C. M. SCHWAB ON WIVES

The Right Kind Useful; the Nagging Kind Drags on Success

In his little book "Succeeding With What You Have" (Century Company), Charles M. Schwab tells something about his own success and the inner workings of the Bethlehem Steel plant. We quote an interesting point on domestic success. Says Mr. Schwab on Page 60: "I can never express the wonderful help Mrs. Schwab has been to me from the very start. Not long ago a group of men offered me a large sum, \$50,000,000, I believe, for half of Bethlehem. I told my wife about it that evening. 'This is a big sum,' I said. 'Half of what I have is yours. What shall we do? If we sell, your share, invested at 5 per cent. will bring you an income of over \$100,000 a month for the rest of your life.' 'We wouldn't sell for five times that,' my wife said. 'What would I do with the money?' 'And what would you do without your work?' 'I have seen more men fail in business through the attitude taken by their wives in their younger days than from all the vices put together. A nagging wife, or one who is not in sympathy with a man's work, who expects impossible things of him, and is incapable of taking a general intelligent interest in his work, is one of the worst handicaps he could have. If a man works with his mind clogged by domestic troubles he is of no use to himself, his employer, or the world at large.'"
