## DANDRUFF MAKES HAIR FALL OUT

25 cent bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in few moments.

Within ten minutes after an apprication of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first-yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance: an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your thair is as pretty and soft as anythat it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

And Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, head-ache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

## PERSONAL AND SOCIAL NEWS How Publicity Helped Mrs. Thomas to Health

Doctor Had Decreed Operation When She Read of Mrs. Dunlap's Experience

Some time ago Mrs. R. C. Dunlap of DeKaib, Mo., wrote to the St. Joseph, Mo., News-Press telling how, after years of suffering with stomach trouble, she had been relieved of a quantity of gall stones and restored to health through using Fruitola and Traxo. This letter was published and read by Mrs. Georgia Coe Thomas of Lancaster, Mo., who had been told by her doctor, after months of treatment for similar trouble, that nothing but an operation would save her. Mrs. Thomas obtained Fruitola and Traxo if tell like a new woman; the first dose of Fruitola brought a large number of gall stones and I am certain Fruitola and Traxo saved my life.

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus laboratories in Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonical surface of the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. ## TO KEEP MILL Iron in 1916 Is Record

New York, Jan. 4. — The production of pig iron in 1916 in this country is estimated at 39,450,000 tons by the Iron Age to-day. The previous high year was 1913 with 30,966,152 tons and the 1915 production was 29,-916,213 tons. A total of 103 open hearth furnaces completed in the 12 months, according to the same authority, added 4,205,000 tons a year to the country's capacity; yet prices advanced more rapidly in the second half than in the first half of the year. The amount of new steel capacity under construction at the beginning of 1917 is declared to be "beyond all precedent." From a total of 72 open hearth furnaces, eleven converters for duplexing and two Bessemer steel plants now building or projected, an annual output of 5,015,000 tons a year is expected.
