### Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Fr morning, most if not all, of your capsurff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: "Any lady or gentleman can darken their gray or faded hair and make it soft and glossy with this simple recipe, which they can mix at home. To half a pint of water add 1 oz. of bay rum, 1 small box of Barbo Compound and 1/4 oz. of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It is not sticky or greasy and does not rub off. It will make a gray haired person look 10 to 20 years younger."

If you have catarrh, catarrhal dearness, or head noises go to your druggist and get 1 oz. of Parmint (double strength), take this home and add to it ½ pint of hot water and 4 oz. of granulated sugar. Take 1 tablespoonful 4 times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat.

It is easy to make, tastes

the throat.

It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it is just what you need.

Again Geraume Ish looked up brightly.

"By the way, Billy, I nearly forgot. I was going to give a party for Tavy and you, when you interrupted the program. Suppose we make it the seventeenth?"

CHAPTER XXV

The Gayest Night of Tavy's Life
How can any one in the world be
so flutteringly happy as a Tavy Stuart,
and contain it all? Why, this is her
first real party; and such a party it
is! The big Benning house blazes
from every window and, wherever one
goes there is the buzz of gay conversation, the sounds of gay laughter,
the strains of gay music, Tavy wants
to say that it is like a fairyland, but
that word scarcely seems adequate,
for she has seen so many fairylands
of late, and this is so much bigger,

"America's Greatest Light Six" C'America's Greatest Light Twelve

# Haynes 1917 models advance at least \$100 on February 1st

-there will be no further changes in models

### Other "Sixes" have already advanced

Weeks, even months ago, other makers raised their prices. One man-ufacturer of "Sixes" has advanced prices nearly \$300 in nine months for the same model. Other cars bear higher prices today than purchasers of similar models paid but a short while ago.

The Haynes may be bought today for the same money that it cost about a year ago. But this unusual opportunity ends at midnight, January 31st. Higher costs for 1917 materials force us, on February 1st, to increase our prices at least \$100.

### Worth \$300 more by present standards

We have been urged on many sides to advance Haynes prices \$200 or \$800. Keen-sighted men have told us "Other makers are doing it. The Haynes always has been too low-priced for the quality you put into it. Haynes cars, even at \$300 more, are a bargain when you look over the field and see how other cars have jumped

"No" has been our reply to all such urgings. We have refused point-blank to take advantage of rising costs as an excuse to "boost" our prices more than necessary.

For the time being the additional amount which we shall add will cover our increased costs, and we shall use the same quality materials, the same skilled workmanship, the same care as heretofore.

# No motor excels the Haynes

The Haynes, at the increased cost, will represent an unparalled investment. For this is the model which for three years has been so successful as to require only minor refinements.

The Haynes light, high speed motor actually develops more power than any other engine of equal bore and stroke (81/2 in. x 5 in). With smchanged gear ratio, it will give you sixty miles per hour, then "snake along" at under a mile an hour on high, climb "low gear hills" on high, accelerate to thirty-five miles per hour from a standing start in seven and one-half seconds, and pull you through hub-deep roads for miles without over-heating.

Mind you, we speak of the regular stock Haynes motor—the very same motor that you will find beneath your hood.

### You can afford to run a Haynes

Thousands of times in the past two years the astonishingly low upkeep cost of the Haynes "Light Six" has been demonstrated. 8,000 miles on tires, high mileage on gas and oil, are the rule. The big, powerful, beautiful Haynes actually rivals the economy records of the smaller cars.

### Save at least \$100 on the 1917 Models

A few days remain until February 1st. Then the price for the identically same Haynes which dealer offers you today, will be at least

What few things may be bought today at the same prices which prevailed about a year back? What other latest type "Six", for example, can you still obtain at the old price?

Is it not worth while to investigate the local performances of Haynes cars during these next few days that you may decide prior to February 1st on the purchase of one, rather than to pay at least \$100 more for the same car a little later?

## THE HAYNES AUTOMOBILE COMPANY, Kokomo, Indiana

The following prices advance at least \$100 on all orders placed after January 31st:

"Light Twelve" - Open Cars er Touring Car -
