

"Meat Prices Will Not Come Down" is the cheerful news that comes from the Department of Agriculture. Meat prices will not worry the man or woman who knows that a **Shredded Wheat Biscuit** will supply more real body-building nutriment than beefsteak or eggs and at much less cost. Shredded Wheat remains the same price, the same high quality, supplying all the nutriment a man needs for a half day's work. Two shredded wheat biscuits, with bananas and cream or other fruits make a complete, nourishing meal at a cost of not over five cents. Made at Niagara Falls, N. Y.

Two Cents For Each Voter Proposed Campaign Limit

Washington, Dec. 29. — Work of drafting a corrupt political practices act to take the place of the Owen bill before the Senate was taken up by a Senate subcommittee. Many amendments to the Owen bill proposing radical changes in the existing law governing campaign contributions and candidates' expenses are before the committee. One suggestion being considered is the limiting of expenditures in senatorial elections on a per capita basis, allowing a candidate to expend possibly two cents for each voter in a thickly settled state or 5 cents in one not so densely populated. This suggestion was framed to meet an objection made when the Owen bill was before the Senate that a hard and fast rule of expenditures applying to all sections was unfair.

HIGH HEELS PUT CORNS ON TOES

Tells women how to dry up a corn so it lifts out without pain.

Modern high-heeled footwear buckles the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained at any pharmacy a quarter of an ounce of a drug called freezeone, which is sufficient to rid one's feet of every hard or soft corn or callus without the slightest danger or inconvenience. A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, lifts right out. It is a sticky substance, which dries the moment it is applied, and thousands of men and women use it because the corn shrivels up and comes out without inflaming or even irritating the surrounding tissue or skin. Cut this out and try it if your corns bother you.

—the tooth paste that protects your teeth. Use it twice daily. See your dentist twice yearly and keep your teeth in perfect condition

A DENTISTS FORMULA

True Secret of Keeping Youthful Looking

(The Beauty Seeker.) "The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face. "But to get liver and bowels working as they ought, without producing evil after-effects has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effect; venese—though, of course, it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'senanel' tablets—their name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Senanel tablets, which may be procured from any druggist—a dime's worth will demonstrate a revelation to any constipated, liver-troubled person."

Sentanel Tablets conquer constipation—liven up a lazy liver—banish biliousness—10c and 25c at druggists

1916 AUTO TAGS GOOD TO JAN. 15

Owing to Nondelivery by Convict Manufacturers State Extends the Period

Pennsylvania's 1916 automobile license plates will be recognized until January 15, 1917.

State Highway Commissioner Black to-day issued a statement to the police authorities of the various cities in the State that owing to the nondelivery of license plates by the Prison Labor Commission, which has the contract for their manufacture, it would be impossible to send out 1917 plates from this date onward as rapidly as the applications were received.

A statement issued says: "The contract with the Prison Labor Commission called for the delivery of the automobile license plates not later than November 1, of 1916. Owing to unforeseen causes the Prison Labor Commission was unable to deliver according to the terms of the contract and, at the present time, the Huntingdon Reformatory, where the tags are being made, is limited to 2,500 sets of license plates a day. Applications received at the Automobile Division of the Department far exceed this number daily and the entire reserve supply previously delivered has been exhausted. It was for this reason that State Highway Commissioner Black to-day issued the police authorities suspending the operations of the Automobile Law insofar as it deals with the use of 1916 license plates until January 15.

The issuance of this statement by the State Highway Commissioner will not, it is hoped, diminish the number of applications for tags, as it is particularly desired that all owners who have not heretofore applied shall send in their application fees at once so that the orders may be filled as soon as the tags are received from the Prison Labor Commission."

At the close of business on December 27, the total amount received for 1917 motor vehicle licenses was \$786,422.00. On Wednesday, December 27, all records were broken in the amount of money received, the net amount being \$97,501.00. Thursday's business, while not tabulated, as yet, will probably equal if not exceed this amount.

Germany on Way to Defeat, Czar of Russia Assures His Soldiers

Petrograd, Dec. 29. — In the course of an order issued to all the units of the Russian army, dated December 25, the Emperor, in a brief review showing how the inequalities in the technical resources for warfare as between the allies and the central powers are being gradually removed, with the result that the enemy strength is apparently waning while that of Russia and her allies is constantly growing, proceeds to say:

"Germany is feeling that her complete defeat is near, and near also is the hour of retribution for all her wrongdoings and violations of the moral law. As in the time of her strength she declared war, so now, feeling her weakness, she suddenly offers to enter upon peace negotiations, desiring to complete such negotiations, before her military talent is exhausted."

Arguing that the allies are entitled to choose a favorable hour for peace negotiations, just as Germany chose a favorable hour for declaring war, the order says: "This time has not yet arrived. The enemy has not been driven out of the provinces he has occupied. Russia's attainment of the tasks created by the war—regarding Constantinople and the Dardanelles as well as the creation of a free Poland from all three of her now incomplete tribal districts—has not yet been guaranteed. To conclude peace at this moment would mean failure to utilize the fruits of the untold trials of the heroic Russian troops and fleet."

Will Reopen Steel Mills Closed For Five Years

Bellefonte, Pa., Dec. 29. — The Hyde City steel rolling mills have been acquired by a syndicate of capitalists headed by Dr. C. F. Hennig, of this place, the inventor of the titan metal, and contractors are now at work on remodeling and enlarging the plant at a cost of approximately \$250,000.

The price paid for the plant was about \$50,000. The mills are located about two miles from Clearfield, and have not been in operation for five or six years. It is the intention of the new owners to convert it into a rolling mill for nickel steel bars and titan bronze tubing, to be in operation next spring.

AMERICAN MECHANICS ELECT

Mechanicsburg, Pa., Dec. 29.—Officers were chosen for the ensuing term at the regular meeting of the Integrity Council, No. 197, Order United American Mechanics, as follows: Councilor, H. H. Kitzmiller; vice-councilor, L. W. Kintz; assistant recording secretary, John R. Spahr; financial secretary, Abram Chapman; inductor, S. A.
