone.

Tanlac, the famous reconstructive tonic and invigorant is now being specially introduced here at Gorgas' drug store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.—Advertisement.

Reports of Armistice in Europe and U-Boats Off Coast Send Wheat Down

Chicago, Nov. 27.—Reports that an armistice soon in Europe was not unlikely and that meanwhile exports from the United States would be curtailed by dangers from the presence of fighting submarines in the Atlantic sent wheat tumbling headlong down grade to-day.

At first the market gave little indications that the reports would have any serious effect, but after a couple of leading houses began to sell on a heavy scale, the movement to the bear side suddenly widened and excited unloading followed. The recent moves for an embargo on shipments of foodstuffs from the United States appeared to leave the market largely without support, and in no condition to withstand such a flood of stop-loss orders to sell as overwhelmed the market

when once the market began to break in earnest.

Opening prices, which ranged from the same as Saturday's finish to 3/4 lower, with December 176 to 176 1/2 and May 183 1/2 to 183 3/4, were succeeded by a material rally, but then a fall, which carried July down 9 1/2 to 145 and made December and May drop respectively 5 1/2 and 4 1/2 cents a bushel.

Diet Squad More Than Regains Weight Danced Off at a Recent Ball

Chicago, Nov. 27.—The weight which members of Dr. John Dill Robertson's diet squad danced off at the Health Department ball last Friday has more than been regained, the scales showed after breakfast to-day. The twelve persons who are living on approximately 40 cents a day, exclusive of rent, heat and other overhead expenses have gained an aggregate of 30 pounds, 4 ounces, since the experiment, made in connection with the high cost of living began last Wednesday. Each member has gained a pound or more.

"We want to find out what the salary-earner is up against," said Dr. Robertson. "Wage-earners are accustomed to economical living, and wages have gone up any way. Salaries on the other hand for the most part, have not."
