This thrilling episode in itself, with its palaces, and temples, its mighty battles and thousands of peo-ple, comprises a spectacle of even greater magnitude than Mr. Griffith's former famous work, "The Birth of a Nation." And mighty Babylon is but one-fourth of the wonders of "Intoler-ance."

D. W. Griffith's magnificent spectacle, "Intolerance," the season's biggest hit in New York, is coming to the Orpheum for three days, commencing next Monday, with daily mathees. In every way the production which will be shown here will be the same as the Broadway one, including a symphony or-chestra of thirty. The spectacular wonders of "Intolerance' have never been equaled, possibly never will be because of the appalling cost of their produc equaled, possibly never will be because of the appailing cost of their produc-tion. Only a director like Mr. Griffith, who had millions of dollars at his command, could have attempted the resuscitation of Ancient Babylon, a city famed for its colossal architectural structures, its grandeur and its life of prodigal luxury. This Babylonian episode, which cost more than any entire spectacle ever before produced, is but one-fourth of "Intolerance."
