AN UNDIGESTED DINNER

Worse than a badly cooked dinner is a dinner that you can't digest. Do you know what it is to turn away from the best food, ill-humored and without appetite, though you know that it is dinner time and that you need food to sustain you? This is nature's way of telling you that your digestion is out of order. Your stomach is not in a fit state to absorb food if you eat it, or your blood able to carry the necessary nourishment to your nerves, brain and muscles. First of all, put off eating until you are hungry. If you eat when you are not hungry you can't digest the food.

To put your blood in the right state to derive good from your food, take Dr. Williams' Pink Pills. Without any purgative or weakening effect they purify your blood and enrich it, so that you not only have an excellent appetite for food, but are able to digest it comfortably and get benefit from it.

So many dyspeptics have been helped by this simple treatment that every sufferer from stomach trouble should try it. A diet book, "What to Eat and How to Eat" will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or a box will be sent by mail, postpaid, on receipt of fifty cents.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.—Adv.
