**COULDN'T STAND FOR LOVE STUFF**

**Husband Balks When Wife Says "You Don't Love Me" to Another**

"You don't love me," William Fleisher, haled into Dauphin county court today to answer charges of nonsupport of his wife and small daughter, declared on the witness stand that the reason he left his wife was because as he stood in the doorway of his home he heard her utter these words to D. J. McFarland, who, with Mrs. McFarland, was staying at the Fleisher home in Yeagertown, Mifflin county.

The case, which was heard in Courtroom No. 1, was featured by charges and counter charges of each testified. It was brought out in court that Fleisher had left his home on the day before Christmas, and since that time, his wife testified, has not contributed to her support. Both alleged on the stand that the cause of family difficulties was because of Mr. and Mrs. McFarland.

Fleisher, after leaving home, came to Harrisburg and was employed at the Harrisburg Pipe and Pipe Bending works. The Court finally ordered him to pay a week toward the maintenance of his daughter, and continued the case of nonsupport of the wife to the March sessions.

In Courtroom No. 2, after their case had been heard, Mr. and Mrs. Daniel Franz left the court together. Franz had been ordered to pay his wife \$7 a week. The case against Amos Garverich and his brothers and sisters for nonsupport of a parent, was continued until the March sessions.

**8TH REGIMENT ORDERED HOME**

**Companies D and I Will Reach City About Feb. 15; to Hold Reception**

The Eighth Regiment, Infantry, National Guard of Pennsylvania, now at the Mexican border, is part of troops included in an order to return home, issued Saturday by the War Department. Colonel Maurice E. Finney is in charge of this regiment, and Companies D and I are from Harrisburg.

While no official time has been fixed for the departure of the troops from El Paso, it is understood the Eighth Regiment will leave within the next three weeks. Orders fixing the time for departure from the border are expected by Friday. Rolling stock will have to be provided for the troops, numbering 25,000 soldiers. It will require two weeks to get ready to move, and at least five days to come from El Paso to Harrisburg.

To Hold Reception

As soon as it is definitely known regarding the time of departure of the Harrisburg companies, the Harrisburg Chamber of Commerce committee and other local organizations will start activity in preparation for reception to the Harrisburg companies and staff of the Eighth regiment which has its headquarters in Harrisburg. An Associated dispatch from Washington, D. C., to-day says: "War Department officials explained to-day that some units of the 25,000 National Guardsmen whose return from border service has been ordered probably could start for home within a few days and that all will be returned for muster out as rapidly as transportation facilities can be supplied. General Funston selected the organizations which are to be withdrawn according to a general plan of relieving those longest in border service. Troops from 25 States and the District of Columbia are included in the order."

The Pennsylvania guardsmen ordered home include the Second Field Artillery, Sixth Infantry, Eleventh Infantry, Company C, Engineers, Third Brigade headquarters. The Pennsylvania troops will return direct to their armories and will not go to the mobilization camp. They will be mustered out under directions from Major General Leonard Wood, commander of the Eastern Department of the Army.

**Farmer Gets \$5,000 For One Year's Toil**

Huntingdon, Pa., Jan. 22. — Jacob F. Bronneman, who formerly farmed in this county, but six years ago purchased the Levi and James Sparr homestead in Clover Creek community of Blair county, just has completed threshing and gathering in his crops for the year. He raised 800 bushels of wheat, 775 bushels of oats, 2400 bushels of corn and about 65 tons of hay. These crops at present wholesale prices off the farm will total \$4000.

Besides, he has had a number of smaller crops and the natural increase of his animals, poultry, etc., which should bring the total value of his farm products to \$5000 for the year.

**Like a Foe in the Night Impurities Creep Into the Blood**

**Important That the Life-Giving Blood Supply Be Kept in Perfect Condition.**

In this day of keen competition you cannot afford to overlook the slightest advantage. You must keep in perfect physical condition, and ever on the alert to tackle the day's problems. You cannot afford to permit any impairment of your health. Anything that affects your physical well-being is a handicap that will prove serious. The most important part of your physical makeup is the blood supply, and upon its condition depends the proper action of every vital organ of the body. If the blood has become impoverished by impurities creeping in, if the circulation is poor and inadequate, the first effects are a general run-down and "good for nothing" feeling that renders you unfit for the performance of your ordinary tasks.

This condition robs you of your usefulness. But worse than that, it renders the system unable to resist disease, and almost any serious sickness may prove fatal. Take no chances; keep the blood absolutely free from all impurities. S. S. S. is one blood remedy, guaranteed purely vegetable. It has been on the market for more than fifty years, and its use will make the blood pure and rich. S. S. S. is sold by druggists everywhere. **JAPAN NO PERIL DECLARES AINEY**

**Says the People of Mikado's Land Admire and Respect Americans**

Club nights at the University Club were given an impetus Saturday evening when Chairman W. D. E. Ainey, of the Public Service Commission, entertained the members and their friends with an informal discourse on Japan and her attitude toward the United States. Mr. Ainey is a member of the International Parliamentary Union, an unofficial organization with representation in many governments in the interests of peace.

Mr. Ainey deplored the careless free talk of the uninformed and the exaggeration of the press in regard to the unworthiness of the Japanese to be trusted and the imminence of at least inevitable war. He regretted the discrimination of California legislation against our friends of the Far East in the matter of land tenure, school privileges and immigration.

"Unless America changes its present suspicious attitude that is offending the dignity of Japanese life, the very thing that we are trying in this country to avoid will be precipitated, and wholly through our own lack of perception. That we in this country do not appreciate the feeling of the Japanese, their attitude toward expansion in China and their innate and inherent admiration and respect for America is illustrated by the crude way we depict the mikado in cartoons," went on the speaker. "The reverence they have for their ruler amounts almost to worship and it is offensive to their national pride to make light of such a sacred thing. They are simply trying to establish a Monroe Doctrine, a doctrine of self-interest, for Japan, and surely we cannot blame them for that."

**The "Yellow Peril" Folly**

Out of a surplus population of some 50,000,000 there are only 100,000 Japanese in this country, and they own but a few paltry acres of land in California. "Scarcely sufficient to constitute a Yellow Peril, is it?" queried the speaker. "Japan has developed into a powerful nation and is in a position with regard to China (a sleeping giant of 400,000,000 population) as would the United States be to Mexico if the latter had 800,000,000 people within its borders. She wants to keep her surplus population at home and she is not interested in getting possession of the Philippines," continued Mr. Ainey.

The talk was in the nature of a virile defense of Japan and recited that there should be no widespread opinion abroad here that we are in imminent danger of war with the no longer little nation of the Far East. They are striving to adopt the principle which holds in America of "The Fatherhood of God and the Brotherhood of Man," and it behooves America, in the estimation of the speaker, not to spoil the situation.

Refreshments were served with Rutherford catering.

**Busy Gaining Information on Stocks Three Days Before Note Was Published**

New York, Jan. 22. — Sherman L. Whipple, counsel for the House rules committee in its inquiry to determine whether anybody profited by a "leak" when President Wilson's peace note was sent to the entente allies was busy in the financial district to-day getting ready for the opening of hearings here to-morrow. The members of the committee will not arrive until tonight or to-morrow morning.

The understanding in financial circles is that the inquiry probably will not be extended to a complete investigation of the New York Stock Exchange. The present plan is to call the first witnesses and question them about the exact procedure in the selling and buying of stocks. This information, it is understood, will be used by the committee to guide their examinations which will be made into all stock sales on the three days preceding the publication of the note. The purpose in transferring the hearing to this city was to enable the committee to get the testimony of brokers and Stock Exchange officials without delay if occasion arose to question them.

It is expected that expert accountants will be engaged to examine the books which the committee hopes to get hold of. This phase of the investigation will take several days.

**Internal Bathing's Rapid Growth**

It is but natural to expect that a relief from Constipation and the ailments which it causes which is so effective and natural as Internal Bathing should quickly meet many converts.

But its general use has increased so tremendously in the past few years, and these are the statements of users that they feel as if "made new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes: "Dear Doctor—Your 'Cascade' made a new man of me at the age of 40. I persuaded my wife to use the treatment also and to-day she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have been a condition of the past; can eat anything on the bill of fare and drink all beverages. Do not take colds when the hot weather does not cause oppression."

The "J. E. L. Cascade," the most efficient device for Internal Bathing is being shown and explained in detail at Croll Keller's, 405 Market street, and George C. Fott's Drug Store, Harrisburg. Ask for free booklet, "Why Man of To-Day Is Only 50 Per Cent. Efficient." Advertisement.

**Explosive Whisky Barrel Kills One, Maims Another**

Richmond, Texas, Jan. 22. — While the two little children of Charles Meyer, of Needville, were playing at their home they pulled the bung out of an empty whisky barrel and threw a lighted match inside. Instantly there was a loud explosion and one of the children was instantly killed and the other is so fatally injured that her life is despaired of.

The sister was playing in the yard where it seems the empty barrel had been placed, with the bunghole to the ground. Upon turning it up, gas began escaping and the children applied a lighted match, causing the explosion. The dead girl is Helen, 5 years old, and the sister, who is 7 years of age, had her right hip broken.

**250,000 Belgian Pupils Given Extra Meal a Day by American Commission**

New York, Jan. 22. — The giving of an extra daily meal to 250,000 Belgian schoolchildren was the greatest accomplishment of the American Commission for Relief in Belgium, in the opinion of its chairman, Herbert C. Hoover, who has just arrived here from Liverpool. Mr. Hoover to-day began with his colleagues to devise relief plans for another year.

The extra meal consists of only meat hash and bread, the commissioner said, but it has helped greatly to increase the attendance at school. Many children previously had remained at home because their parents feared they would go hungry if
