London Critics Are Not Alarmed by Advance of Germans in Kumania

London, Dec. 30.—The military operations on which laterest is chiefly iocused at present are the great efforts the central powers are making against the Russians and Rumanians. I'ms campaign is proceeding on a font of about 120 miles reaching from One man object of the attack is supposedly the capture of Braila. The central forces are divided into three armies, namely, that in the Moldavian mountain region commanded by General You Gerok, the Ninth army important of the commanded of Germans, Turks, and the Danube, and the Danube army composed of Germans, Turks, and Eulgarians under General You Kosch. The general outcome of the operations during the last week has deen an advance of several miles by Gerok and Falkennayn with the capture of many prisoners. The Danube army has been almost stationary, the invaders being very little nearer Braila than they were ten days ago. The pressure, however, on the Russian right flank in Moldavia and in the center is slowly bringing the invaders mearer the fortified lines on the Sereth which roughly divide Moldavia and Wallachia.

The only point of interest marked by the military critics here in regard to the western front is a reference in the communique issued by the German Wa Office last night to the "new position north of the Somme."
