Burglar Used Parcel Post to Mail Goods Back Home

People from outlying towns are just beginning to reach Harrisburg to identify the assortment of household articles that "Tom" Faust, the burglar who was arrested in this city Monday, collected in his raids. His most popular method of getting the stolen goods from other cities to his home here seems to have been by parcel post. Many instances have been found where he used this method of transportation. Mention was made in one of the letters found in his possession of mailing a package in Martinsburg, Va. W. S. Hockenbury, a detective from Scranton cross-examined Faust yesterday afternoon concerning his operations in that city. Faust admitted robbing "about eighteen" houses in Scranton. Quite a number of people from Sunbury, and other North Tier towns reclaimed stolen articles yesterday.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRHAL DEAFNESS AND HEAD NOISES

If you know someone who is troubled with head noises, or Catarrhal Deafness, cut out this formula, and hand it to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. Recent experiments have proved conclusively that Catarrhal Deafness, head noises, etc. were the direct cause of constitutional disease, and that salves, Sprays, inhalers, etc., merely temporize with the complaint and seldom, if ever, effect a permanent cure. This being so, much time and money have been spent of late by a noted specialist in perfecting a pure, gentle, yet efficient tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmit (Double Strength), about 75c worth. Take this home, and add to it 1/2 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dullness, cloudy thinking, etc. while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, which are often entirely overcome by the efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there must be many people whose hearing can be restored by this simple home treatment.

Every person, who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial.—Advertisement.

Constipation is nearly always the cause of all ailments of women. The intestines must be made to do their work as nature intended—in a normal way. Have color in your cheeks. Take one or two tablets nightly and note the pleasing results. All druggists—10c and 25c.

MUST MARK COLD STORAGE EGGS

Seventy-Hour Ultimatum Given to N. Y. Dealers; General Boycott Planned

New York, Dec. 1.—A seventy-hour ultimatum to egg dealers directing them to mark plainly all cold storage eggs as such before placing them on sale in this state was announced here to-day by John J. Dillon, state commissioner of foods and markets. He said that he had also taken steps to see that eggs arriving from points outside of New York state are similarly marked. The commissioner predicted that within ten days the retail price of eggs would drop to 35 cents a dozen.

Many Turkeys Spoiled

A series of boycotts on poultry, butter and other foodstuffs similar to that now in force on eggs is proposed, the butter boycott to begin December 12, when the eggs are to have run two weeks. Whether the latter will continue after that depends, it was said, upon the price at which eggs are selling then. The wholesale price of eggs has dropped from 3 to 4 cents a dozen on all grades since the inception of the boycott.

"The egg boycott, while not at its height yet, is gaining ground fast," declared Mr. Hartigan. "It is proving an effective weapon to decrease demand and lower prices. It helps to stabilize prices. It promotes economy in the use of eggs and it contributes in the stoppage of waste."

Commissioner Hartigan said a national cold storage law was needed to protect the consumers against abuses in the marketing of perishable foods. Reports from various cities to-day are to the effect that thousands of turkeys were left on the hands of the dealers Thanksgiving as the result of the refusal of housewives to pay high prices. The surplus stock will be held in cold storage for the Christmas trade and it is predicted that in consequence the price of Christmas turkeys will be greatly reduced.

As a result of the high cost of living the Federation of Jewish Farms of America, in convention here, will extend its program of co-operative buying. Representatives of the 1,500 members of the federation reported that their expenses have increased rapidly in the last four months.

Montgomery Made Chief Marshal of Mummies

In naming Walter L. Montgomery, the coa leader, chief marshal of the Mummies' Parade on New Year's Day, the Mummies' Association is giving recognition to one of the most ardent supporters that the organization has had in the ranks of Harrisburg's business men. Mr. Montgomery has labored with the Mummies for the past several years in an effort to promote bigger and more successful New Year Day celebrations, and in its recommendation that he be appointed marshal the parade committee lauded the good work that he has done for the organization. The chief will soon appoint his aids.

The Harrisburg Chamber of Commerce has endorsed the efforts of the Mummies by the contribution of \$100 to the cause of a New Year's Day parade. The Mummies hope to be able to raise \$1,100 to permit the awarding of prizes.
