

For Grippe, For Colds—

Hot Lemonade at Bedtime

MOST children can avoid colds and grippe if a few precautions are taken. In bad weather plenty of hot lemonade followed by a warm night's sleep is a valuable help. Good for grown folks, too.

Be sure the lemons are "Sunkist" and the water is piping hot.

California's Sunkist Uniformly Good Lemons

When you order lemons, ask for Sunkist, the uniformly good California lemons. Sunkist are waxy, tart and juicy. See that they reach you in the clean, crisp tissue wrappers stamped "Sunkist". They will stay fresh much longer if you leave them in these wrappers until you use them. Always have at least a half dozen in the house.

While State administration sympathizers are charging that the Penrose people are dilly-dallying and scheming to prolong the legislative session at public expense in order to hamper the Governor the leaders of the dominant faction are declaring that they have refused to listen to peace overtures from the Governor's friends and have also charged that records in the Capitol are being tampered with in order to prevent any disclosures which may make trouble. Threats to probe the Penrose campaign expenses are being made again and there is an evident desire on the part of Brumbaugh followers to keep expense accounts where they cannot be touched.

The Philadelphia North American declares to-day that the Penrose policy ties the hands of legislators and that the senator is barking up the wrong tree when he says that the factional quarrel is the reason for the delay. The Philadelphia Ledger says that Penrose has enough votes to pass the Sprout resolution, but that he wants all of the senators present on Monday night. The Ledger declares it is the Penrose plan to "carry the Brumbaugh leaders off their feet," and that he has given notice that Mayor Smith, of Philadelphia, can avoid trouble by "lobbying for the governor."

Charges that the State administration having failed to secure a protocol in not trying to line up legislators against the probe are made by the Philadelphia Record to-day. The

WANTED AUTOS TO BE MADE EXEMPT

Unusual Request Made to the State Highway Authorities by a Notary

The automobile division of the State Highway Department has been formally requested to make 1916 automobile licenses issuable to National Guardsmen who have been at the border the last six months or more good until the first of next July. This request, one of the oddest made to the division, came from a notary who set forth that a number of soldiers own cars and that while they paid for licenses good for one year they had been prevented from getting full use of their cars because of absence in the service of the government. The division holds that it cannot grant the request.

Thus far the division has been able to supply automobile license plates for all motor vehicles except pneumatic tired automobiles on which the deliveries have been held up because of the inability of the Prison Labor Commission to supply the material. Total receipts for 1917 licenses thus far run over \$1,500,000.

February Meeting. — Meetings for discussion of legislation will be held here by three organizations during this month, two of them representing municipal divisions. The Borough League will meet here on February 14 to discuss proposed changes to the borough code and the law committee of the County Commissioners' Association will have a meeting about the same time to draft some proposed laws relative to county assessors and tax collectors. The State Threshers' and Farmers' Protective Association, which is interested in road legislation, will also meet here on February 14.

The State Policies. — Notwithstanding the number of State Policemen who have entered the service of railroads and other corporations at the conclusion of the enlistments the department has numerous applicants for the vacancies on the force and this week more than the ten required to fill up the troops appeared for examination. The State force is receiving applications from a number of men from the regular army.

To Mark Cars. — In all probability every automobile owned by the State will be marked with letters on its doors setting forth that it is the property of the Commonwealth. Governor Brumbaugh is said to be contemplating the issuance of such an order to the heads of departments. It developed during the Governor's correspondence with the Highway Commissioner that the cars in the Highway Department had been marked years ago, but that there were departments which had cars which were not marked. The Governor is understood to have been surprised at the number of cars owned by the State as he was to find that the Highway Department cars had been lettered.

Making Own Probes. — The investigations being conducted by departments into their own funds are going to extents never known before and it is said that contingent expenditures are being overhauled with a fine-tooth comb in order to find things which will have to be explained. Even the expenditures for postage are being checked up. Although Saturday is a holiday on the "Hill," men were busy that day on the examination of their vouchers and bills.

No Undue Delay. — Senator Penrose has stated in Philadelphia that there is no undue delay in organizing the Legislature so that employees could get long continued pay. Beales Coming Next Month. — Senator C. W. Beales, of the Adams district, who is now a congressman, will not become a senator until next month. He will serve out his term at Washington.

COLDEST NIGHT OF WINTER Mercury Fell to Three Above; Six Degrees Below Zero. The lowest temperature of the winter was registered last night. It was three degrees above zero. Six degrees is promised for to-night. Tomorrow the temperature will start to rise and will be in the 40's on several days, according to the report of E. R. Demain, the local forecaster, this morning. Reports from other States, even the Far South, indicate that last night was the coldest in the country. As far as South as Atlanta the thermometer hovered near zero, registering two above. Zero was registered at Pittsburgh and two above at Scranton.

GIRLS AGAINST CHEWING GUM Chewing gum, using bad language, boisterousness and destruction of books or furniture will not be tolerated by the girls of the Penn Community Club. These are a portion of the rules, which are printed for intractions being published by fines, adopted at a business meeting in the club, rooms, 1121 North Seventh street, last night. The boys will meet to-night at the clubhouse to effect their organization. Miss Katrina, Staples, of Pittsburgh, who was recently elected manager of the girls' club arrived yesterday and was welcomed to the clubhouse last night by about sixty of the girls. The boys will welcome her to-night.

catators of the State have come out in sharp replies saying that the up-State Congressman is not well informed. —Mayor Smith, of Philadelphia, will be here on Monday to look after interest of some of his bills, notably that relative to assessments. The Mayor is against the present system.

Willys SIX

Seven Passenger \$1325 f. o. b. Toledo

The New Willys Six

In design, finish and appointments it is new, beautiful, complete and up to the minute. It sets a new high mark in easy riding comfort. Long forty-eight inch cantilever rear springs, perfect balance, long wheelbase—125 inches, big tires—4 1/2 x 35 inches—provide the utmost ease and luxury of riding comfort. And the low, deep-cushioned seats are built over improved seat springs—each spiral separately encased and thus air cushioned and checked against rebound. The price, \$1325, is possible because the Willys Six shares in the economies that we effect by building a complete line of automobiles, —with one executive organization, —one purchasing power, —and selling them with one sales expense through one dealer organization. See the Overland dealer at once—before the spring rush slows up deliveries.

Conspirators Against Life of Premier and His Aid Are Placed on Trial

Derby, England, Feb. 3. — The Guild Hall was crowded and many persons were unable to obtain admission when Attorney General Sir Frederick E. Smith to-day opened the case against the four persons accused of conspiracy to murder Premier David Lloyd George and Arthur Henderson, member of the War Council. The accused are: Mrs. Alice Wheeldon, her two daughters, Miss Ann Wheeldon and Mrs. Alfred George Mason, and Mrs. Mason's husband. The Attorney General in his opening referred to the prisoners as desperate, dangerous people, bitterly hostile to the country. They were, he declared, shelterers of fugitives from the army, who were doing their best to injure Great Britain in her present crisis. The prisoner, he pointed out, was a chemist of very considerable skill, who had made a special study of poison and might be considered an expert in such a matter.

COMPLETE POST OFFICE JUNE 1

Scarcity of Material and Labor Delays Work Says Contractor

You may be able to post your mail at the Post Office by June 1. Completion of work on the addition and remodeling of the old building will take place about this time according to A. C. Hobart, superintendent of construction of the H. L. Brown Company of New York, who is overseeing the work.

The contract expires in May, but Mr. Hobart said it would be sometime later before the structure would be completed. The reason for the delay in completion is scarcity of material and labor, according to the superintendent. Material especially is hard to secure. A carload of granite stone which will be used in completing the northeast wing of the new addition arrived yesterday. This material was on the road for several months. Another car which is on the way will be ample for completing the stone work. As soon as the weather becomes warmer a force of men will be put on the work.

Plastering the entire building will be started after the stone work is completed, which is expected to be in two weeks.

In the twenty years' experience in construction work Mr. Hobart declares he has never seen material and labor so scarce and at such exorbitant prices.
