

MARKETING GETS STATE BOOSTING

State Officials Interested in Encouraging Formation of New Associations

Fifty thousand Pennsylvania farmers and millions of consumers were benefited either directly or indirectly through the co-operative marketing and farming work carried on through Farm Advisory forces according to estimates made at the State Department of Agriculture during the past year.

Two men were placed in charge of the co-operative work and they visited forty-five counties, many of them numerous times, in organizing and perfecting farm organizations. The work was carried on through the various local associations of the State Grange which were found an excellent medium to extend the work.

One of the Farm Advisers assigned to marketing and co-operative work held 161 meetings during the year and addressed over 30,000 farmers and talked with hundreds of commission men, consumer's leagues and businessmen and organizations in the cities.

Over 500 organizations bought and sold products and machinery through the co-operative efforts during the year. Approximately 3,000 tons of fertilizer and fertilizer chemicals was supplied to farmer's organizations at an average saving to the farmer of one dollar a ton, 40 tons of binder twine at a saving of two and a half cents per pound, 2,000 tons of feed at a saving of four dollars a ton and many other articles.

About 200 carloads of potatoes were sold, which yielded the farmer from ten to fifteen cents per bushel more than he could have secured in his local market. It helped expand the cost down in some cities where the supply was short. In addition the one Farm Adviser assisted in selling over 100 cars of hay and straw, bringing the farmer a net return of from two to four dollars per ton more than he would have realized in his local market. Thousands of barrels of apples, wheat, corn, cabbage, and all kinds of farm produce was supplied to short city markets through the co-operative agency and farmers who found no sale for their products in overcrowded home markets realized good prices through the shipment to short markets.

The marketing work is one of the most important now being expanded by the Department of Agriculture and the Legislature will be asked to establish a Bureau of Markets which will bring benefits to the 218,000 farmers and the 8,000,000 food consumers in the State.

WILKES-BARRE, Pa., Jan. 11.—Sentiment attached to the Kline homestead, occupied by Frank, Joseph and Anthony Kline, brothers, and Miss Mary Kline, a sister, has cost the family \$17,100. On October 30 they gave Hyman Stakulsky an option on the property for \$1,500. The purchase price was to be \$45,000.

P. E. SYNOD HESITATES ON PROHIBITION PLANK Atlantic City, N. J., Jan. 11.—Opposition to a resolution urging nearly 300,000 communicants of the Protestant Episcopal Church in New Jersey and New Jersey to get behind local option movements in the two States created a flurry yesterday in the Provincial Synod here. The synod's approval of a resolution that personal rights should take precedence over property rights, and after a sharp debate referred back to committee a plea for the practice of total abstinence of both clergy and laity.

WILKES-BARRE, Pa., Jan. 11.—Congressman John J. Casey was sitting as a defendant in the courts here yesterday in a \$50,000 slander suit started by Anthony Love Lynch, his former secretary.

Lynch served as secretary to the congressman from March 27, 1913, until September 3, 1914. After quitting his position Lynch charged the congressman with embezzling \$17,000. On September 13, 1914, the congressman declared "Love Lynch embezzled my money."

"I Was Burned Out" Says Steel Worker Terrible Heat from Furnaces Had So Sapped His Vitality He Was All In REINVIGORATED BY TANLAC

"My job's a tough one," says John Brainow, of Steelton, Pa., "and it takes a mighty strong constitution to stand the terrible heat from the furnaces for it seems to dry you out through and through and just shrivel you up."

"I'm as husky as the next man but it got me and I was completely burned out when I realized that I wasn't up to the mark and on the side."

"I was so constipated that I had to keep taking cathartics to keep things moving, I felt dull and lazy and generally rotten. I couldn't eat because I hadn't any appetite and I'd choke up with gas and I didn't rest worth a cent at night because I'd have such horrible dreams that they'd keep waking me up."

"Well anyhow I knew it was up to me to get fixed up right quick and I'd seen so much about Tanlac in the papers I made up my mind that was the stuff for me."

"And it sure was for it has fixed me up fine. No more constipation, my appetite is back on the job and I sleep like a kid with nary a dream. I'm feeling fine and doing a big day's work every day without any trouble."

Tanlac, the famous master medicine, is now being specially introduced here at Gorges' Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.

Pennsylvania Man Thankful

Mr. C. E. Brooks, Marshall, Mich. Dear Sir:—I will interest you to know that I have been ruptured six years and have always had trouble with it till I got your Appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact, at times I did not know I had it on. It just adapts itself to the shape of the body and seemed to be a part of the body, as it clung to the spot, no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from rupture if all could procure the Brooks Rupture Appliance and wear it. They would certainly never regret it. My rupture is now all healed up and nothing ever did it but your Appliance. I am glad to tell you that I will say a good word for your Appliance, and also the honorable way in which you deal with ruptured people. It is a pleasure to recommend a good thing among your friends or strangers. I am, Yours very sincerely, JAMES A. BRITTON, 80 Spring St., Bethlehem, Pa.

AUTO LICENSES TO STAND 'TIL FEB. 1

Nondelivery of Tags Given as the Reason For Extension of the Time

State Highway Commissioner Black issued a notice extending the life of the 1916 automobile license plates to February 1. The Prison Labor Commission is running behind on deliveries of 1917 tags to the Department and the notice was necessitated by their failure to catch up on deliveries.

The commissioner also issued a notice to holders of nonpaid operators' licenses, warning them to destroy or throw away the postal registration card being sent them this year instead of the card formerly sent in an envelope. The postal office department will not return postal cards to the sender, consequently, the State Highway Department has no means of knowing whether or not they have been received by a number of persons to whom the postal registration cards have been sent. Duplicates have been issued to these persons.

Commissioner Black also notified the automobile commissioners in adjoining States that Pennsylvania had been compelled to extend the life of the 1916 automobile license plates, because of the failure of the Prison Labor Commission to deliver the 1917 plates. The statement issued explains that November 1, 1916, was set as the time for the end of deliveries of 1917 automobile license plates by which time, according to the terms of the contract, the full supply was to have been in the possession of the State Highway Department. As a matter of fact, the statement points out, on November 1, shipment had not begun.

Opening the door in answer to a timid knock, a woman living in North Second street found a tiny mite of a colored girl shivering on the porch, who asked for food and shelter. After she was admitted and given a big supper she told a story of neglect, abuse and desertion by a woman who had adopted her after the death of her father. She said that the woman had been drunk and had turned her out in the streets, threatening her bodily harm if she returned.

TO ISSUE \$1 AND \$2 GREENBACKS

Government Unable to Meet Demand For Small Notes With Silver Certificates

Washington, Jan. 11.—A new issue of the \$1 and \$2 greenbacks of Civil War days, discontinued more than thirty years ago, will be put into circulation, probably about February 1, displacing similar United States notes of larger denominations to provide for the unprecedented demand for small paper money.

The treasury department announced last night that the issue had been decided on because silver certificates, the ordinary bills of \$1 and \$2 denomination, could not be issued under the law in sufficient quantity to meet the demand.

A limit of \$346,681,016 to the amount of outstanding federal notes was fixed by law in 1878, after the greenback had become an issue in politics, and had resulted in the birth of a new national party, backed largely by the farmers of the West and South.

No greenbacks have been issued since 1885, and the amount of outstanding \$1 and \$2 notes of that variety now is slightly more than \$3,000,000. There is, however, \$102,445,300 outstanding in United States notes of \$10 denomination and higher, and a portion of these will be retired and replaced, dollar for dollar, to meet the new issue of smaller denominations.

Wife to Blame if Husband Drinks, Says Druggist Brown of Cleveland, Who Tells Wife What To Do

A New Treatment Given Without the Consent or Knowledge of the Drinker

Cleveland, O.—No wife has a right to blame her husband because he drinks, says Druggist Brown of Cleveland. It is her fault if she lets him drink and bring unhappiness and poverty to her home and she has no right to complain. A woman can stop a drinking husband in a few weeks for half what he would spend on liquor, so why waste sympathy on a wife who refuses to do it? Druggist Brown also says the right time to stop the drink habit is at its beginning unless you want drink to deaden the fine sensibilities of the husband you love. Begin with the first whiff of liquor on his breath but do not despair if he has gone from bad to worse until he is run-soaked through and through. Druggist Brown knows the cause of strong drink because he himself has been a victim. He was rescued from the brink of a drunkard's grave by a loving sister who, after ten years' time, revealed the secret to him. She saved him from drink—rescued him from his own depraved self, by giving him a secret remedy, the formula of an old German chemist. To discharge his debt to her and to help other victims out of the murk and mire he has made the formula public. Any druggist can put it in the hands of any suffering wife, mother, sister or daughter. Just ask the druggist for prepared team powders and drop a powder twice a day in tea, coffee, milk or any other drink. Soon liquor does not taste the same, the craving for it disappears and in one more drinker is saved and knows not when or why he lost the taste for drink.

Note.—Team powder referred to above should be used only when it is desirable to destroy all taste for alcoholic drinks of every kind. The wife who approves of drinking in moderation and believes her husband safe should give him the cure of strong drink because the time, that the danger line is near. Since this formula has been made public H. C. Kennedy, J. Nelson Clark, and other druggists have filled it repeatedly.
