Broker Testifies Member of House Did Not Sell Short; to Give Names

Washington, Feb. 9. — New life suddenly was injected into the "leak" inquiry to-day by the testimony of George B. Chipman, local manager for Harriman & Company New York brokers, that certain members of the House of Representatives dealt in stocks with him.

Chairman Henry called for the names of the members and Chipman promised to furnish them.

Chipman testified that so far as he knew no member of Congress had sold stocks "short" during the "peace note leak" period. He said he had no senators' names on his books, but was unable to say whether his customers included securities to senators and representatives.

Chipman declared that he had not paid for "tips" on governmental activities since 1914. He found, he said, that information he bought usually was of no value.

J. L. Livermore, Wall street's widely-known "three time millionaire," Chipman said, wired him from New York on December 20 asking him if he had heard a peace note was to be issued.

Chipman replied negatively. Livermore responded with information which Clement Curtis & Company, of Chicago, previously had sent E. F. Hutten & Company. Chipman replied that he thought the report was untrue.

Later in the day, Chipman said, he called up F. A. Connelly, of F. A. Connelly, of F. A. Connelly & Company, and learned that a peace note was to be issued.

Examination of correspondents who were told in confidence by Secretary Lansing on December 20 that a note was coming then began. After interrogating Stephen T. Early, of the Associated Press, Carl D. Groat, of the United Press, and Charles D. Warner of the Christian Science Monitor, the committee recessed.

Taft Declares Position in Washington's Time and Now Must Be Compared

New York, Feb. 9. — The question whether the United States should follow the policy of Washington and keep out of entangling alliances has been settled, William H. Taft told hardware men in convention here to-day, "by comparing our position during our world relations then with our position now and our world relations as they are now."

Owning the Hawaii Islands and the Philippines makes this country "an Asiatic power," he said. "The integrity of Panama and ownership of the Danish West Indies and Porto Rico, is South American," he said. "The country has obligations making it a world power which it cannot ignore."

In alluding to the Japanese question, Mr. Taft said: "On the Pacific coast we have three great States, California, Oregon and Washington. They wobbled some in the last election, but they are still entitled to our protection."

Plasterers Want Increase; Carpenters Make Demands

Members of Local No. 94 of the plasterers' union will meet to-night to take action on a proposed increase in wages from 50 cents to 60 cents an hour. The organization is not affiliated with the Pennsylvania Federation of Labor.

City contractors to-day were presented with a set of working rules adopted last night by Local No. 287, United Brotherhood of Carpenters and Joiners of America. Chief of these demands are an eight-hour day and 50 cents an hour pay. The increase demanded will affect 500 carpenters and joiners. It will become effective May 1.

The working day is to begin at 8 o'clock in the morning and end at 5 o'clock in the afternoon. Overtime shall be paid for at special rates. The official week shall end at 12 noon Saturday and begin at 8 a. m. Monday. Six holidays are provided for. The carpenters will work four hours on Saturdays.

Contractors will be required to hire only union men or to have nonunion men apply for membership in the first meeting of the organization. Members unable to perform capably a day's service either from physical injuries or infirmities will be allowed to receive less than the union stipend if provided the union has given its consent.

Lincoln Day May Supplant Bills

Observance of Lincoln's birthday may take the place of legislative business and even lead to the setting aside of the Sprout resolution when the lawmakers meet on Monday night, according to some reports here. The suggestion has been made that as the Senate will have the exercises attending the unveiling of the Oakley paintings the House may devote some time to memorials of Lincoln, who is one of the big figures in the nation's paintings. If this plan is carried out the Sprout resolution may not come up on second reading until Tuesday.

Governor Brumbaugh left this afternoon for Columbia. He will make an address to-night. He may go to Philadelphia for the week-end.

The Compensation Board has approved the award of Referee Duan in the case of Adams vs. the Pittsburgh Coal Company, thereby laying down rules in computing compensation.

The final hearings will be held in the next ten days in the Springfield Consolidated Water Company complaints. Commissioner Alcorn is sitting in Philadelphia to-day.
