GEN. WOOD WANTS REORGANIZATION

Says War Department Should Be "Sandbagged" First; Objects to Joint Control

Washington, Feb. 1.—General Leonard Wood yesterday appeared for the second time before the subcommittee of the Senate Committee on Military Affairs, which has been conducting hearings in preparation for framing a bill to provide universal military training.

Declaring again that the National Guard system was "vicious and indefensible," General Wood acknowledged that the regular army had defects, agreeing with a question by Senator Lee, who pointed out that the regulars had played their part in the border mobilization failures, the General said:

"Yes, and I would go after the War Department with a sandbag and reorganize it."

PROBES STARTED INTO ACCOUNTS

Heads of several branches of the State Government are understood to have started some probes on their own hook into the financial affairs of their departments, especially in the matter of expenditures for traveling and incidentals. For the last week or so there has been a vigorous scrutiny of accounts in quite a number of departments and commissions with the idea of seeing that everything was what might be termed safe in the event of an investigation and that there would be a minimum of explanation required, while at the same time it could be ascertained whether any items charged to the State could be classed as personal and refund made.

It is understood that among the departments overhauling expenditures for the last four or five years are Agricultural, Labor and Industry and Mines. The Labor and Industry investigation which was set afoot by Commissioner Jackson, will go back into the days of the old factory inspector department.

Highway Commissioner Black, who received a letter from the Governor yesterday informing him that "joy-riding" in State automobiles must cease, is said about the Capitol grounds marked for "irritation" in the hope that he will resign. The story goes that Mr. Black's place is to be filled, if he gets mad and resigns by J. Denny O'Neil, the insurance commissioner. No one interested would talk about it. Some time ago Mr. Black decided to play politics in his department and incurred the hostility of some of the more strenuous members of the State administration, but it was thought that things had blown over.

The Governor's office declined to make any comments upon the passing show in politics to-day.

In view of the wide acquaintance and prominence of the deceased, it promises to be the most impressive funeral in the history of the region.

Archbishop Prendergast, of Philadelphia, with 200 visiting priests will attend the service.

Mother-Made, Quick Acting Cough Syrup

Should be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mothers, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and soothe the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$2.

The moment it touches the inflamed, cold-congested membranes that line the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract combined with quaiacal and is famous the world over for its quick healing effect on the membranes.

Beware of substitutes. Ask your druggist for 2 1/2 ounces of Pinex with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

PARDON POWER OF GOVERNOR GIVEN

The powers of the Governor in regard to action in cases of persons condemned to death are set forth in an opinion given to Governor Brumbaugh to-day by Attorney General Brown. He says that there is no act which provides that the Governor in his own initiative or in response to an appeal to him can appoint a commission to inquire into the mental condition of a person under sentence of death.

"The practice in this Commonwealth has been for the Governor to refer to the Pardon Board for investigation, any matters which ultimately come before the Governor in the way of pardons, commutations and remissions of fines and forfeitures," says Mr. Brown. "Remission of fines or forfeitures is a matter for the discretion of the Governor independent of any action of the Pardon Board."

LEAK INQUIRY CLOSES IN N. Y.

New York, Feb. 1.—The international crisis, making advisable the presence of all representatives in Washington is expected to bring the congressional "leak" inquiry here to a close to-night. All future hearings probably will be held in Washington.

Only sensational testimony to-day would hold the committee here longer than to-night it was said, and the morning session produced nothing of this nature.

F. A. Connolly, the Washington broker who wrote a resume of President Wilson's peace note ten hours before it was published, was on the stand most of the time. He did not swerve from his original contention that his information came mainly from "rumor and gossip."

Inquiry into the hint of a coming peace note carried by the Dow Jones ticker service at 2:05 o'clock on December 20, was resumed after Connolly left the stand.

James Reilly, manager editor of the Wall Street Journal, and the ticker service, said he put out the report largely on a "tip" brought him by a reporter, that the President would issue a peace manifesto Christmas.

TURKS ENTER DIZABAD

Berlin, Feb. 1 (by wireless).—Turkish cavalry is making additional progress against the Russians in North-western Persia, pursuing them on their retreat from Duzistabad and nearing the city of Sultanabad, Turkish army headquarters reports in its statement of January 30. Dizabad has been entered by Turkish troops,

G. O. P. CHIEFS LOOK TO 1920

New York, Feb. 1.—George W. Perkins and Everett Colby have formally requested William R. Wilcox, chairman of the Republican national committee, to call a meeting of the committee "to discuss fully and openly the grave and important questions that confront our country to-day."

"We are unwilling to believe," the communication stated, "that the national committee will be shortsighted and reactionary if called together for a free and open conference on the affairs of country. If the national committee after such a conference should decide that the Republican party shall remain reactionary, this should be known at once so that other alignments can be immediately made

and no time should be lost in preparing for the fight of 1920."

Profound Sensation in England Because of Germany's Declaration

London, Feb. 1.—The German declaration of unrestricted war at sea has created a profound sensation in England, where it was unexpected. All interest centers on the policy which neutral maritime nations will adopt. The decision of the United States is awaited with the most intense interest as it is recognized it will have a strong influence on other neutrals and the utmost importance factor in the solution of one of the most serious crises of the war.

Officials decline to discuss the question formally at present. It is pointed out that inasmuch as the note is addressed to neutrals and not to the

British government it is essentially for them to deal with.

Naval Officials Do Not Believe Germany Will Be Able to Sink Many Ships

Washington, Feb. 1.—Naval officials do not believe that a material increase in the damage to allied commerce is to be expected from the increased activities of German u-boats. Officers think it quite possible that Great Britain may assemble fleets of merchantmen and take them through the danger zone and under heavy guard of light swift submarine destroyers. A circle of such boats about the merchantmen, it was said, would make it exceedingly dangerous for a submarine to operate and while an occasional big ship might be torpedoed the greater number could be protected.

We have made careful tests of many kinds of coal. Only those products of uniform quality are sold by us.

To distinguish our high grade coal from others we sell it under the trade name "Sun-Glo" Coal.
