BEULAH LAND
1. I've reached the land of corn and wine,

And all its riches freely mine;
Here shines undimmed one bilssful
day,
For all my night has passed
away.

O Beulah Land, sweet Beulah

As on thy highest mount I
stand,
Land,
Land, way agrees the sea

I look away across the sea,
Where mansions are prepared
for me,
And view the shining gloryshore— My heav'n, my home, forever-more!

A sweet perfume upon the breeze
Is borne from ever vernal trees,
And flowers that never fading grow,
Where streams of life forever
flow.

The zephyrs seem to float to me Sweet sounds of heaven's melody, As angels with the white-robed throng Join in the sweet redemption

HOME OF THE SOUL.

I will sing you a song of that beautiful land.

The far-away home of the soul,

Where no storms ever beat on that
glittering strand,
While the years of eternity roll.

O that home of the soul, in my visions and dreams
Its bright jasper walls I can see,
Till I fancy but thinly the veil intervenes
Between the fair city and me.

That unchangeable home is for you

and for me,
Where Jesus of Nazareth stands;
The King of all Kingdoms forever
is He.
And He holdeth our crowns in
His hands.

TE ARE accustomed to wonderful things undreamed of twenty years ago. Of these the greatest has become the most commonplace—the motor vehicle.

The taxi habit has made horse-drawn carriages a novelty, and one in every thirty-three persons in the United States owns a motor car. Aside from pleasure, the convenience and certainty of getting from place to place quickly has become a necessity.

Speed and certainty of transportation are doubly important in moving merchandise; the motor truck came just in time to make possible the business of caring for our rapidly increased population.

Out in the country towns, as well as in crowded centers, people demand the service that only the motor truck can give. They demand it for the delivery of everything-ice, coal, groceries, clothes.

The merchant, manufacturer or transportation company that has not motorized his delivery system is looked on with some question to-day—his competitor has stolen a march on

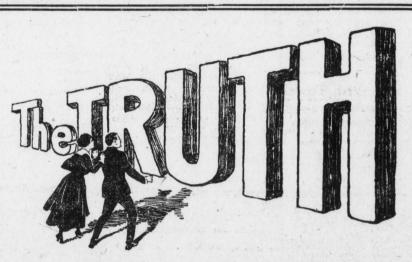

All the big express companies are well equipped with motor trucks of different sizes and capacities. Department stores use them almost to the exclusion of horses. The modern hospital increases its usefulness and its field of service by the swift motor ambulance. Our Government is every day using more and more motor trucks.

The motor truck is a necessity, and the progressive business man of to-day has already purchased motor trucks or will in the very near future.

But it is not a question of any motor truck. It is a question of reasonable first cost, economy of upkeep and operation, and efficiency in keeping everlastingly at work.

Above all, the motor truck owner must have effective, continuous and reasonable after-sale service. His only assurance of this lies in purchasing from a responsible and successful manufacturer.

Coffee does disagree with many. And in these days of accurate scientific knowledge there's no virtue in appearing astonished when this truth is faced.

Caffeine (the drug in coffee, and in tea also) leaves the system in an overworked and debilitated state, and is responsible for various serious ills and discomforts.

Thousands who desire an appetizing hot table beverage with none of coffee's drawbacks, find a most delightful one one containing no deleterious substance whatever-in

the pure cereal food-drink.

Nourishing, economical and wonderfully delicious.
