CITY'S STREET REPAIRING COST

78 CENTS A YARD Lynch Reports on Splendid Results Obtained at Municipal Plant

COVERED 48,451.53 YARDS Unusually Fine Showing Made in Streets and Improvements Bureau

Despite the astonishing increase of approximately 20 per cent. in the cost of materials, Harrisburg, under the supervision of City Commissioner W. H. Lynch repaired during 1916, just 48,451.53 square yards of paved streets at an average cost of but 78 cents per yard.

Looking Ahead Just a year before the asphalt plant was placed in commission, Harrisburg laid out 15,000 good dollars to a private repair contractor who did a little more than 3,000 yards of repair work.

The Re-Surfacing Job This work, according to Mr. Lynch will be started as early in the year as possible. Just where he will begin he isn't ready to say except that the business section will naturally receive the earliest consideration.

The Isle of Safety The detailed account of the conduct of the asphalt repair plant—a new departure by the city—is especially interesting. All the reports and statistics were compiled by Chief Clerk Joseph W. Ibach.

While Commissioner Lynch touches upon the street paving, grading, sewer, repair work, street cleaning, new building, public improvement and other operations, he also mentions briefly the condition of the only improvement authorized by the fourth improvement loan which is still pending. This is the Isle of Safety and public comfort station in Market Square for which \$25,000 was voted.

Mr. Lynch's Big Program During the year Commissioner Lynch constructed 20 sewers comprising a mileage of 1.7 at a cost of \$2,619.23; grade of approximately 20 per cent. For instance asphalt that was bought in 1915 under contract for \$12.21 per ton was advanced to \$17.37 per ton.

More Improvements Construction of 35 new inlets, 4 inlets were rebuilt, one man-hole was rebuilt and nine street crossings were put down; one new auto-truck was purchased and another will likely be bought in the near future; the addition of a street sweeper and sprinkler combined, and another sweeper increasing efficiency of this end of the work; the Philadelphia and Reading bridge at Thirteenth street, the ensy bridge at Dock street and the city's section of the Market street subway were repaired; the 4-story brick warehouse and office building was erected at the municipal asphalt plant and the construction in the near future of another addition will materially increase the storage facilities; 602 permits for openings in highway for conduit, steam, gas, water and sewer connections, and 117 permits for electric light, telephone and telegraph poles were issued.

There is more Castoria is section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Castoria to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure is the only Constitutional cure on the market. It is taken internally in doses from 10 to 30 drops. It acts directly on the blood and mucous surfaces of any case of Catarrh. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this.
