CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if tongue is coated, breath hot or stomach sour.

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful to-day saves a sick child to-morrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

Issue Complete Records of Medical Care Given County Almshouse Inmates

Complete reports of medical treatments to inmates at the Dauphin county almshouse were issued by the Directors of the Poor for the period from June 10 to December 31, 1916. The records were submitted by Dr. M. L. Hershey, attending physician, and show that during that time there were given 14,124 treatments during 3,522 visits to patients. Sixty-two deaths were reported, four inmates were sent to the asylum and there was one birth.

In the list of diseases treated tuberculosis is in the lead, forty cases having been given. Medical attention was cared for 34 sufferers from rheumatism. Total disease and injury cases treated were 277.

The report of the physician was given to County Controller Henry W. Gough and may be published in connection with the annual report of the Poor Board.

It is the plan of the Poor Directors to continue having an accurate record kept of all medical care and attention given at the almshouse. This will be included in the annual report of the board. Blanks will be furnished for tabulation.

PROMPT WORK TO SAVE \$6,000 FOR VOTERS

fill the office of councilman for about nine months.

Nothing Political in Bill

"There is nothing political in the bill so far as I know," said Senator Beldeman to-day. "The bill is a measure to save the county \$6,000 for a special election. Remember, I represent the county districts as well as the city and it is the county—not the city alone—which must spend this money. Does it seem fair to ask the farmers and the property owners of the small towns to pay for the election of a councilman for Harrisburg? How would the people of Harrisburg like to be asked to pay \$6,000 for a township supervisor for the county districts? I think the people of both city and county will agree with me that \$6,000 is an item well worth saving and that a bill that has the approval of such worthy men as make up the law committee of the Third-Class City Law would which will have this money is well worth passing."

Taylor No Candidate

"It is nonsense to say that I am back of this bill because I want to make Harvey Taylor councilman. I have heard that Mr. Taylor is a candidate, and I believe I would have heard if he had aspirations for the place. There is no politics in my stand. I simply want to save \$6,000 of the people's money and I am going to do all toward that end that I can."

M. Harvey Taylor, asked to-day whether or not he is a candidate to succeed Mr. Bowman in council said he is not.

"I am not a candidate for the Bowman vacancy or for any other vacancy in council," he said. "I am not a candidate. Have not been a candidate and under no circumstances will I be a candidate."

Provisions of Bill

The bill prepared at the direction of the law committee of the Third-Class City Law provides that if, for any reason whatsoever, a vacancy occurs "or exists at the time this amendment goes into effect," a majority of the members of council may fill the vacancy within 30 days after it occurs, the man chosen to serve until his successor is elected at the next regular municipal election.

If there is no vacancy in the court of common pleas is to fill the vacancy upon petition of ten or more qualified electors. If a majority of the offices are vacated the remaining members shall fill the vacancies one at a time, so that a newly chosen man may participate in the election of the subsequent members. If all the offices should be vacated the court of common pleas is to fill them.

REAL ESTATE BIG REAL ESTATE DEALS COMPLETED

Valuable Farms in County and City Properties Exchanged in Transfers

Two big realty deals were consummated to-day when valuable farms in Dauphin and Lebanon counties and city properties were purchased.

E. M. Hershey, attorney and realty dealer, to-day exchanged eighty city properties for four farms of the E. L. Fackler estate, located in Lower Paxton township near Beaver.

The farm land covers 575 acres and is valued at more than \$35,000. Two of the farms have already been sold by Mr. Hershey, one to E. J. Alleman, of near Highspire, and another to Henry Alleman, of Camp Hill. No considerations were given in these transactions.

The city properties transferred to Samuel S. and C. C. Fackler are five three-story brick houses at 1203, 1203½, 1207, 1207½ and 1209 Mulberry street; one 2½-story frame house at 207 South Fifteenth street and two 2½-story frame properties, 1501 and 1501½ Derry street.

The other transfer which was announced was the payment of \$18,125 by the Palmyra Quarry Company for ninety acres of farm land in Derry township, Dauphin county, and in Lebanon county, owned by Eugene W. Bowman and Mrs. Carrie E. Bomberger, of Palmyra. It is understood that the land contains limestone deposits.

Other realty transfers include: State Real Estate Company, one 2½-story frame dwelling in Kensington street to E. M. Hershey, \$1; William V. and J. Russell Tomlinson, one 2½-story brick house, 1619 Regina street, to Mrs. Annie T. Tomlinson; Sarah G. Prizen, 101 Evergreen street, to Anna A. Elder, \$10.

GERMANY WILL ENCOURAGE PEACE

Newspapers Say Wilson Will Be Urged to Complete His Efforts

London, Jan. 31.—The German newspapers, according to a Rotterdam dispatch to the Exchange Telegraph Company, intimate that Germany will acknowledge President Wilson's speech in such a way as to encourage the President to continue his efforts in favor of peace.

According to the dispatch Count Von Bernstorff has been instructed to say that Germany is ready to formulate peace terms if asked to do so by the allies and if there is a possibility of peace negotiations being successfully undertaken. The dispatch adds that Austria has sent a similar communication to the Austrian charge d'affaires at Washington and that it is believed Bulgaria will follow the example of the Teutonic powers.

Poles Deeply Grateful For Wilson's Plea For Independence in Talk

Warsaw, Jan. 30, via Berlin, and London, Jan. 31.—The Provisional Polish State Council has telegraphed the following message to President Wilson in regard to the President's recent speech to the Senate:

"The provisional State council of the kingdom of Poland, which came into being by the proclamations of November 5, 1918, solemnly announced by the monarchs of Germany and Austro-Hungary, has the honor, Mr. President, to take cognizance of your message. It is the first time in this war that the head of a powerful neutral State at the same time is the chief representative of a great nation has declared officially that according to his conviction, the independence of the Polish State is the only just solution of the Polish question and an insurmountable condition of a lasting and just peace. For this wise and noble understanding of the rights of the Polish people, Mr. President, the provisional State council tenders you deepest gratitude and respect in its own name and in the name of the Polish nation."

Have Money For Dependant Poles; Can't Get It to Them

Members of the State Workmen's Compensation Board were to-day asked by committees representing the Polish War Victims Relief Fund what to do about amounts awarded relatives of Poles who happen to be killed in industrial accidents in Pennsylvania because of the unsettled conditions in the greater part of Poland due to the war. It was represented that dependents of Poles killed in this State had probably greater need of the compensation which the State awards now than ever before and yet there was difficulty in transmitting the money. The question is the first to arise as a result of the war and the State Department at Washington may be asked to give advice.

CHAIRMEN PROBE DEFICIENCIES

Public Printing and Public Grounds Heads Explain Why They Need Money

The big deficiencies in the State Departments of Public Printing and Binding and Public Grounds and Buildings reported by their acting chiefs to the Governor for incorporation in the general deficiency bill were inquired into to-day by Chairman Buckman and Woodward, of the legislative appropriation committee, and it is possible that developments may have a far-reaching effect upon appropriations for unforeseen contingencies.

The printing department reported a deficiency of \$265,000 and it was stated to-day that the bulk of this was for printing. The organization of the Workmen's Compensation and State Insurance Fund bureaus and the extension of the work of the Department of Labor and Industry as well as installation of the vocational education system and other new matters of government caused orders far beyond what was anticipated.

The paper contracts made by A. Nevin Pomeroy protect the State pretty well but they will run out before long. The State, as a matter of fact, was in excellent shape in the face of the rising market for paper. The department of public grounds reported a deficit of \$129,500. Part of this was accounted for by the remodeling and refurbishing of the Executive Mansion and by the purchases which had to be made for various things in a rising market. It was a bad year for all departments laying to do with supplies.

The agricultural, highway, mines and fire marshals' departments also explained their deficits, which are not large.

The total deficiency is reported at \$720,000, including money to run the Government to June 1. The Governor cut \$977,660 from the departmental appropriations but a dozen or so departments reported no deficits or need of money to run them the rest of the year.

People Must Learn What to Eat and How to Live to Reduce Living Cost

New York, Jan. 31.—If the people of this country would reduce the cost of living they must learn what to eat and how to live, according to Dr. Harvey W. Wiley, who addressed members of the Economic Club of New York at a dinner last night.

"All that is necessary," he declared "is wheat and milk for children. The wheat problem is not much of a problem in my family. My boys eat whole wheat or brown bread and butter and milk."

"If to-day we could come to this simple life no one would complain of the high cost of living."

"If to-day's I could go into the home of the wage earner and he and his wife would listen to what I have to say as to what they should buy and what they should eat, I could double the wages of every laboring man without adding one cent to his stipend."

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a tencup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieves congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezoon, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezoon at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.
