"King Solomon was father of all the Masons. He had 700 wives and 300 lady friends, and that's why there are so many Masons. My papa says Solomon was a warm member.

"Two women came to him, each holding the leg of a baby. Solomon wasn't feeling well, and called for his sword. The mother of the kid said: 'Stay they hand; let the old hag have it; if I can't have a whole baby, I don't want any.' Solomon told her to go home and wash its face, for he knew it was hers."

HARRISBURG TELEGRAPH

As it came quite close to me I discovered that its strange movements, running its odd hands over the surface of the turf, were the result of its pe-culiar method of feeding, which consists in cropping off the tender vegeta-tion with its razor-like talons and sucking it up from its two mouths, which lie one in the palm of each hand, through its armlike throats.

In addition to the features which I have already described, the beast was equipped with a massive tail about six feet in length, quite round where it joined the body, but tapering to a flat, thin blade toward the end, which trailed at right angles to the ground.

> CHAPTER II. A Strange Meeting.

S I had been scrutinizing this weird monstrosity the balance of the herd had fed quite close

Fearsome looking as they were, I did not know whether to fear them or not, for they did not seem to be particularly well equipped for fighting.

I was, in fact, on the point of stepping from my hiding place and reveal-

ing myself to them to note the effect upon them of the sight of a man when my rash resolve was, fortunately for me, nipped in the bud by a strange shricking wail which seemed to come from the direction of the bluffs at my

Naked and unarmed as I was, my end would have been both speedy and horrible at the hands of these cruel creatures, but at the moment of the shriek each member of the herd turned in the direction of the sound, and at the same instant every particular snakelike hair upon their heads rose stiffly perpendicular as if each had been a sentient organism looking or listening for the source or meaning of the wail.

And indeed the latter proved to be the truth, for this strange growth upon the craniums of the plant men of Bar-soom represents the thousand ears of these hideous creatures, the last rem nant of the strange race which sprung from the original tree of life.

Instantly every eye turned toward one member of the herd, a large fellow who evidently was the leader. A strange purring sound issued from the mouth in the palm of one of his hands, and at the same time he started rapidly toward the bluff, followed by the entire herd.

Their speed and method of locomo-tion were both remarkable, springing as they did, in great leaps of twenty or thirty feet, much after the manner of a kangaroo

They were rapidly disappearing when it occurred to me to follow them, and so, hurling caution to the winds, I sprang across the meadow in their wake with leaps and bounds even more prodigious than their own, for the mus-cles of an athletic earth man produce remarkable results when pitted against the lesser gravity and air pressure of Mars.

Their way led directly toward the apparent source of the river at the base of the cliffs, and as I neared this point I found the meadow dotted with huge bowlders dislodged from the tow-

ering crags above.

For this reason I came quite close to the cause of the disturbance before the scene broke upon my horrified gaze. As I topped a great bowlder I saw HE THANKS TANLAC little group of perhaps five or six green men and women of Barsoom.

That I was indeed upon Mars I now

had no doubt, for here were members of the wild hordes that people the dead sea bottoms and deserted cities of that dying planet.

Here were the great males towering in all the majesty of their imposing height; here were the gleaming white tusks protruding from their massive lower laws to a point near the center of their foreheads; the laterally placed, protruding eyes, with which the could look forward or backward or to either side without turning their heads; here the strange antennaelike ears ris-

lieve me though I tried all that I ever heard of:
"At times every bone, muscle and joint in my body pained me with a separate ache and my knees especially were always so stiff and painful that it was agony to bend them.

"I was all run down, too, from the strain and the suffering and was leading a miserable existence when I happened to read a testimonial in our local papers in which a Harrisburg man told how his rheumatism had been relieved by a medicine called Tanlac. duplicated?

There were two men and four females in the party, and their orna-ments denoted them as members of different hordes.

The facts puzzled me, since the various hordes of green men of Barsoom are eternally at war with one another, and never had I seen green Martians of different hordes associated in other than mortal combat, save on that historic instance when the great Tars Tarkas of Thark gathered 150,000 green warriors from several hordes to march upon the doomed city of Zodanga and rescue Dejah Thoris, princess of Helium, from the clutches of Than

The Pure Food and Drug Laws aim to protect the public by preventing mis-statements on the labels of preparations but some people continue to accept "extracts" of cod livers thinking they will get the benefits of an emulsion of cod liver oil.

The difference is very great. An "emulsion" contains real cod liver oil, which has had the hearty endorsement of the medical profession for many years, while an "extract" is a product which contains no oil and is highly alcoholic.

Scott's Emulsion guarantees the highest grade of real Norwegian cod liver oil, skilfully blended with glycerine and hypophosphites, Scott's is free from the false stimulation of alcohol and is endorsed by good physicians everywhere, Scott & Bowne, Bloomsield, N. J. 16-18
