Remarkable "Dielectric" is Keeping Many European Soldiers in Fighting Trim

Ion-o-lex Unguent, the great medical discovery of English scientists, under its English name of "Dielectric," has been widely used with most wonderful results by many of the English troops in France in the treatment of wounds, burns, colds, rheumatism and other inflammatory conditions caused by war and the terrible exposure of trench life.

The British Royal Army Medical Corps and military hospitals have also used great quantities of Ion-o-lex Unguent in the treatment of the sick and wounded, one hospital alone using over 250 gallons in six weeks.

Ion-o-lex Unguent has met with the same remarkable success in America, where it has been recently introduced, for the treatment of Acute Rheumatism, Neuritis, Bronchitis, Tonsillitis, Colds, Coughs and Pneumonia, as well as Eczema, Piles and many other inflammatory diseases. Ion-o-lex Unguent is dispensed in Harrisburg by Kennedy's Medicine Store and sold under a positive guarantee. Prices 50c and \$1.00. Write to the Ion-o-lex Company, Detroit, Mich., for interesting free booklet.

JOIN the thousands who annually go to California for an "out-of-doors" winter. All the attractions of all other "winter lands" combined in one are there—yours to enjoy.

Those who travel repeatedly to the Pacific Coast find that the train offering superior advantages of service is—

The Pacific Limited

"The Train of Double Destination"

Steel equipment, no extra fare, shortest route. Daylight departure from Chicago and daylight arrival at both California terminals, Los Angeles and San Francisco, is an appreciated feature.

In the spring return through the great scenic Northwest over the "St. Paul's" smokeless, cinderless, dustless, electrified mountain route.

NISSLEY NOT YET APPREHENDED BY FEDERAL OFFICERS

Stelton Man Charged With Conspiracy in Stock Deals Still at Large

At a late hour this afternoon no action had been taken before United State Commissioner LeRoy J. Wolfe, against Amos H. Nissley, of Stelton, charging the latter with conspiring to defraud by using the mails.

According to a dispatch from Philadelphia ball for Nissley has been set at \$7,000 and Post Office Inspector Frank Wilbur Smith, of Philadelphia, is to apprehend Nissley. The preliminary case will probably be brought before Commissioner Wolfe.

Nissley, it was understood, at noon to-day was arranging with attorneys concerning the case, and it is expected that the formal action against him will be completed late in the afternoon.

He is charged, according to indictments by the Federal Grand Jury at Philadelphia, under a charge of being implicated with Dawson Leachman and Joseph T. Hayden, Philadelphia, in defrauding investors out of more than \$1,500,000 during the last five years.

News of the indictments became known yesterday during the bankruptcy proceedings against the International Gas and Electric Company.

At the Elite Shoe Repairing shop to-day, it was said that Mr. Nissley is no longer connected with that firm, as was reported yesterday.

Inspector at Work a Year

The indictments on Saturday at Philadelphia were the result of one year's work by Inspector Smith. Bachman and Hayden were also said to be interested in the Bay State Mutual Life Insurance Company, which went into the hands of the receiver several years ago. Rumors were afloat then that flyers in high finance had been taken, but authorities did not molest any of the officials.

Reports from Philadelphia increase the figures of the frauds practiced on residents in Dauphin and Lancaster counties, and according to Inspector Smith one million dollars had been received through stock transactions. Charges have also been made by the postal inspector that the corporation "kited" checks to the amount of \$40,000 a day and established the Bank of Independence, in Logan, as a clearing house for their paper. This bank was liquidated recently.

The International Gas and Electric Company was chartered in September, 1911, under the laws of Delaware with a capitalization of \$1,500,000. Later another corporation, the Southern Gas Company, was chartered with \$60,000 capital stock. The post office authorities declare that this second corporation did not have a single dollar of assets, but was used to sell stock fraudulently when investors had become wary of the financial methods of the International Company.

Under its charter the International Gas and Electric Company was permitted to "operate, construct and maintain" gas plants in various sections of the country. The directors claimed to have control of a number of subsidiary corporations, whose stocks and bonds were as follows: Georgetown Railway and Light Company, Georgetown, S. C.; common stock, \$51,875.

Georgetown Gas and Electric Company, Georgetown, S. C.; \$100,000 common stock.

Southern Gas and Electric Company, common stock, \$100,000.

Concord Gas Company, Concord, N. C.; common stock \$100,000; first mortgage 6 per cent. bonds, \$240,000.

Gaston County Gas Company, Gastonia, N. C.; common stock, \$300,000; first mortgage bonds, \$25,000.

Suburban Gas Company, East Syracuse, N. Y.; common stock, \$10,000; 6 per cent. gold notes, \$40,000. (This corporation denied yesterday that it was connected with these enterprises in any manner.)

Another charge made by the authorities is that "blue stock" had been issued by the International Company, in companies which had no assets. It is on this charge that Inspector Smith obtained the indictment.

In Stelton, Oberlin and other nearby places where the stock has been sold by Nissley, according to reports to-day, it is claimed that Nissley himself lost money when the crash came some time ago. Many stories have been circulated about alleged methods of Nissley in selling stock.

Among the persons who have lost money because of the crash are a large number of people, who, it is said, acted on Nissley's advice and bought stock as a profitable investment for the savings of a lifetime. A number of more prominent people, too, have been defrauded, it is alleged, some of them losing thousands of dollars.

Little was said in Stelton for some time about the collapse of the company, although it was generally known by the majority of residents. Nothing has been done, recently, it was said to-day, to start proceedings with a view of getting any of the money back.

Harrisburgers Named on State Fire Committees

In naming various committees, Judge Eugene C. Bonnell, president of the Firemen's Association of Pennsylvania, includes a number of well-known Harrisburg firemen. This city is also represented in the list of honorary vice-presidents.

On the executive committee Alexander W. Morrow succeeds Edward Dapp, of this city. W. L. Jauss, of the Washington company, is named on the committee of exhibits, succeeding Gilbert Greenburg, of Huntingdon.

Harry D. Hilton, of the Mount Vernon company, is on the transportation committee, and A. L. Patton, of the Rely Hose Company, is made an honorary vice-president.

The appointments to the special memorial committee include A. L. Crouse, Sinking Springs, succeeding George M. Miller, Reading; Harry Glassman, assistant superintendent of the bureau of fire, Scranton, succeeding S. W. Bartleson, Wilkes-Barre, who has been appointed honorary vice-president of Luzerne county; J. D. Connelly, chief of the Clearfield fire department, who succeeds J. F. Young, York, and Harry F. Smith, Allentown, who succeeds H. N. Bickel, Norristown.

An important step in the forwarding of the legislation which the association will present to the next Legislature is evidenced by President Bonnell's appointment of John P. Connelly, city solicitor of Philadelphia, as solicitor for the association. Mr. Connelly will be in a position of great tactical advantage with the new Legislature and his influence and ability are sure to have great weight in the consideration of the measures advocated by the association which are so vital to the interests of the firemen of Pennsylvania.

OLDIGE JOHNSON

Oldige Johnson, 1414 North Fourth street, died last night at the Harrisburg Hospital. Death was due to tetanus.

Here Is a Christmas Gift

Your Whole Family

Will Enjoy

A Beautiful Columbia Grafonola (Model 85) and 10 Double Disc Records (20 Selections)—Your Choice

\$91.50

Easy Terms

This model is equipped with the exclusive Columbia individual record ejector. A touch of the finger on the proper button ejects any record desired. The cabinet is of mahogany, satin walnut or quartered oak, all finishes. Record capacity is 45 records. This machine possesses all Columbia refinements and is a most popular model. The 10 records which we include in this offer you may select from our complete stock, which embraces every record in the catalog.

A Complete Line of Columbia Grafonolas \$15 to \$350 Sold on Easy Terms

A Columbia Grafonola Is the Gift of Gifts

There is nothing that you can have in your home from which the entire family will derive such keen enjoyment as a Columbia Grafonola. Therefore it makes the most desirable of all Christmas gifts. Our stock includes a complete line of all Columbia models. We will be glad to demonstrate any or all of them at any time and will, on a small payment, reserve any instrument you select for Christmas delivery.

MOVE TO RAISE U. S. EMPLOYES

Federation of Labor Passes Resolution For Increase of Wages

Washington, Dec. 12.—An organized effort directed by the American Federation of Labor to induce Congress to grant wage and salary increases to all employees of the United States Government from President down to the humblest laborer was planned at a meeting presided over by Samuel Gompers, president of the federation.

Resolutions were adopted at the meeting, attended by representatives of all organizations of Federal employees affiliated with the federation, setting forth that Government salaries have not kept pace with the cost of necessities of life and directing that Congress be earnestly petitioned to grant increases ranging from 10 to 33 1-3 per cent. to Government employees, whether in or out of the civil service.

The proposals are as follows: Employees receiving salaries of less than \$1,000 per annum, an increase of 23 1-3 per cent., provided that no employee shall receive compensation at a rate of less than \$3 per day if paid by the day, \$90 a month if paid by the month, or \$1,080 a year if paid by the year.

ONLY POWERFUL MEDICINE WILL END RHEUMATISM

It matters not whether you have had agonizing pains from rheumatism for 20 years or distressing twittings for 20 weeks, Rheuma is strong enough and mighty and powerful enough to drive rheumatic poisons from your body and abolish all misery or money back.

H. C. Kennedy and all druggists sell Rheuma on a no-cure-no-pay basis for not more than 50 cents a bottle, and after you take a half-teaspoonful once a day for two days you should know that at last you have obtained a remedy that will conquer rheumatism. For over five years throughout America Rheuma has been prescribed by broad-minded physicians and has released thousands from agony, pain and despair.

\$1,000 or more, but less than \$1,500 per annum, an increase of 25 per cent. Employees receiving salaries of

\$1,500 or more, but less than \$2,000 per annum, an increase of 20 per cent. Employees receiving salaries of \$2,000 or more, but less than \$2,500 per annum, an increase of 20 per cent. Employees receiving salaries of \$2,500 or more, 10 per cent.

Burn Briquettes

Prompt Deliveries

THE SENSIBLE SUBSTITUTE FOR HIGH PRICED COAL AND Reduce the High Cost of Living
