Enjoy life-health. Get rid of those backaches!

By BEATRICE FAIRFAX

Most of us spend our lives in pursuit of happiness. But she is completely elusive, and when we think we have gained her, we always find that she lies somewhere beyond.

We all want superlative happiness and happiness is only comparative. We are happy as we give joy to others, fulfill our daily tasks, and work toward a goal of achievement.

Real happiness lies in "amounting to something" in this world. And amounting to something means doing our honest best with our oppore realize theirs.

An old-time philosopher has suggested four steps to happiness. Here they are: Accept Your Limitations, Seize Your Opportunity. Enjoy the Good of the Hour. Improve the Bad, and if You Can't Let It Drop.

Let us examine these suggestions. "Accept Your Limitations" means be sane and logical about your possibilities. Don't exaggerate your talents and insist on flying when it is hard for you to do anything more than walk. In other words, take stock of yourself and make the most of the tinlest opening thorugh which it is possible to own way to success.

"Enjoy the Good of the Hour." Be I happy over little things and don't worry because they are not eternal. No sunset was ever less beautiful beause it was foredomed to fade and joy and beauty have almost an added charm because they are not permanent. Learn to find joy in little momentary blessings. So you get a happy tendency, a frame of mind that makes for cheer.

"Improve the Bad — and if you Can't Let It Drop." Don't sit idly by with folded hands and accept unpleasant 'circumstances. Do your beat to overcome them — your honest best. But if you find that faith will not work to over them try to surmount them.

If footsore and weary you have to give up and retrace your path, be cheefful about that too. Failure bravely accepted is a sort of success.

After all, these sign-posts to happiness mortals can grasp and possess. It comes from the knowling the provided that the provided that the provided that the provided that the most of the down the most of the most of the

DOUBLE BREASTED **BOYS' OVERCOAT**

Tweeds and Cheviots Seem the Best Materials to Defy Cold Winter Blasts

By MAY MANTON

9249 (With Basting Line and Added Seam Allowance) Boy's Double-Breasted Overcoat, 8 to 14 years.

Breasted Overcoat, 8 to 14 years.

This is one of the best overcoats that the boy can own. It is simple, it hangs in straight lines, it is loose and ample enough for real comfort and it is snug enough for warmth and to avoid unnecessary bulk or fullness. It can be slipped on and off with sufficient haste to satisfy even the active boy, and will be found thoroughly satisfactory. The collar can be buttoned up around the throat or rolled open as the day requires. Any overcoat material is appropriate but here, a Scotch cheviot in mixed shades of brown and tau is shown, and cheviot is a much liked material for such purpose although Scotch tweed and various English cloths known as coatings are close rivals.

home-going church folks that jammed the entire space from Front street in Market, almost to River street, the giant tree was officially and electrically lighted with impressive exercises. The tree was made possible this year through the activities of the Rotary Club, assisted by the Harrisburg Light and Power Company and Frank B. Musser, of the Harrisburg Railways Company, who provided the big evergreen. The electric company provided the labor for erecting the tree at cost, loaned the many colored bulbs and provided the current free. Music by the Municipal Band and the black and white vested choir of the Moorhead Knitting Company furnished such music as Harrisburg has not heard in a long, long time.

All in all, Mr. and Mrs. Harrisburg and all the little Harrisburgers had ample cause to sit back last evening and sigh bilssfully and just a wee bit regretfully.

Many Doctors Use Musterole

Many Doctors Use Musterole

So many sufferers have found relief in Musterole that you ought to buy a small jar and try it.

Just spread it on with the fingers. Rub it in. First you feel a gentle glow, then a delicious, cooling comfort. Musterole routs the twinges, loosens up stiffened joints and muscles.

Musterole is a clean, white ointment, made with oil of mustard. It penetrates to the seat of pain and drives it away, but does not blister the tenderest skin. It takes the place of the mussy, old fashioned mustard plaster.

Musterole is recommended for bronchitis, croup, asthma, pleurisy, lumbago, neuralgia, sprains, bruises, stiff neck, headache and colds of the chest (it often prevents pneumonia).

prevents pneumonia).

Present Policy-holders, too, will like this plan.

Put aside a definite sum every month in a Savings Account , which will equal, every twelve months, the annual premium on your life insurance policy.

Complete and detailed information in regard to this suggestion may be obtained from any life insurance solicitor in Harrisburg.
