

RHEUMATISM

Physician Believes a Genuine Remedy for the Disease Has Been Found... Rheuma, the wonderful rheumatism remedy sold by H. C. Kennedy and all druggists, gives quicker and more lasting relief than other remedies costing many times as much.

JOINT COMMISSION ENDS ITS LABORS

Mexican Problem Now Back in Hands of President Wilson

New York, Jan. 16.—The Mexican-American joint commission, which failed to effect an adjustment of the questions at issue between Mexico and the United States after a series of conferences that began four months ago, was formally dissolved late yesterday.

The Americans impressed upon the Mexicans that with the dissolution of the commission the Mexican problem reverted to President Wilson. They were careful not to leave in the minds of the Mexicans the conviction that President Wilson would accept the recommendation that an accredited diplomat be sent to Mexico and that General Pershing's force be withdrawn.

In spite of the Americans' care, however, the Mexicans had little doubt that full diplomatic relations between the two governments soon would be established. They anticipated unexpected complications arising from American troops being removed from Mexican territory within a few days.

No direct reference was made in the final session to the attitude of the United States would be withdrawn and new raids across the border by Mexicans are made, but neither was there any mention of the warning of Secretary Lane that accompanied the protocol to Mexico that this government reserved the right to unlimited and unrestricted pursuit of bandits.

It was intimated to the Mexicans that when General Pershing's troops were taken out of Mexico it would be when it appeared evident that bandits were not menacing the northern border of Chihuahua, the essential condition in the protocol Carranza refused to accept.

The creation of an international court of claims for the adjudication of property losses incurred since the revolution against Mexico was discussed by the American commissioners to the Mexican-American conference.

MEXICO REJOICES

Mexico City, Jan. 16.—The news that the American commissioners to the Mexican-American conference had recommended the withdrawal of General Pershing's forces and the sending of Ambassador Fletcher to Mexico City was received here with general rejoicing.

500 PNEUMONIA DEATHS

New York, Jan. 16.—Pneumonia caused more than 500 deaths and influenza took a toll of sixty in this city last week, Health Commissioner Emerson, in a statement published to-day, attributes the spread of respiratory diseases largely to the crowds in public places.

LAWSON RESUMES SENSATIONAL ATTACK AT LEAK HEARING

[Continued From First Page]

Wexler, all prominent bankers. Mr. Harrison did not disclose his reason for asking for the appearance of the witnesses. At the outset of to-day's hearing Lawson went over his recital of how he said Chairman Henry himself told him of a cabinet member, a senator and a banker were in a stock gambling pool.

"Unless your chairman said what I said he said, I am guilty of foul perjury and unfit to be anywhere outside the bars of a prison," Lawson dramatically declared. Working through a tangled mass of hearsay evidence given by Thomas W. Lawson in yesterday's bewildering hearing, the committee sought some man among the dozen or more mentioned by Lawson who had first hand information.

The investigators were after substantiation either of Lawson's charge that it was Chairman Henry of the Rules Committee, who told him Secretary McAdoo, H. Pliny Fisk, New York banker, and a Senator "O" were reported to have operated a stock gambling pool at the Belmont Hotel.

"I asked them their opinion of what had happened in Washington," Lawson began slowly, "and told them I would like to get their advice on whether I should go further or drop the matter."

"I met Henry again at the Belmont Hotel before them," Lawson said, "and called their attention to what appeared to be an unfair slant that he was giving on the story session closed yesterday. 'You stated,' questioned Representative Campbell, 'that when you left Washington after talking with Chairman Henry you went to New York and talked with several publishers. Will you state the substance of what you told them?'"

"I spoke of seeing Donald McDonald," Lawson said. "I asked them their opinion of what had happened in Washington," Lawson began slowly, "and told them I would like to get their advice on whether I should go further or drop the matter."

THE NEW STORE OF WM. STROUSE

Wm. Strouse and the New Store

Extend Welcome to Troop C

Welcome Home, Boys! We're Glad to Have You Back. Your home town will give you a rousing reception—for there's nothing too good for you in Harrisburg.

LET US WARN YOU AGAINST COLDS, due to the change of climate—remember you're not accustomed to the severe weather of the North.

MAKE THE NEW STORE, YOUR STORE—Our facilities are at your service—we ask you to make use of them. YOU KNOW THE NEW STORE has grown to be HARRISBURG'S LEADING, LIVEST and MOST POPULAR STORE, since you left last Summer.

Come in to see us and let us greet you personally—THE ORGANIZATION OF THE NEW STORE, headed by the STEELTON BAND will be in the parade to escort you.

Yours to serve you William Strouse

not been asked for, but that they had been included in the questions by the chairman when he propounded them to Mr. Lawson.

Among those subpoenaed to-day were: Paul M. Warburg, of the Federal Reserve Board, charged by Lawson with knowledge of the leak.

Archibald S. White, who Lawson says told him that Fisk dominated a stock gambling pool, was called upon to testify.

Mrs. Ruth Thomson Visconti, of Washington, a clerk, who Lawson says told him Secretary McAdoo and W. W. Price, a White House correspondent, were involved in the leak charges.

John O'Hara Cosgrave, Sunday editor of the New York World; Erman J. Ridgeway, president of Everybody's Magazine, both of whom Lawson says were involved in the leak charges.

baseless insinuations against men in public life." Secretary Tumulty gave out this statement.

"After the complete and definite statement which I made to the Rules Committee last week it should hardly be necessary for me to say that there is not a scintilla of truth in these new slanders."

Committee Orders Subpenas The committee promptly ordered subpenas for Ridgeway, Cosgrave, Warburg, Fisk, Price, White, Malcolm, McAdoo, Gibboney, Barney & Co., Mrs. Visconti and John R. Rathbone, editors of the Providence Journal, who published articles about "leaks."

Secretaries Tumulty and McAdoo will appear without subpoena.

Gibboney Enters His Emphatic Denial to Charge Pittsburgh, Pa., Jan. 16.—Stuart G. Gibboney, named by Thomas W. Lawson in the investigation at Washington in its Pittsburgh appearing as counsel before the United States court.

"I never knew a thing about the President's note, until it appeared in the newspapers," he said. "I never bought or sold a share of stock in my life, and I have no connection with any others Mr. Lawson named."

"I am a friend of Secretary McAdoo and in the prevention campaign of 1912, before the Baltimore convention was associated with Mr. McAdoo and W. F. McComb, then national Democratic chairman, in organization work for the latter's campaign. I am ready and perfectly willing to go to Washington and appear before the committee of investigation at any time. I have no connection with the administration. The only possibility I can conceive for my name being mentioned is because I am a friend of Mr. McAdoo, or possibly because I am counsel for the Comptroller of the Currency in national bank receiverships in New York city."

U-BOAT BRINGS IN PRISONERS London, Jan. 16.—A German submarine has just returned from a cruise, with four captains of merchantmen on board as prisoners, according to an Amsterdam dispatch to Reuters quoting German newspapers. One of the prisoners is an Englishman. The submarine is in charge of Commander Arnauld.

Commander Arnauld visited Cartagena last night on the submarine U-95 and delivered a letter from Emperor William to King Alfonso. On this occasion he was quoted as saying that he had destroyed fifty ships including the French liner Provence.

Mother Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You are and Now She Looks Just Fine.

NUXATED IRON WILL INCREASE THE STRENGTH AND ENDURANCE OF WEAK, NERVOUS, CAREWORN, HAGGARD LOOKING WOMEN 200 PER CENT IN TWO WEEKS' TIME IN MANY INSTANCES.

THE CHILD'S APPEAL

grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

On account of the peculiar nature of woman, and the great drain placed upon her at certain periods, she requires iron much more than man to help make up for the loss.

Next to a health and strength builder, your blood to change food into living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks.

After that time you will find your strength again and see how much you have gained. You will have seen dozens of nervous run-down people who were all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or the tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children, is also not that kind of iron. You must take iron that can be easily absorbed, and assimilated to do you any good.

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American Woman.—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

"There can be no healthy, beautiful, rosy cheeked woman without iron." F. KING, M. D.

"There can be no healthy, beautiful, rosy cheeked woman without iron." says Dr. Ferdinand King, a New York physician and author. In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their patients.

The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread soda crackers, biscuits, macaroni, spaghetti, tapoca, sago, farina, detergent oatmeal, no longer is iron to be found. Refining processes have removed the iron from these foods from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked are responsible for another grave loss of iron."

"Therefore, if you wish to preserve your youthful vim and vigor, or to tip-toe up the ladder of life, you must supply the iron deficiency in your food by using some form of organic iron. This is the greatest of strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of people might be saved, who now die every year from pneumonia, use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron."

Outdoor Commercial Photography. The advantages of Commercial and Outdoor Photographs are manifold, both for advertising and illustrative works. Manufacturers can best show their product through the medium of commercial photographs, providing the photographs are technically correct. Real estate dealers and brokers can best advise their clients by publishing pictures of the property itself.
