## An Attack of Grip **Always Leaves Kidneys** In Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50 cts, and \$1.00. For sale at all druggists. Be sure to mention this paper.

Speaking of the outlook for the year to-day Howard C. Fry, president of the Rotary Club said:

"The passing of another cycle in the years of her history, finds Harrisburg proud of the progress she has accomplished therein. Rightfully and justify can she revel in the results here civic, industrial and commercial activities have achieved for her.

"For every added civic betterment, the ledger has been more than balanced with industrial and commercial advancement. Repaired streets, improved and additional lighting, beautified and enlarged parks, the timely and well directed combat with epidemical maladies thereby establishing a reputation for a healthful city, the guarantee of additional and much needed educational and hotel facilities, have been and are all bound to make our great city even a greater city in which to live and do business. "This year's civic improvement, coupled with similar strides in years gone by, has attracted to our confines, until our city's industrial and commercial fame and prowess is known and felt in every corner of the globe. In her manufacturing, in similar lines none have excelled her. In commercial pursuits nowhere is there to be found a more creditable reputation for service than is attributable to Harrisburg merchants.

"Harrisburg is rejoicing upon her success, for she has accumulated her just measure of prosperity in 1916. May the close of 1917 see our great is city an even better, bigger, busier and more properous Harrisburg than she is to-day."

more properous Harrisburg than she is to-day."

David Kaufman, proprietor of the Kaufman Underseiling Store, in Market Square, said his store will be enlarged. "The year 1916 was very satisfactory, and the holiday business the largest in the history of the store."

William H. Bennethum, Sr., manager for Dives, Pomeroy & Stewart: "Last year was a magnificent year, surpassing all previous records. Christmas business was also a record-breaker and I attribute it to the fact that we kept open at night only one week before Christmas. Folks bought in the morning and afternoon.

"I look for another big year in business. Coming back to Christmas closing I want to give notice that next year we will be open but two nights before Christmas. It does not pay."

J. William Bowman, of Bowman & Company, was enthusiastic over last year's business. He said: "We had a satisfactory business during Christmas rush, but could have taken care of more. I am more than optimistic about 1917."

Captain of Detective Tate persists in the theory that the murder was committed by a degenerate. He believes the slayer to have been a negro. Dr. Charles E. Bricker, a police surgeon and the first medical man to see the body, disagrees with this theory. The physician contends that two persons might have been in the room, because there was no blood on the girl's clothing and one person could not have carried the body without getting blood on the garments.

who will address a luncheon meeting of the Harrisburg Chamber of Commerce at the Board of Trade hall tomorrow, has been prominent in peace and arbitration movements for many years. In 1912 he was made minister to Belgium by President Taft. He is now a director in the League to Enforce Peace, of which the former President is head.

Mr. Marburg has written a number of articles on political and economic subjects, including one on the Monroe Doctrine, published in 1895. He was instrumental in organizing the Maryland Council of the National Civic Federation. As one of its vice-presidents he took a prominent part in the National Peace Congress which met in Baltimore in May, 1911. He is a member of the American Society for Judicial Settlement of International Disputes, closely allied with the peace movement. He is also a member of the board of the World's Court League. Mr. Marburg's greatest prominence came through his connection as president of the Maryland Peace Society.

Mr. Marburg will speak before the membership of the Harrisburg Chamber of Commerce on "Toward a Better International Organization."

## Peace Note Is Deferred After Vigorous Debate

Washington, Jan. 3. — Action on Senator Hitchcock's resolution to have the Senate endorse President Wilson's peace note was again deferred to-day after a long debate.

The resolution went over for discussion again to-morrow at the request of Senator Hitchcock, its author, after a spirited debate in which Senators Lodge and Borah, Republicans, opposed action at this time.

The debate was marked by an attack by Senator Lodge upon Count Yon Bernstorff, the German ambassador, because of the latter's action in issuing a newspaper statement approving the note. That action, Senator Lodge said, added to the misunderstandings about its purposes and added to the opinion that it was timed and intended to aid Germany in making the peace terms she seeks.

Senator Lodge expressly said, however, that he accepted in full faith the declaration of the President in the note that it was in no way associated with the peace proposals of the central powers.

### Japan Fearing U-Boat War in Pacific Will Arm Her Merchantmen

Washington, D. C., Jan. 3. — Japan, through the Embassy here, notified the State Department yesterday of her intention to arm her merchant ships detensively, and requested information as to whether any special rules had been made by this Government for passage of ships so armed through the Panama Canal.

Canal.

This was the first official information that Japan intended such action and was interpreted in some quarters as indicative of fear of German submaring operations on a wider scale and so far attempted. Japan has a large tonnage passing through the canal, and provided activities, particularly in the Mediterranean.

London, Jan. 3.—The German govern-ment replied to the Danish, Swedish and Norwegian notes, of December 29, on January 1, according to an Amster-dam dispatch to Reuter's. The reply expressed the fullest appreciation of the motives oof the three governments and referred the Scandinavian powers to the German note of December 12 and

City health department officials during the last three days have been completing arrangements following the action of City Council, to take over control of ash and garbage collections in Harrisburg, and to have the Pennsylvania Reduction Company through its bonding company foot the bill. So far the reduction company management has been making every effort to get the wagons on schedule again, but are a day late this week.

If necessary, according to Dr. J. M. J. Raunick, city health officer, and Dr. A. Z. Ritzman, assistant health officer, the department will take charge within the next few days. Shortage of labor is causing the officials much of the trouble as they cannot get enough men for the additional wagons which are to be sent out.
