### STATE TELEPHONE LINES IN FORESTS

Unique Means of Protection  
Brought to Perfection During This Year

Almost 400 miles of telephone lines and 100 telephones have been installed by the State Forest Fire Protection Service, a branch of the State Forestry Department, on the forest reserves of Pennsylvania. The telephones are at the headquarters of the foresters and rangers of the State service so that immediate steps can be taken to organize for fighting fires in the woods. The service has been tested out in a number of fires in Eastern

### A Smooth White Skin That Defies Weather

During the coming months of biting winds and intense cold, you who would keep your skin smooth, white and velvety, should turn your attention to mercerized wax. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. If your skin is blotchy, pimply, freckled, coarse, mallow or over-red, why not shed it? One ounce of ordinary mercerized wax, to be had at any drugist's will completely transform the most unattractive complexion in less than a fortnight. Use the wax lightly, like cold cream, washing it off mornings. If weather, age or poor health has narrowed your face with wrinkles, here's good news. You can quickly remove every line by using a harmless, refreshing face lotion prepared by dissolving the ounce of powdered azolectin in a pint of water. The more youthful appearance, even after one application, will astonish you.

Pennsylvania reservations this Spring and more lines will be built this winter.

The telephone lines have been connected with observation towers on high points in the forest reserves and it is hoped to have a mile of line for each 700 acres. There is now one mile for each 3,500 acres. Foresters are supplied with portable instruments for cutting in on wires to report fires.

**No Session Soon.**—The Public Service Commission will hold no executive sessions to act on complaints or to discuss decisions until next week. Hearings are being held to-day in Pittsburgh, Reading and Pottsville and one will be held in Philadelphia on Friday.

**May Meet Here.**—Members of the State Anthracite Probe Commission will hold some hearings in the State before adjourning to draft their report. A meeting will probably be held in this city late in the week to ascertain conditions in this district.

**Two New Inspectors.**—James F. Barry, of Sharpsburg, and J. J. Maloney, of Aspinwall, both Allegheny countians, were to-day appointed deputy factory inspectors. They succeed W. G. Lloyd, of Pittsburgh, a fire prevention expert who has been traveling about the State giving instructions in that line and specializing on fire drills, and David C. Hill, of Bellevue, who has been sick. Barry is a boiler inspector. The Department of Labor and Industry to-day denied there was any politics in the changes.

**Rep. Indignations.**—The Tioga county grand jury yesterday found indictments against big concerns who prosecution was ordered by Attorney General Brown on charges of polluting streams by wastes as a result of investigation made by the State Department of Fisheries.

**Few Big Accounts In.**—The last day for filing expenses of candidates and political bodies engaged in the last campaign, under the State law, Thursday, December 7. With the exception of that of the Hughes Alliance, Philadelphia Union League and a few others, all of the big expense accounts are yet to be filed. The Republican and Democratic State and city committees have not yet filed their accounts, the Philadelphia North American says. Nor are any of these organizations talking about how much money was spent in the campaign. The Republican State committee received only \$38,000 from the national committee and \$5,000 of this came from the Union League's fund.

**Five More In.**—Philadelphia's official returns of the election of Nov-

ember 7, were filed at the State Capitol to-day with the soldier vote included. The returns of Northumberland, Lycoming, Lackawanna and Columbia were also received. Over half of the counties of the State have filed their returns and it is expected that the remainder will be handed by the close of the week. The official count will then be made.

**State in Touch.**—State Live Sanitary Board officials were in touch with Washington to-day regarding possibility of spread of the outbreak of foot and mouth disease in Nebraska, Missouri and Kansas and are prepared to extend the quarantine against cattle from those States if necessary. The quarantine established by the State Board last night forbids the importation into Pennsylvania of any cattle, sheep or swine from Nebraska or through the Kansas City stockyards.

**Asks to Give Help.**—Attorney General Brown has sent a letter to each man elected to the next Legislature a letter extending an invitation to him to avail himself of the legal advice and services of the department in legislative matters. This is the first time an Attorney General has ever placed his own services and those of his staff at the disposal of lawmakers. It is the idea of Mr. Brown that his

department can be of assistance to members in going over bills and in discussion of questions before the general assembly.

**Will Discuss Code.**—The points and colors code, which was discussed yesterday by a committee representing employers and employes will be taken up finally by the State Industrial Board within a few weeks. It may become effective in January.

**Board at Pittsburgh.**—The State Compensation Board is meeting at Pittsburgh to-day. It will meet here next week.

**Center Visitors.**—H. H. Keller and E. H. Taylor of Bellefonte, were at the State Capitol.

**Lansdale to Fight.**—The borough of Lansdale is arranging to fight the State in regard to its action on sewer improvements. Others have done the same thing—and paid the costs.

**To Demonstrate Concrete.**—The subject of concrete construction will be added to the lectures to be given in the State vocational education courses. It will be handled in combination with woodwork in the instruction and cement companies have offered to give material free.

### YULETIDE SEAL SALE A RECORD

Chairman Phillips Figuring on  
Biggest Results Ever in Xmas  
Stamp Campaign

Details of the 1916 plan of campaign for the sale of Red Cross Christmas seals in Harrisburg will be completed to-night at a meeting of the general committee headed by Dr. C. R. Phillips, chairman, which will be held at 7:30 o'clock, at the home of Mrs. William Henderson, 25 North Front street.

The present year's crusade is going to be a record-breaker, in the opinion of the committee, and it is figured that the \$60,000 mark will be more than topped.

Harrisburg and surrounding towns are going in for a whirlwind campaign, enthusiastically declared Dr. Phillips to-day, "and we're going to sell more Red Cross Christmas seals than we've ever sold before, I believe. Keen rivalry is being manifested among the

smaller towns 'round about Harrisburg, Hershey, the leading town in the United States last year for stamp sales, is going to outdo its 1915 record. Hershey has already ordered 40,000 seals."

**COOPER-POWLEY WEDDING**  
Marietta, Pa., Nov. 28.—Miss Maud C. Powley, of Altoona, a graduate nurse of the Hahnemann Hospital, Philadelphia, and Maurice Cooper, Jr., of Lancaster, were married by the Rev. E. E. Miller. They will live at Lancaster, where the groom is an accountant for the Pennsylvania Railroad Company.

### Fewer Charity Cases Resulting From Booze

Pittsburgh, Pa., Nov. 28.—Acute poverty due to inability to obtain work disappeared from Pittsburgh one year ago, but the prosperous condition of business in this district has resulted in a decided increase in the number of charity cases resulting from the use of alcoholic drinks and the desertion of families, according to the annual report of the Associated Charities just made public.

"There seems to be a relation between the great demand for labor and

the increase in drinking in that the worker feels if he loses his job, it will be account of intemperance, it will be easy to find another," the report says. "The association finds that the large pay envelope has led to family desertion in many instances; in fact desertion increased decidedly last year.
