Company Maintains Policy of Adding Refinements and Improvements

Studebaker announcements have always been milestones in the progress of the automobile industry, and each year has found the news of a new Studebaker filled with significance throughout the public. This manufacturer's position in the automobile world is a rather unique one, and certainly a difficult one for any maker of fine cars to maintain so persistently.

When Studebaker brought out the Series 17 models for 1916, it proved that quality production, scientific manufacturing methods, and a wealth of manufacturing experience could produce a car that would maintain high standards of quality. And now, in the Series 18 cars just announced, Studebaker once more lives up to all expectations.

Because of the refinements and improvements in the Series 18 cars, resulting in smoother running, more comfort and greater convenience, these cars stand out prominently from the lesser cars of all Studebaker models yet produced.

This new Studebaker is unchanged in basic design, yet the many improvements and refinements noticeable throughout make it a new car, infinitely better in every way. At first glance it is evident that exterior changes have been made in the new Studebaker. The new models are finished in a gun-metal gray. A fine white striping around the top of the body adds just the right decorative touch to the dignified beauty of this soft tone of gray. The headlights, fenders and apron are enameled in lustrous black. Twenty-five paint and varnish operators revealed the strikingly original and exclusive effect secured goes far beyond substantiating the claim for quality car.

Studebaker has adhered to its customary lines in this year's work. The front seats, as in the Series 17 models, they are separate and built to conform with the contour of a person's back, but in the new cars the seat next to the driver's is reversible. It is a new and exclusive Studebaker idea, and it permits the passenger front seat to become more intimately a member of the motoring party. Operating easily and simply, the bracket arrangement, the passenger may face forward or face toward the front seats, as desired. The front seats are adjustable to meet the requirements of persons of different leg-lengths. A legible, adjustable strap, which fastens to the backs of the front seats, will be found both serviceable and convenient.

The tonneau is roomier than ever, because the auxiliary seats are now of an entirely new design. In the new Studebaker within the last year, instead of folding back against the sides of the car, the tonneau seats are now front seat, or down into recess in the bottom of the floor, these new Studebaker auxiliary seats fold up and completely disappear into the floor when not in use. These new seats are comfortable, adding greatly to the comfort of the car, and the use of the new type of Blackmore Door Curtain which is another innovation which will be appreciated by all motorists. It represents an entirely new idea from a convenient standpoint, and by the use of the new door curtain the doors from top to bottom. This patented feature does away with the necessity of carrying the door curtains, which are now crushed and broken. The new protection feature afforded by the new type of door curtain is such that it will not allow anyone against theft and unauthorized uses of his car. Studebaker this year adds a valuable protection to the equipment on dash. Without its own proper key, to unlock ignition switch, the car will not start.

The new Studebaker Every-Weather Top will now remove one of the biggest annoyances of touring—driving in the rain. This convertible top, made exclusively for Studebaker, really gives the use of the car, or the price of one. It is designed to fit snugly over the body so well that it becomes a part of it, with no suggestion of a makeshift or compromise. It adds not only to the pleasure of motoring, but to the utility and convenience of the automobile. The same powerful Studebaker motor which brought fame to the Series 17 models has been retained in the new cars. It has been refined in detail, but no radical changes have been made. The principal feature of concern to motorists, is the elimination of all noticeable vibration. This has been accomplished by the use of a superior design and the lightening of certain reciprocating parts. The chassis frame is the same light construction which has characterized all Studebaker cars. Slight changes have been made in some of the chassis parts.

Improvements in the lubrication system not only give a positive feed under all conditions, but eliminate all lubrication troubles. The full-floating, safety-insuring Studebaker rear axle, with a complete equipment of Timken bearings, remains the same in principle, but is strengthened. A major change in design of the Studebaker-Wagner electrical system has made it possible to increase the storage energy about 12 per cent, giving it ample power to crank even the big six-cylinder motor without effort.

In addition to the changes mentioned there has also been further improvements in the exhaust system which adds to the power of the engine and gives greater economy, rendering the adjustment of the carburetion system about as positive as possible, as the combined skill of Studebaker and Schaebler engineers could make it. The Willard 100 ampers could make age battery has been retained in the new models.

Summing up the added comfort, luxury, improvements and greater economy, these Series 18 cars are sure to become even more popular than any of the distinguished previous models. In the four-cylinder, forty-horse power model, the three-passenger passenger Touring Car at \$240, and the \$1150. In the six-cylinder, fifty-horse power models the three-passenger passenger touring car at \$1170; the seven-passenger Landau Roadster at \$1950; the seven-passenger Touring Coupe at \$1750, and the six-passenger Limousine at \$2600.

GET TWO DEER IN LYCOMING Vanhook, Pa., Dec. 2.—S. L. Vanhook, of Beaver county, and Chauncey Brion, of Buttonwood, this county, killed the first two deer shot in Lycoming this year. Vanhook's buck was the first reported. He is a member of the Musgrave party in camp near Calvert. With a single shot he killed the animal. Brion killed a two-prong buck while hunting with a party near his home. The weather is too warm for successful hunting.

CARLISLE HUNTERS KILL NINE Carlisle, Pa., Dec. 2.—Nine deer were killed by hunters in the South Mountain at the opening of the season. The hunters were Biggsville, Eckleberger, and Hunsdale. Each got one. Charles Hackart shot a small buck and Harry Shugars, Jacksonville, a 180-pound buck, with one slightly smaller secured by John Peters, of Hunsdale. Many camps in remote sections have not yet reported.

How Auto Displaces Horses and Its Advantages Every time an automobile displaces a horse, five acres of land is added to the agricultural area of the country. Among the economic influences of the motor car, this is the one phase that is commonly overlooked, according to Wm. F. Pfeiffer, general manager of the Miller Rubber Company, of Akron, Ohio.

consumes six to seven tons of food a year. It is easily figured that an average of five acres is required to furnish food for each horse. This means a total of 130,000,000 acres of land devoted to pastures and raising hay—over 200,000 square miles. This means five states as big as Ohio, or area larger than Ohio, Indiana, Illinois and Iowa, devoted to feeding horses instead of people.

MAMMA! GIVE A CASCARET QUICK, LOOK AT TONGUE Don't you see your child is bilious, feverish, sick, constipated? Relieve little stomach, liver and bowels with candy cathartic.

Paige Orders Make December Big Month The year of 1916 will be finished by the Paige-Detroit Car Company under a full head of steam and with just as much momentum as when the calendar called for midseason form.

Listless, peevish, feverish, drooping, little stomach sick, breath sour and tongue coated. Mamma, you must act now or your little one will be real sick soon. Get a 10-cent box of Cascarets at the drug store, give a whole Cascaret any time.

NOVEMBER COMFORTABLE MONTH, REPORT SHOWS November was a rather comfortable month as November 30, according to Uncle Sam's weather report. The mean temperature was 43.1 degrees, while only 1.47 inches of rain fell, a deficiency for the month of .83 of an inch. West winds prevailed with an average velocity of 5.9 miles. Twelve November days were clear, thirteen were cloudy and five were only partly so.

BATTERY "Exide" SERVICE AN EYE FOR THE OPTICIAN A TOOTH FOR THE DENTIST AND A STORAGE BATTERY FOR "Exide" Battery Service Station. Specialists We care for, recharge and repair or renew all makes of storage batteries. Excelsior Auto Company 11th and Mulberry Streets HARRISBURG, PA.

There are many touring sedans but none with lines possessed by this Chalmers. It's the kind of a car that gets the longing look from the men on the curb. The price, too, is remarkable—only \$1850. BIG THINGS AHEAD AT COMMISSION Notable Hearings Will Be Held in his City During the Coming Week

Motor Club's Annual Meeting at Headquarters Contrary from the usual custom the Motor Club of Harrisburg will hold its annual meeting next month on a different date from the annual banquet.

MILLIONS USE IT TO STOP A COLD "Pape's Cold Compound" ends severe colds or grippe in few hours.

As a result of complaints filed by the Pittsburg Chamber of Commerce, the Public Service Commission will probably start an investigation in a short time into the recent advances in rates for natural gas for industrial purposes in that section of the state. It is claimed in three complaints that the advances amount to 25 per cent. For weeks natural gas companies in Western Pennsylvania have been filing supplements to their rate schedules and changes and a special list is being made up.

WILLIAM B. NEFF DIES Mechanicsburg, Pa., Dec. 2.—William B. Neff died at his home in South Arch street yesterday, aged 80 years. He had been in ill health for several years with a complication of diseases. He is survived by his wife and seven children, as follows: Mrs. Alice Hoopes, of Harrisburg; Mrs. Belle McLaughlin, Ellettsville, Md.; Mrs. Mary Fitzgerald, Philadelphia; Mrs. Langdon, Kansas City, Mo.; Clyde and William B. Neff, Jr., of Mechanicsburg. Mr. Neff was a resident of Mechanicsburg for twenty-two years and was a veteran of the Civil War, being a member of the Third Ohio Cavalry. Funeral services will be held to-morrow afternoon at 2.30 o'clock, the Rev. Resh of the Methodist church in charge, assisted by the Rev. Mr. Castle of the United Brethren church.

MALE VOICES TO SING The men of Christ Lutheran Church choir will sing at the evening services two beautiful numbers, "The Man of Galilee," and "Sometime, Somewhere" and the choir will sing the choruses "O Worship the Lord," Miss Rollison will sing the contralto solo. SHOWER FOR BRIDE Williamstown, Pa., Dec. 2.—A miscellaneous shower was given for Mrs. E. Spittle, a recent bride, at the home of Mrs. Joseph Warlow on Thursday evening by the Truth Seekers' class of the Methodist Episcopal Sunday School. She was the recipient of many useful gifts.
