NO COMPENSATION FOR MRS. VARGO

Referee's Refusal to Pay Widow of Man Killed in Strike Riot Upheld

The State Compensation Board in an opinion by Commissioner John A. Scott, concurred in by other members of the board, has upheld Referee T. J. Dunn, Pittsburgh, in refusing compensation to Mary Vargo, widow of a man killed by a shot from the rifle of a deputy during the labor disturbances of last Spring at Braddock.

The opinion says that the man was not at the time he was shot in the course of his employment by the company whose works the deputies were guarding. It dismisses the appeal with the remark that "the whole affair is most unfortunate and a distressing tragedy."

In an opinion by Chairman Mackey the board upheld Mr. Dunn in awarding compensation to John R. and Julia Shipe, Crafton. The father is an engineer but is in poor health and cannot work regularly. The son was killed while operating an automobile and contributed to support of parents. The opinion says that "reckless indifference to danger manifested by the deceased in that he attempted an automobile" does not bar recovery as both deceased and defendants were under the act and such a defense cannot be urged.

A new hearing has been awarded in Brown vs. Johnson, a McKean county compensation case.

GOVERNOR WON'T TALK OF CHANGES

Silent on Reported Resignations; Baldwin and Cox Both Confident

Governor Martin G. Brumbaugh this afternoon refused to discuss reports that he contemplated making changes in the State governmental officials or the reports that the resignations of certain officials much in the rumors of the day would be asked.

"I know nothing about them. I am not responsible for all the stories that are going about."

"What are you going to do about dismissals?" was then asked.

"I will use the power the people have given me for the best interests of the people. If I make changes it will be on that principle. I will not remove any man who is loyal or efficient. I have been studying the problems here for two years and have my own opinions and will take up the cases one by one," was the Governor's comment.

There were rumors that Insurance Commissioner O'Neil and Highway Commissioner Black would change places, but nothing on which to base the report could be found to-day. It was much discussed especially after Mr. Black had talked with the Governor, but was generally regarded as unlikely. The Governor refused point blank to discuss it as even a possibility. He also refused to talk with Banking Commissioner Smith or Chief of Mines Roderick.

Removals are not a popular topic at the executive department as the Government is so inclined to harsh measures, but is being urged to do so to help the Cox boom. No man will be sure he is going until he gets a letter. Mr. Smith is expected today or to-morrow and will be asked to retire.

After seeing various members-elect to-day the Governor said: "I am convinced that the Governor will be elected and that the statements of the other side are without foundation."

Rivals in the City

Mr. Cox was in town and appeared to be very confident, too.

Very confident expressions were also made by Representative Richard J. Baldwin at his headquarters in the Commonwealth hotel. Mr. Baldwin came to town last night and proudly claimed 110 men with more in prospect. This afternoon he said that he had pledged some additional votes that he looked for more.

Congressman-elect F. V. Templeton of Luzerne, was with him and he said he expected Auditor General-elect Snyder and State Treasurer-elect Kepley to be later in the water to help Senator-elect T. Larry Eyre will also be here in a day or so.

Ex-Insurance Commissioner Charles Johnson, serene and confident, visited the Baldwin headquarters and said that the man from Delaware was a sure winner, evoking the remark from a bystander, "Johnson don't go wrong on speakers."

Mr. Baldwin expects to be here all week and to meet the members as they come in. His friends say he has received word that a number who have been wired for by the Governor will also see him.

the company is placed in the hands of the State Insurance Commissioner, and the State Treasurer is authorized to turn over all money held for the Pension Mutual Life Insurance Company to the State Insurance Commissioner.

Attorney J. W. Shannon asked for the usual time in which to file objections to the decree and his request was granted.

When the proceedings opened Joseph W. Shannon, counsel for Lyndon D. Wood's insurance companies, objected to any further action by the Dauphin county court, claiming the United States court had prior claim, but his objections were overruled by Judge Kunkel, who claimed the proper jurisdiction lay in the local court and the Union Casualty application hearing was ordered to go on. Just before the opening of this hearing Judge McCarrell handed down the Pension Mutual dissolution decree.

Examiners Testify

Deputy Attorney General Horace W. Davis said the Commonwealth hoped to show the Union Casualty Company was insolvent through the testimony of examiners, Frederick Graves, State insurance examiner, was the first witness called. He presented a report to the effect that a number of claims had been cancelled by the company following his first investigation and that he found a shortage of \$81,658.58 at the conclusion of his second investigation.

F. H. Wolfe, of New York City, insurance expert, testified that he had examined the report of Examiner Graves and found his investigations to have been made according to law. Other examiners who testified to having found irregularities were William J. Roney and John W. Reese. Roney declares he found claims that were "covered up" through the company's card system.

\$7,500 For "Fidelity"

Examiner Reese called attention to two items, each covering the payment of \$7,500 to Lyndon D. Wood and H. G. Welch, both of Philadelphia.

When Thomas Wood, secretary of the company, was called he declared the Union Casualty Insurance "minute book" had been turned over to the federal court under orders and that notwithstanding that he had previously been subpoenaed to appear in the Dauphin county court with the minute book, he had obeyed the call order of the United States District Court in Philadelphia.

Secretary Wood stated that the sums of \$7,500 had been paid Lyndon D. Wood and H. G. Welch "for fidelity and interest in the company's affairs."

Detroit Motor Car Worker Mangles Finger In Machinery

Hospital Surgeons Say Finger Must Come Off.

After being advised by the hospital surgeons that his badly crushed finger must be amputated, a Detroit mechanic went to a prominent physician, who by means of using Ion-o-lex Unguent (the new scientific discovery for the treatment of local inflammation) was able to quickly heal the wound and save the finger from amputation.

This remarkable UNGUENT, the discovery of English scientists, is daily being used by the British Red Cross doctors and hospitals, one military hospital alone using over 250 gallons in six weeks. It is doing truly wonderful things for the sick and wounded.

The same great success has attended the use of Ion-o-lex Unguent in America, where it has recently been introduced for the treatment of pneumonia, bronchitis, appendicitis, erysipelas, neuritis, acute rheumatism, eczema, tonsillitis, coughs, colds, and many other inflammatory diseases. It contains no opiates, narcotics or other harmful drugs whatsoever.

Ion-o-lex Unguent can be secured in Harrisburg from Kennedy's Medicine Store. Prices 50c and \$1.00. Write the Ion-o-lex Co., Detroit, Mich., for free booklet of information.
