## FRED COLEMAN **HOLIDAY WINNER**

Hangs Up Record in Special Event at Philadelphia; Some Good Scores

Philadelphia, Dec. 26.-Fred Coleman, who years ago descended upon this city from Higgins, Pa., while a state tournament was being conducted and won both the live bird and target shoot-off to get the trophy. In this event he cracked 23 out of 25, while Todd broke 19. Canner 18. Molineaux

14 and Tenney 14.

The card called for 5 targets with a dead bird added handicap with all high scores to be shot off at 25 flyers. Coleman broke more targets than any other prize winner, breaking 47 out of 50 and, having a 3-bird handicap, just reached the half-century mark.

#### Schreiber Is Close

Schreiber downed 46 of his skim-42 and carried 8 dead ones, while Con-nor and Tenner each shattered 39 and were boosted to the 50 mark through 11 added ones. Molineaux got the 50 total because of a dozen clays being donated to him, for he only broke 38.

Harry Fisher shot along to keep in the scoring, breaking 47 out of his string, but was not eligible for the prize. The scores:

### LOSES TO LOCALS Independents Find Quaker Tossers Easy Victims; Rote

In a game which proved little more more than a farce, the Independents defeated the St. Makachy team of Philadelphia, in six rounds, the local boy forcing the bout the entire distance.

The contest between Young Ochs, Lancaster, and Johnny Morgan, Philadelphia, went but two rounds. Ochs was placed in a guard position shortly before the start of the game.

Although the game was, one-sided the local team gave a very good exhibition of fast team work, having the ball in their possession about three-fourths of the Ime.

Captain McCord and Gerdes were also in evidence. Not at any time during the fray was the lead of the locals threatened, and little attention was paid for the fouling of the visitors, only four being called, of which number McCord converted into points. The line-up and summary is as follows:

ant thing is that you are sick and it is the doctor's business to give you medicine that will right all this promptly. You haven't time to stay in bed and he knows it. Therefore, the thing for him to do is to give you a teaspoonful of something three times a day before meals that will set everything straight forthwith. This is an ordinary man's conception of a doctor's duty to his patient.

"Now as to the doctor's side at the "Now as to the doctor's side of it. When he comes to see a patient he probably thinks, after asking questions, here is a man who works hard, he eats too fast and too much, neglects to exercise, is careless about his daily habits, feels a little fatigued and resorts to a nip two or three times a day to 'buck himself up,' his digestive organs are overworked, and what he needs is a change of habit and modification of his method of living. A little rest if I insist upon it, a tonic and some restriction of his diet for a few days will pull him through this spell. He will probably take the medicine I have prescribed, but the advice he will forget in a week. That's the doctor's side of the case.

"Then, of course, there is the man or the woman who is almost certain that something is wrong with them physically. Some of the bodily functions are not right and they know it, but they keep on because they 'haven't time to be sick.' Finally they must seek advice, and then the doctor discovers that there is some profound organic disturbance that may have gone so far that he is helpless to aid.

"If you are going to build a house you call in an architect, who acts as your adviser, makes your plans and sees that they are carried out.
