

Without An Operation

Wonderful Healing of Rupture How a New Jersey Man Got Rid of a Severe, Obstinate, Right Inguinal Hernia Without the Slightest Trouble.

Below is a picture of Eugene M. Pullen, a well-known carpenter of Manasquan, New Jersey. If you could see him at his work, particularly when he handles heavy timber, jumps and climbs around like a youth, you would scarcely imagine that he had formerly been afflicted with a rupture.

Ruptured in Right Side.

At an early age, Eugene Pullen was an express driver. He handled railroad baggage. One day after delivering a heavy trunk on an upper floor he felt a pain in the right groin. The suffering increased and it was not long before the young man noticed the swelling. The doctor told young Pullen that he was ruptured and that he must either wear a truss throughout life or submit to a drastic operation. All surgeons know that hernia operations, with anesthetics, etc., are dangerous; they may end fatally. Moreover, it is a well established fact that many rupture operations are not successful; the bowel soon breaks through the sewed-up opening and protrudes worse than ever.

Affraid of Operation.

Like most others, Mr. Pullen declined to take the risks of an operation; the expense and loss of time had to be considered, too. Hoping he might get a little better encouragement, he went to another physician, who, to his sorrow, gave him even less hope. It was pointed out to the young man that unless the rupture were perfectly held all the time or the surgeon's knife successfully used, he might expect an increase or doubling in the rupture with further complications, or the dreaded strangulated hernia which kills so many ruptured people.

Victim of Trusses.

The victim bought a truss, a hard, spring-like affair, the best he could get. It tortured him. He tried another—still no relief. He was compelled to give up his energetic business. The hard tasks of ordinary men were forbidden him. He became an insurance agent, in which position he did not need to do bodily work. For six years Mr. Pullen dragged around, using various trusses, hard, elastic, etc., with never any contentment. One day his mother told him something she had just found out. It was a simple and easy thing for him to do. He lost no time.

Discarded His Truss.

Relief came at once; he almost forgot that he had any rupture. Afterward came a cure—a complete healing—and, although years have passed and Mr. Pullen is an energetic carpenter, working on buildings, climbing over roofs, lifting lumber and such like, he is absolutely free from the old hernia. He knows he is completely, lastingly cured. There was no operation, no loss of time, no trouble—comfort and contentment from the very outset. He is a strong, cheerful-minded man.

Valuable Information Free.

The valuable information which Mrs. Pullen read in a newspaper many years ago and gave to her son, together with further important facts will be sent free to any reader of this who writes to Eugene M. Pullen, 907 C. Marcellus avenue, Manasquan, N. J., enclosing a stamp for reply. Mention the kind of rupture you have, whether on right or left side and what you have already done in your effort to cure it. A legion of cases of all kinds of rupture in men and women, including inguinal (groin), femoral, navel, scrotal, etc., have been reported completely healed. Age seems to make no difference. — Advertisement.

Forty Years in Solitary Confinement, He Objects to Ordinary Imprisonment

Boston, Jan. 27. — Jesse Pomeroy, when officially notified yesterday that his sentence of solitary confinement had been commuted to ordinary imprisonment for life, told Warden Nathan D. Allen, of the State Prison, that he did not want the change to be made. He declared he had asked for a pardon and if this could not be granted, he preferred to remain in his lonely cell. Warden Allen said that he would ignore the prisoners' objections and would place him at work with other prisoners to-morrow. If he declines to work he will be given a term of punishment applicable to any other prisoner. Pomeroy was convicted more than forty years ago of the murder of a boy. The executive council on Wednesday last voted to commute the sentence.

Baker Is Believed to Have Resigned From Federal Shipping Board

Sacred Folk Song Concert at Market Square Planned

The choir of Market Square Presbyterian Church, under the direction of Mrs. Wilbur F. Harris, with Mrs. John R. Henry as organist, will present at the evening service on February 25 a program of sacred folk songs.
So much attention has been given in recent years to the sacred music of centuries gone by that this service promises to be one of rare beauty and interest. The program will include the old Dutch folk song "God's Hand," arranged by Josef Hofmann, with English words by Edward Bok; the old French song, "Naught Is So Sweet," by Michel Eymieu (1875); "Sky So Bright," old German; "Jesu, Thou Dear Babe Divine," a traditional cradle song of Haiti, and two old negro spirituals, "O My Grave" and "Deep River," arranged by Burleigh. The organ numbers will include the large from the "New World Symphony" by Dvorak.

Washington, D. C., Jan. 27. — Bernard N. Baker, of Baltimore, refused today either to confirm or deny reports that he had resigned as a member of the Federal Shipping Board. There was a wide belief in official circles, however, that the report was true. No light was thrown on the situation at the White House.
Reports of Mr. Baker's resignation have said it was due to differences over organization of the board. Members have been arriving this week since their confirmation and the first meeting was to have been held next week. At that time, it is understood, a chairman would be selected.
Although no officials would confirm the report of the resignation to-day, many privately expressed the opinion that it was true. Mr. Baker was to have gone to Pittsburgh yesterday to speak before the National Foreign Trade Council, but at the last moment declined.

Mr. Baker helped frame the shipping act and was one of its most ardent champions before committees of Congress. He was named for a term of five years. It has been said that William D. Ford, of San Francisco, named for the six-year term, would be made chairman of the board.

Economic Preparedness For National Crisis Discussed by League

Washington, D. C., Jan. 27. — Various kinds of economic preparedness for a national crisis were discussed to-day before the congress of constructive patriotism of the National Security League. A platform was prepared on which the league will wage a campaign for education to arouse national spirit as well as for universal training and other military and naval activities.
Representative Gardner, of Massachusetts, protested against entrance of the United States into an international agreement to enforce peace, on the ground that it would involve the conscription of our Asiatic wars in which it had no interest.
"How would we have fared through-out this national history if, instead of fighting our battles, had been asked to depend upon arbitration?" he asked, "We would be a colony of England to-day. Taxes would still belong to Mexico; slavery, unless arbitrated by Great Britain's order, might have lasted down to the present time. Cuba would even now be struggling under the domination of Spain."

Wheat Yield of McCormick Farms Exceeds That of Nation

The average yield of wheat per acre last year was 22 bushels, according to reports received from eleven farms at a meeting of the McCormick Farmers' Club of Cumberland County at the home of George Nauss yesterday. This figure exceeds the average yield in the state by 3 bushels and also the average yield in the United States by 8 bushels. Reports were made by the farmers that the condition of the crops which are in the ground is good and not at all hurt by the low temperature. The next meeting will be held in the Carlisle courthouse February 17.

Dr. Rebeck declared that for the state to demand the life of a mentally deficient person who has committed murder or some other ethically and morally wrong act.
