by the French this morning in the sector of Hill 204, northwest of Verdun, where the German offensive scored in its initiative. All the attacks, however, are declared to have failed, with heavy losses to the French. Paris last night announced that yesterday's attacks in the vicinity of Hill 204 had resulted in the Germans being driven from most of the trench elements they had penetrated. To-day the French war office mentions only a destructive fire which the French batteries had been pouring upon the German lines in the region.

Hard Fighting Below Verdun In the region southeast of Verdun there has also been lively fighting. The Germans made a surprise attack at Eparques, but the French fire broke up the drive, the Paris statement reports. Otherwise there have been only raiding operations, artillery engagements and aerial activities on the Franco-Belgian front. The French announced that five hostile airplanes were brought down during the day yesterday.

Why Goodyear Tires Win Friends

Business, it is said, finally resolves itself into a matter of dealing with friends.

From the first, the affairs of this Company have been conducted on that principle.

We sought to obtain friendship by deserving it.

By building into our product downright worth—fertile ground for confidence and respect, the very seeds of friendship.

We won friends to Goodyear—won them in prodigious numbers.

But our purpose continued unchanged, for holding friends is as important as winning them.

If you will look at a Goodyear tire, a Goodyear tube, or any of the Goodyear accessories, and learn what they mean in quality, in value, in service, you will readily understand why the friends who came to us in the early days are with us still.

If you will try a Goodyear tire on your car, you will understand why these friends were joined by other friends month after month, year upon year, until the Goodyear clientele became the largest single group of tire-buyers in the world.

If you will consider the growth of this business, you will realize the stupendous power of the good word spoken man to man, of the enthusiastic comment, of friendliness.

And you realize, too, why we spend upon our product so much of effort and of money to encourage the good word, to foster such friendliness.

—“a matter of dealing with friends.”

Tire-buying will become that to you after your first Goodyear purchase.

Whether you buy a Goodyear Fabric tire, a Goodyear Cord, a Heavy Tourist tube, or minor items.

Each harbors the source of your greater satisfaction and our better relation—Goodyear quality.

Lapses Into Coma Mrs. Ethel Byrne is in a serious condition, according to her sister, Mrs. Margaret Sanger, who said she had learned of it "on reliable authority."

Mrs. Byrne lapsed into a coma at 5 o'clock, a few hours after having nourishment forced upon her. Mrs. Sanger said, and was still unconscious at noon. A bulletin issued by the prison authorities at 10:30 a. m., described Mrs. Byrne's condition as "slightly improved." She had been fed one pint of milk, two eggs and a stimulant.
