## "QUICK, WATSON! THE AX!"

"GOOD-BYE OLD PAL"

©INTL. FILM SERVICE

Hark! From the cack of Texas a doleful sound! It is Ben Able, the biggest turkey shipper in the country telling the newspaper men that there is going to be a shortage of Turkeys

this year. Only 2,000,000 will be shipped north. "Farmers have been making too much money with other crops," he says, "they've been too busy to raise turkeys." Looks like beef stew for Thanksgiving dinner, if the beef trust doesn't raise the price of beef in the meantime. However, some of us may be lucky, like the woman in the picture, and have an "old friend" hanging around the place we are willing to sacrifice to our feelings of patriotism and lead to the headman's block.

### Germans Capture Ship in Another Raid on Coast of England

London, Nov. 28.—An official German statement given out here to-day says German naval forces have made another raid close to the English coast, near Lowestoft, capturing a vessel.

This is the second German naval raid in the last week. On the night of November 23 German destroyers bombarded the town of Ramsgate near the mouth of the Thames. The German Admiralty announced that a British outpost vessel had been sunk by gun fire but this was denied officially by London. Lowestoft is on the North Sea about 75 miles northeast of Ramsgate.

House was a White House guest to-day and beside conferring with President Wilson spent some time with Counsellor Polk of the State Department and Ambassador Gerard who postponed his departure for New York until to-morrow. ### Germans Ready For Trade War After Great War

HENRY H. MORGAN

Henry H. Morgan, United States consul at Hamburg, says Germany is prepared for a trade war when the great war ends. Should the allies combine against her, they will find her bankers and manufacturers so well organized, he says, that they will have a hard fight. Particularly does Germany expect to do a large business with the United States, despite hard feelings that may have been engendered during the war.

### Breaks American Aeroplane Endurance Record

RUTH LAW

Miss Ruth Law, long known for her daring aeroplane feats, started a flight from Chicago to New York City, Sunday, November 19, but found it necessary to land at Hornell, N. Y., 590 miles from Chicago. In flying that far she broke the American endurance record, made by Victor Carlstrom the other day, when, engaged in a similar feat, he flew 452 miles from Chicago to Erie, Pa. She continued to New York next day.

## TOBACCO HABIT

A very interesting book has been published on tobacco habit—how to conquer it quickly and easily. It tells the dangers of excessive smoking, chewing, snuff using, etc., and explains how nervousness, irritability, sleeplessness, weak eyes, stomach troubles and numerous other disorders may be eliminated through stopping self-poisoning by tobacco. The man who has written this book wants to genuinely help all who have become addicted to tobacco habit and says there's no need to suffer that awful craving or restlessness which comes when one tries to quit voluntarily. This is no mind-cure or temperance sermon tract but plain common sense clearly set forth. The author will send it free, postpaid, in plain wrapper. Write, giving name and full address—a postcard will do. Address: Edward J. Woods, 92 L. Station E., New York City. Keep this advertisement, it is likely to prove the best news you ever read in this journal.

### Ford Automobile Worker Mangles Finger In Machinery

Hospital Surgeons Say Finger Must Come Off.

After being advised by the hospital surgeons that his badly crushed finger must be amputated, a Detroit mechanic went to a prominent physician, who by means of using Ion-o-lex Unguent (the new scientific discovery for the treatment of local inflammation) was able to quickly heal the wound and save the finger from amputation.

This remarkable UNGUENT, the discovery of English scientists, is daily being used by the British Red Cross doctors and hospitals, one military hospital alone using over 250 gallons in six weeks. It is doing truly wonderful things for the sick and wounded.

The same great success has attended the use of Ion-o-lex Unguent in America, where it has recently been introduced for the treatment of pneumonia; bronchitis, appendicitis, erysipelas, neuritis, acute rheumatism, eczema, tonsillitis, coughs, colds, and many other inflammatory diseases. It contains no opiates, narcotics or other harmful drugs whatsoever.

Ion-o-lex Unguent can be secured in Harrisburg from Kennedy's Medicine Store. Prices 50c and \$1.00. Write the Ion-o-lex Co., Detroit, Mich., for free booklet of information.
