DRINK HOT TEA FOR A BAD COLD
Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.
It is inexpensive and entirely vegetable, therefore harmless.

Wilkes-Barre, Lehigh, Nanticoke, Shamokin
Mahanoy, Locust Mountain, Lincoln, Williamstown, Brookside, Lykens Valley, etc., etc., are geographical names of some of Pennsylvania's numerous coal mines.
In each of these mining districts there are many collieries. Some varieties of "Wilkes-Barre" coal are very desirable while there are other mines in the same region producing inferior coal. The same conditions applies to every mining district.
By reason of our vast experience in the coal business we have been able to locate those mines that produce inferior quality. This coal is sold by us under the trade name "Sun-Glo" coal.
"Sun-Glo" coal stands for the best varieties of coal mined.
We operate in this city one coal yard on the Reading Railroad and one yard on the Pennsylvania Railroad.
This enables us to supply our customers with a big variety of kinds and sizes. If one kind does not exactly suit you we can easily supply you a different grade.
