Portland, Seattle, Tampa, Los Angeles, Frisco, Washington, Chicago, New York, Boston, Cleveland, Detroit, Toronto, Montreal, — any point in the United States or Canada reached by telephone lines — is yours for the Dialing. PORTLAND

DIAL "O" and your party will be called

This Long Distance Service — the equal of any that can be offered you — is made possible by an arrangement with the American Telephone and Telegraph Company which controls the long distance lines throughout the country. By agreement with the Attorney General of the United States to prevent "restraint of trade" the A. T. & T. and associated companies is required to throw open its long distance lines to all Americans, — including independent telephone subscribers. What does this mean to users of THE DIAL? Just this:—

—Far Superior Local Service—
—Unsurpassed Long Distance Service—

All Harrisburg already knows THE DIAL is giving quicker, surer local service than is possible on the out-of-date manual telephone. whereas on the old-fashioned and inferior manual, each call costs from ten to fifteen cents! All Harrisburg knows further, that this "Better — Wider — Service" is obtainable from the Cumberland Valley Telephone Co. of Pa.

All Harrisburg knows it can USE THE DIAL to a dozen or more towns near the city free of all charge.

Now with "Better Service — Wider Service — At Less Cost" and "Unsurpassed Long Distance Service" can there be any question as to the telephone for your home or business? Is there any real reason why you should continue that "doubtful waiting" for the operator to get your party when you can go straight through with THE AUTOMATIC? Dial 2289 and order The Dial to-day!
