A dose taken every two hours until three doses are taken will end grippe misery and break up a cold.

It promptly opens clogged-up nostrill and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and Sfuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drugstore. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine. Don't accept samething else,

Ray Shannon, aged 28 years, brakeman on the Reading Railway work train, was struck this morning by the New York Flyer near Boyd Station, in Rutherford yards. He died en route to the Harrisburg Hospital. The young man's skull was fractfred.

Shannon had stepped from his train to the main track. Steam from engines in the yards prevented him from seeing the fast express leaving Harrisburg at 8 o'clock. The fiver picks up speed at the point where the accident occurred. Brakeman Shannon was hurled some distance. When picked up he was unconscious.

Brought to Reading Station

The injured employe was placed on a yard shifter and brought to the Reading station. In the meantime the ambulance called, but met with an accident, and an auto truck was called into service. Brakeman Shannon died before reaching the hospital.

He boarded at 1255 Mulberry street. His home is at Longsdorf, near Newville. Besides his parents the survivors are one sister, Mrs. Elizabeth Galbraith, 223 South Fourteenth street. He had been in the employ of the Reading company for some time and was popular with his associates. Funeral arrangements will be announced later.

Teacher knows that every morning she faces two kinds of children. One kind thinks only of how soon they will have something to eat again. They are restless and don't learn much

She knows that the children of the other kind have good, sustaining Cream of Barley breakfasts in their "tummies." They think only of their work and learn a great deal.

Teacher also knows all about the wonderful food and energy giving values of barley that it is the most digestible and sustaining food known.

Teacher knows! And she wishes that all mothers knew that the most appetizing, delicious, sustaining and energy giving breakfast cereal she can buy from her grocer is
