Mead was chairman of the meeting. Dr. Au-

was chairman of the meeting. Dr. Augustus Koenig, president of the club, announced a ladies' night will be held at the Bellevue-Stratford Hotel on Lincoln's Birthday.

Mr. Rolf, who has made repeated efforts to have the government construct a national highway with a concrete base largely for military purposes, was emphatic in declaring such a highway a necessity.

"The west coast is being filled with reservists of the Japanese army," he declared. 'In the lower part of Canada there are more than 100,000 veterans of the Japanese army. In the State of California alone there are more trained Japanese soldiers than the full complement of the United States Army.

Conscientious Beggar Refuses to "Put One Over" on a Woman

Over" on a Woman

A professional beggar with a conscience is the latest find in this city.

John Yates, secretary of the Associated Ald Society, to-day told of a professional beggar who refuses to "put one over" on a woman.

The beggar who gave his name as Albert Goshen applied at the aids about a week ago for assistance, but as he was of healthy appearance he was refused help. Secretary Yates told him that over 300 small children depended upon the society for assistance and that he was robbing them. Goshen stated that rather than rob children he would do anything. He also said that he had been in the habit of trying to "work" charitable societies, but never when a woman was in charge. "I have been at the rooms of the society four times, but always found a woman in charge and never solicited aid" he said.

Secretary Yates secured employment for the man at the Harrisburg Pipe and Pipe Bending Works and he went to work last Monday. He worked until Saturday when he received his pay. He went to his boardinghouse in Walnut street, paid his board in full and then disappeared.

UNITED STATES SOLDIER SHOT Columbus, N. M., Feb. 8.—Sergeant Charles Shank, of the Seventeenth Infantry, who was shot while on provost guard duty Monday night in the colored district of the town, died last night. This was the second death among the expeditionary troops since crossing the border. The refugee camp is slowly breaking up. The Mormon prefugees have gone to Deming, N. M., to found a colony; the Mexicans are finding work on railroads and ranches, and the Chinese probably will be sent in bond to Juarez.

SEEK FRESH ECONOMY

SEEK FRESH ECONOMY

Paris, Feb. 8.—The government continues energetically to seek fresh ways of economizing the resources of the country. A bill will be introduced in parliament shortly providing for the addition of 15 per cent. of maize, rye or barley flour to wheat used for bread making. Suppression of night work in bakeries is also proposed, or at least the stopping of the sale of fresh bread. The closing of the big department stores for two days a week is also under consideration as a measure to economize fuel.

CUTS LOOSE IN DIET

Amsterdam, via London, Feb. 8.—A Reuter dispatch from Budapest says that during a speech of Count Theodore Batthyanyi in the Hungarian diet three revolver shots were fired from the gallery. Nobody was hurt and after some excitement a man was arrested who made a confused statement and was apparently intoxicated. Count Batthyanyi continued his speech with a remark that he must not be disturbed by rufflans.

| | New York, Feb. 8. — Moderate unsettlement was shown by the market at to-day's opening, overnight developments, particularly Germany's submarine activities, inducing fresh selling. For the most part early recessions did not tend beyond fractions. Noteworthy exceptions were Bethlehem Steel, new stock, which fell 3½ points with a loss of 1½ for the "rights" and two points for Texas Company, International Paper and Allis Chalmers pfd. Rails were better, Canadian Pacific recovering 2 points with 1 for St. Paul. U. S. Steel and equipment were disposed to improve. The entire list reacted later, however, on heaviness of shippings. The setback in shippings was concurrent with another advance in insurance rates and was followed by a further reversal in rails, high grade issues yielding to lowest levels of the present movement. P. R. R. ENGINEER DIES AT BALT.

formed Noted Feat in Survey

John Elton Whiteside whose death occurred in Baltimore was a son of George A. and Mary Whiteside, a native of Harrisburg, and graduate of the Harrisburg High School, class of 1880. He had the distinction of being the youngest pupil graduated at that time.

1880. He had the distinction of being the youngest pupil graduated at that time.

Mr. Whiteside entered the employ of the Pennsylvania Canal Company, with whom he remained until shortly before the canal was abandoned, Mr. Whiteside then became conected with a telephone company in New York City and later with the Pennsylvania Railroad Company, being connected with the engineering corps in the construction of the North river tunnel. During his residence in Baltimore he made a complete survey of the shore line of the Baltimore harbor, a feat of engineering for which he was much complimented.

He was a member of Robert Burns Lodge, Frde and Acepted Masons, this city, and the Ldyal Order of Moose in Baltimore.

Surviving are two sons, John Eiton, Jr., and Alfred P.: his mother, Catherine, E., and two brothers, George A., of California, and Harry I. Whiteside, 122 Mulberry street, this city.

Funeral services will be held on Saturday afternoon at 2 o'clock from the chapel of Rudolph K. Spicer, 313 Walnut street. Burlal will be made in the Harrisburg Cemetery.

Lawson that Secretary Tumulty and others had profited in the stock market on advonce information of President Wilson's peace note, she declined to answer in public on the grounds of "her constitutional rights," but offered to testify in secret session. She did say, however, it was no one in official life. The committee went in an executive session to consider it.

Mrs. Visconti finally gave the name of her infromant to the committee in confidence, writing it upon a piece of paper, but with the understanding that the committee may, if it deems advisable, later make the name public. She was then excused temporary while

Brazil Will Hold Kaiser Responsible For Results of Ruthless U-Boat War

Rio Janelro, Feb. 8. — Brazil's reply to the German note, to be made, public to-morrow, will in terms polite in but firm declare Brazil's intention to hold Germany responsible for consequences which may result from the new submarine warfare.

The reply expresses the desire of the Brazilian government not to be compelled to break the amicable relations it r.lways has maintained with Germany a fact, however, which will not prevent Brazil from taking measures of protection and from protesting against the menace to Brazilian commerce and navigation contained in the note of the Imperial government concerning measures for the marine blockade.

Brazil bases its protest upon the fol-

cerning measures for the marine blockade.

Brazil bases its protest upon the following four fundamental principles: First, the extension of an inadmissable blockade; second, the unexpectedness of the communication, which gives only the short interval of five days before the putting into operation of submarine measures against any and all vessels, a fact which prevents Brazil from adopting measures with regard to several Brazilian ships now at sea or anchored in foreign ports; third, the ignoring of all rules established by international law and the principles set forth in solemn treaties and conventions, the signatories of which are Brazil and Germany herself; fourth, Brazil's objections to the declaration that no country should dissent from Germany's purpose to employ all means to render effective her blockade under the conditions mentioned in her note.

Shamokin Woman Among Americans to Remain in Germany For Present

Germany For Present

Berlin, Feb. 7, via London, Feb. 8.

The breach of diplomatic relations between the United States and Germany has discovered the fact that there are some four hundred native or naturalized Americans in Berlin, a large majority of whom have applied to the United States embassy for passports or alternations permitting them to leave Germany for Switzerland or Scandinavia. About one-fourth of the total are Americans temporarily in Germany on business or to study. The other three-fourths are tiher naturalized citizens or the children of such who rushed to the embassy at the eleventh hour to secure papers establishing their status, after the departure of the American representatives.

The list of those who have announced their intention to remain in Germany for the time being includes Miss Agnes Scheider, Shamokin, Pa.

The American newspaper correspondents are still lingering in Berlin though some applications have been made to leave on Ambassador Gerard's train. Other correspondents plan to remain for the time being and leave later for Copenhagen and Switzerland.

Austria Has Not Yet Withdrawn or Modified Her Note on U-Boat War

Washington, Feb. 8. - Austria has not as yet withdrawn or modified her note adhering to the German submarine campaign, it was stated officially

the day at the State Department.

The possibility that a break with Austria also can be avoided has practically been given up. Despite some differences in Austria's situation, her strict adhesion to the principles enunciated by Germany both in a note to this government and in other communications make her position practically significant of the carried strict of the strict of t this government and in other com-munications make her position prac-

Officials who have been hoping that a break might be avoided will give no intimation as to why a definite announcement is not made. This is taken to indicate, however, that the small hope remaining is being carefully watched.

VIEWS O NU-BOATS DIVIDED

The Hague, Feb. 8, vial London.—
The Berlin correspondent of the Roman Catholic Tijd of Amsterdam reorts to-day the resultp of a series of conversations he has had with German ecclesiastics—on how the sharpened German submarine war is reconcilable with Christian doctrines. The general opinion, he states, is that the measure is a necessity to which Germany was regretfully forced by Great Britain's pitiless methods of warfare, but the view as to what steps are permissible and what are not is divided.
