MUNITIONS IN HUGE LOTS CAN

Central Pennsylvania Will Be One Great Shop For Making Engines of War

TAKE NO CHANCES ON POSSIBLE DYNAMITERS

The United States Government is taking no chances that some misguided zealot or paid dynamiter will destroy those plants in which munitions can be manufactured. Throughout the country to-day heads of establishments were refusing information regarding their possible capacity. Harrisburg was no exception to this rule.

tente allies, Harrisburg and its manufacturing plants would be able on short notice to supply the Federal Government with huge quantities of ammunition of all kinds.
But information as to these quantities is not obtainable. A week ago, perhaps, these plants would have furnished the figures. To-day it is different. Has word been received that to permit the dissemination of this information may result in activities on the part of the dynamiters who, it is believed, have been responsible for innumerable explosions in various parts of the country?

of the country?

Will Commandeer Allies' Supplies
If war is declared the United States
Government will commandeer all munition, supplies already prepared and
in course of manufacture for the allies. This means that huge quantities
of shells, shell cases, shrapnel, detonating caps and other munitions now
on hand in Harrisburg will go to the
Federal Government. It is said that
in at least one local plant to-day word
was received that no further shipments must be made until permission
is received from authorities at Washreceived from authorities at Wash-

Plant Heads Reticent
Among the heads of the several
Harrisburg establishments in a position to manufacture munitions not one
man could be found this morning who
would consent to say in just what
quantities these munitions could be
produced. produced.
"I have nothing to say," was the reGeneral Motors

ply from all.

"For God's sake," said the manager of one big plant, "don't say that we are in a position to turn out war supplies."

It is known that the Harrisburg Pipe Bending Company can make millions of dollars' worth of munitions in a few months.

General Motors ...

a few months.

Quincy Bent, of the Pennsylvania
Steel Company, would give no figures,
on the possible capacity of Central
Pennsylvania plants able to make mu-

cent.

Bethlehem Largest Producer

There is no plant in eastern Pennsylvania, outside of Philadelphia, which could turn out such huge quantities of munitions as Bethlehem Steel.

And this company's total output, down to the last bit of shrapnel, will doubtless be commandeered by the United States in the event of war. The same thing is true of the Westinghouse and other corporations in Pittsburgh, the

STOCKS STAND SOLID WHEN BREAK COMES WHEN BREAK COMES Small Declines Followed by Good Gains on All Important Securities; Sales Exceed Million Shares The Harrisburg Railway Steel Spring Algebra (1825) (1938) (1

Securities; Sales Exceed Million Shares

New York, Feb. 3. — To-day's short session will go down in history as one of the most memorable in the annals of the Stock Exchange. Announcement of the memorable in the annals of the Stock Exchange. Announcement of the break with Germany came at the end of the first half hour, the market then followed an uneyen course evidently in anticipation of momentous developments. The first flash from Washington resulted in moderate declines. These gained headway on accelerated operations, rails dropping 1 to 2 points with greater losses in industrials and specialities. In the last half hour a broad and general buying movement under-lead of United States Steel soon turned many previous losses to substantial net gains. Steel rose to 104½, a gain of 4 points with 2 to 6 points in war issues. Utal Copper and shippings and 30 points in the steel. The closing was extremely feverish and strong as to important stocks. Sales exceeded 1,000,000 shares. Bonds were irregular.

to-day filed fifty-three additional complaints against jitney operators in this city, charging that they were running jitneys without public service certificates of public convenience and that there was no need for them as the trelley service is adequate. The contention is that the cases filed today and the eleven filed on Wednesday bring the jitneymen under the provisions of the decisions in the Wilkes-Barre and Allegheny Valley cases in which men were ordered to obtain certificates in some cases and refused right to operate on the ground that they were unnecessary for public accommodation. The jitneymen will fight the cases.

BORN OF DESPERATION

Petrograd, via London, Feb. 2.—The
Russian newspapers consider Germany's blockade announcement a
measure born of desperation because
of falling food supplies and the failure
of Germany's peace measures. The
Volla says the submarine order is a
contradiction of the rules of international law, since the blockade will
be necessarily restricted to "the usual
pirate acts."
