You Would Not Know They Had **Ever Had Catarrh**

Two People-One in Evansville and One in Richmond Cured Long Ago, but Still Praise S. S. S. for What It Did for

Mr. J. R. Bellan, of 2122 Chaffin street, Richmond, Virginia, was cured of Catarrh several years ago and wrote us recently: "You would not know I had ever had Catarrh at all now. I know there is no remedy like S. S. S."

S. S. S."

Mr. Geo. D. Carr, of 209 Edgar street, Evansville, Indiana, was likewise cured of Catarrh many years ago and he recently wrote us: "I am well and alright and feel just fine. Still take from one to two bottles of S. S. S. each Spring for the Blood and I don't know anything better than S. S. S. I don't have any more pimples either. Am well and O. K. and still at work."

Percipitated

The situation of the Rumanian armies defending Bucharest appears increasingly critical.
Only to the northwest of the capital do the Rumanian lines seem to be holding at all firmly and even here at work."

NEVER FAILS TO END MISERY OF PILES

"Hundreds of people in this vicinity," says Peterson, "know of mighty healing power of PETERmighty healing power of Peters. Son's OINTMENT in eczema, salt rheum, old sores, itching skin and ulcers. They know it cures these adiments — that it is guaranteed to cure them."

Now I want to say to every sufferer from pites, either blind, bleeding or itching, that I will guarantee that a

from piles, either blind, bleeding or itching, that I will guarantee that a 25 cent box of PETERSON'S OINT-MENT will rid you of piles or your druggist will return your money. "For years I suffered terribly with tiching and bleeding piles. I tried everything and despaired of ever getting rid of them. It gives me great pleasure to state that Peterson's Ointment entirely cured me, and I sil.cerely recommend it to all sufferers." — Yours truly, David A. Seymour, Supt. of Parks, Buffalo, N. Y.

THE LADY JANE WAS FAIR

The Lady Jane was tall and slim, the Lady Jane was fair." No lady can be fair and beautiful with a sallow complexion, pimples on the face, and skin eruptions which are caused and skin eruptions which are caused by impure blood. Number 40 For The Blood, by its wonderful alterative properties, changes certain morbid conditions of the system from a diseased to a healthy state, thereby reducing flesh when in excess. 40 is employed in diseases of the glandular system, in blood poison, rheumatism, catarrh, constipation, malaria, liver, stomach and kidney troubles. Under its use nodes, tumors, sores, ulcers, mucous patches and copper colored spots disappear as if by magic. Made by J. C. Mendenhall, 40 years a druggist, Evansville, Ind. 40 years a druggist, Evansville, Ind. Sold by George A. Gorgas, 16 N. 3rd

FOR A BAD COUGH

Here is a fine old-fashioned recipe for coughs, colds or catarrh trouble that has been used for many years with great success. Get from your druggist 1 oz. of Parmint (Double Strength) and add to it ¼ pint of hot water and 4 oz. of granulated sugar. Take one tablespoonful 4 times a day.

day.

No more racking your whole body with a cough. Clogged nostrils should open, air passages of your head clear up so you can breathe freety. It is easy to prepare, costs little and is leasant to take. Anyone who has a stubborn cough, or hard cold or catarrh in any form should give this perscription a trial.

GIRL'S STATEMENT WILL HELP HARRISBURG

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler-i-ka flushes the ENTIRE allmentary tract it relieves ANY CASE constipation, sour stomach, or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold—H. C. Kennedy, druggist, 321 Market street.

SITUATION IN **RUMANIA GROWS MORE CRITICAL**

Peril Imminent in Southwest Where Teutonic Enveloping Move Nears Bucharest

FLEEING FROM CAPITAL

Government Reported Leaving For Jassy; Retreat Is

S. I don't have any more pimples either. Am well and O. K. and still at work."

A host of other people have been cured by the same method, purifying and strengthening the libod with S. S. S. and thereby enabling the Blood to drive out the Catarrh germs. Catarrh is a blood disease and to get rid of it permanently you have got to strengthen and purify your blood.

The season for Catarrh is here. Look out for colds. Don't take any chances with bad air. Stay in the open air as much as possible. Sleep in the open, and keep your system up to par by taking S. S. Don't take chances with Catarrh. It is dangerous. What many people believe to be the disease Catarrh, is really only a symptom. The most common symptom of this disease in the system is an inflamed and tender condition of the breathing passages and the blocking of throat and nostrils with mucous. But this is only the symptom — the cause is deeper. The cause is in the Blood and to permanently rid your-self of the disease take S. S. and purify your Blood.

S. S. S. is a a scientific blending of the extracts of certain native roots and herbs which act directly on the blood. Its action is to cleanse and purify and strengthen the blood copusces so they fight off disease.

S. S. S. contains no mineral ingredients and besides being the best blood purifier and builder is a wonderful tonic. Write for our specially prepared booklet on Catarrh. Also write us for Medical advice. It is free. Address Medical Department, 12 Swift Building, Swift Specific Company, Atlanta, Georgia.

toward the nearer defenses of Bucharest is already under way and is a precipitate one, is indicated by today's German official statement which announces a disorderly retirement of the Rumanian forces along the entire Wallachian front before General Von Falkenhayn's steady advance. Von Mackensen's Danube armies are marching forward in a corresponding advance.

Russ on Offensive

Russ on Offensive

Russ on Offensive
Possibly as a diversion in aid of the Rumanian, the Russians have taken the offensive near Kiribaba, on the Golden Bistritza in the Carpathians northwest of the Rumanian frontier. Attacks here, Petrograd reports, netted them the ridges of heights east and south of Kirlibaba and the capture of more than 700 prisoners. Berlin declares the Russian attacks, delivered at many points along the Carpathian and western Moldavian front, resulted only in local successes which were paid for dearly.

With the exception of the Rumanian front none is more active at present than the Macedonian. Whatever may have been the result of the recent heavy fighting there, regarding which German and entente accounts disagree, the allied armies do not appear to have slackened the force of their offensive in the Monastir region.

Serbs Take Heights
Paris to-day announced an import

their offensive in the Monastir region.

Scrbs Take Heights

Paris to-day announced an important advance by the Serbians in which two heights were captured, notably one northwest of Grunishte, east of the Cerna river where an effort is evidently being made to bring the line up to a level with that within the bend of the stream, towards Monastir. Meanwhile an advance by the Italians is reported in the region west of Monastir where a violent battle is raging in which progress also has been made by the French.

HOSPITALS MUST BRACE UP ALONG STATE LINES

[Continued From First Page]

clared that "a few self-satisfied and helpless hospitals, more or less dominated by private influences, ought no longer to be nurtured by the State". Though the report is marked by sharp criticisms, there is no mention made of any particular hospital, but a general survey is made and the results set forth in terse language. It is signed by the entire bureau and goes into many details. In some re-

is signed by the entire bureau and goes into many details. In some respects it is the most severe report on hospitals made to the State government in recent years.

166 on the List
Of the 166 hospitals \$4 are classed as teaching institutions and the remainder for care of the sick. Some are found to be deficient in laboratory equipment, administering anesthesia by inexperienced internes, possessing antiquated X-ray apparatus and lacking in provision for matenity cases. The criticism is also made that in some hospitals so much attention was given to the surgical cases that the medical side was almost neglected and that cases were operated upon without pre-liminary scientific investigation or preparation.

"In the smaller cities it was fre-

cases were operated upon without preliminary scientific investigation or
preparation.

"In the smaller cities it was frequently observed," says the report.
"that any and every physician in the
community was allowed to bring patients to the hospital and perform major operations involving life without
any regard to the competency of the
physician and even without consultation. The almost universal custom
was found to prevail of admitting to
the wards at a price far below the cost
of maintenance patients fully able to
pay the full cost, without any effort
on the part of the hospital authorities
to establish the facts and in a surprisingly large number of such cases
full fees were being paid to the attending physicians."
