DEPENDENCY IS GIVEN A RULING

Interesting Decision Presented by the State Compensation Board Today

The State Compensation Board in an opinion by Chairman Harry A. Mackey has ruled in favor of compensation for the widow of Stephen Mikulasko, an employee of the Carnegie Steel Company, although she resided in Chicago and was separated from her husband. The woman was deserted by her husband because she was an epileptic and he sent her a small sum of money, since which time she has been supported by a Chicago charitable organization, as she has been unable to work regularly.

"Sentiment can play no part" in construing the compensation act, says the chairman. "There must be no confusion between the marital rights of either husband or wife under either common or statutory law and the obligations created by our Legislature under the compensation law."

Hair Often Ruined by Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

DOUTRICH'S

Particular Customers

How We Try to Please Them

The difficult customer is the one we study hard to please. Most any store can satisfy the other class.

Our object in making a specialty of serving the particular customer is this: the particular patron, when pleased, proves the most ambitious advertiser of this "Live Stores" service.

And you know it is what our customers say of us, and not so much what we say of ourselves, that counts.

Customers have had and always will have reason to complain.

Customers are not always met with special consideration by salespeople.

We know this, and knowing it we try to make this "Live Store" the exception — try to treat everybody with what is called "DOUTRICH" service.
