RAILROAD NEWS

SIGNAL CHANGES NOW CERTAINTY

Only Delay Will Be on Account of Material For Making Colors

Signal changes which have been going through an experimental stage on the Pennsylvania railroad will become permanent this year. Lack of materials has been responsible for the delay in complete installation of the new system.

Eliminate White Lights
Under the new plan white lights are to be eliminated altogether as a signal indicator, that is, white lights for "clear" or "proceed," while a bright, distinctive yellow, visible at great distances, will be used for "caution." Red will continue to mean "stop." A statement by the company in connection with the changes says:

"The elimination of white from the signal color scheme has been rendered desirable by the increasing use of white lights of various kinds in buildings and on driveways, roads and streets close or adjacent to the railroad's right of way.

Many Changes
Not only will alterations have to be made in all of the semaphore signals, but the following devices also will be affected: Marker lights on the rear of passenger and freight trains, switch lamps and targets, markers for track tanks, 'slow' signs, 'resume speed' signs, hand lamps at interlocking and block signal stations and lights displayed to the green at crossing gates. Lights for the latter purpose will be red, instead of green, as at present.

HEAVY READING TRAFFIC
Nearly 4,000 carloads of freight were hauled on the Lebanon Valley from the Rutherford yard on Sunday and Sunday night. Of this number 1,800 were taken through on the East Penn. It was a very busy day and a number of locomotives were sent up light from this city. The westbound movement was light. The anthracite trade last week was very good, the mines producing nearly 1,600 cars a day. The tonnage for the week exceeded 400,000 tons. Considerable coal was delivered to the local dealers.

CLERK GETS PROMOTION
A. E. Weldenheimer, clerk in the office of Engineer J. P. Charlton, of the Schuylkill division of the Pennsylvania railroad, has resigned to become an assistant to the claim agent of the Reading Transit and Light Company.

CREWS WORK OVERTIME
Because of a shortage of engine men and other train hands on the Reading Railroad during the past few months, many of the men have been kept out on the road over the 16-hour limit. Every effort was made to relieve the men, but because of the congested condition of traffic it was impossible to do so.

Says Simple Remedy Prolonged His Life

Dr. Caldwell's Syrup Pepsin Effective as a Remedy for Constipation.

Among older people the various organs of the body have a tendency to slow up and weaken, and this is usually first manifest in a pronounced inactivity of the bowels.
Good health is dependent on regularity in this important function; when even there is the slightest indication of constipation a mild laxative should be taken to relieve the congestion and dispose of the accumulated wastes. Cathartics or purgatives should not be employed, however; these are too violent in action and their effect is only temporary.

good, it has prolonged his life, and brought ease and comfort.
Dr. Caldwell's Syrup Pepsin is sold by druggists everywhere, and costs only fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Best for bad breath, sour stomach, coated tongue or indigestion.

They're fine! Cascarets live your liver, clean your thirty feet of bowels and sweeten your stomach. You eat one or two, like candy, before you go to bed and in the morning your head is sweet, tongue is clean, stomach clear, breath right and cold gone.
