Big Business Men Buy Life Insurance Big

A few years ago the death of a man leaving \$100,000.00 Life Insurance occasioned considerable comment. But now big business and professional men buy even larger amounts of both personal and corporation Life Insurance. It is because they realize that some definite substitute for a part, at least, of their productive ability must remain after they are gone. Is the ratio of your Life Insurance to your present income large enough? Probably not. But a Premium Savings Account enables you to carry as much as you should, without embarrassment. ANY LIFE INSURANCE MAN IN HARRISBURG WILL GLADLY TELL YOU MORE ABOUT THIS.

Buy Goodyears and You Buy Satisfaction

The aim of the Goodyear factories and the desire of the average tire-buyer meet perfectly in Goodyear Tires. Both seek the same goal—maximum mileage at minimum cost.

The Goodyear factories work toward this end by putting into their product the best of materials, under the best of methods and the best of manufacturing conditions.

The tire-buyer does his part by paying a price that will allow such selection and construction.

That this price should not appreciably exceed ordinary tire prices is, of course, largely due to Goodyear manufacturing economies—to compact and intensive organization, to expert and effective effort, to the elimination of wastage wherever possible.

But it is also greatly due to the part the average tire-buyer has had in the development of this institution—to his consistent and increasing patronage, which has built up our present tremendous volume.

For great volume is the parent of manufacturing economy.

So both parties who seek high virtue in a motor car tire, maker and buyer, have helped to put it in the Goodyear Tire.

And a third party, until now unmentioned here, has helped as well.

The Goodyear Service Station Dealer.

You will find him in the obscure villages, in the larger towns, in the tremendous cities of America, always within easy reach.

His interest is the same as ours—that you shall have maximum mileage and satisfaction from Goodyear Tires.

His purpose is identical with ours—to hold your business by getting your friendship, by giving you service.

He does it, first, by selling you Goodyear Tires, and second, by helping you care for them.

He is an essential in the Goodyear "greater mileage triangle" of maker, user, dealer.

Go to him the next time you want a tire. He is foregoing extra discounts that he may sell you better tires. He is a good man for you to know and to deal with.

Goodyear Tires, Heavy Tourist Tubes and "Tire Saver" Accessories are easy to get from Goodyear Service Station Dealers everywhere.
