HOW CURED MY CATARRH TOLD IN A SIMPLE WAY

Without Apparatus, Inhalers, Salves Lotions, Harmful Drugs, Smoke or Electricity

Heals Day and Night

It is a new way. It is something absolutely different. No lotions, sprays or sickly smelling salves or creams. No atomizer, or any apparatus of any kind. Nothing to smoke or inhale. No steaming or rubbing or injections. No electricity or vibration or massage. No powder; no plasters; no keeping in the house. Nothing of that kind at

all. Something new and different, something delightful and healthful, something instantly successful. You do not have to wait, and linger and pay out a lot of money. You can stop it over night—and I will gladly tell you how—FREE. I am not a doctor and this is not a so-called doctor's prescription—but I am cured and my friends are cured, and you can be cured. Your suffering will stop at once like magic.

I Am Free—You Can Be Free

My catarrh was filthy and loathsome. It made me ill. It dulled my mind. It undermined my health and was weakening my will. The hawking, coughing, spitting made me obnoxious to all, and my foul breath and disgusting habits made even my loved ones avoid me secretly. My ambition in life was dulled and my faculties impaired. I knew that in time it would bring me to an untimely grave, because every moment of the day and night it was slowly but surely sapping my vitality.

But I found a cure, and I am ready to tell you about it FREE. Write me promptly.

RISK JUST ONE CENT

Send no money. Just your name and address on a postal card, say, "Dear Sam Katz: Please tell me how you cured your catarrh and how I can cure mine." That's all you need to say. I will understand, and I will write you with complete information. FREE, at once. Do not delay. Send postal card or write me a letter to-day. Don't think of turning this page until you have asked for this wonderful treatment that can do for you what it has done for me.

HOUSE ADJOURNS; MEETS ON MONDAY

New Campaign Book Bill to Regulate Election Expenses Goes In

The House of Representatives adjourned for the week to-day after a fifteen-minute session at which the first reading calendar was cleaned up. The Senate adjourned yesterday and both branches will reassemble next Monday at 9 p. m.

When the House adjourned, Speaker Baldwin, who had referred over 150 bills to committees, urged that members hold meetings to-day to advance the legislation. The Judiciary general committee, which was given the sixty-seven repeals of obsolete laws, will have a meeting next Tuesday.

Campaign Book Again
Provision for issuance by the State of a campaign book which candidates may present their platforms for any statements relative to their positions on issues under official State supervision is contained in a bill introduced by Mr. Mitchell, Jefferson.

Under the plan proposed, which is similar to that suggested in a bill introduced in 1913 under Progressive party auspices, any charges against a candidate and his reply thereto could be filed. Provision is also made for statements by State or campaign committees. In the case of State, congressional or legislative candidates, the statements to be filed with the Secretary of the Commonwealth, who would issue the pamphlet and in case of other candidates, the clerk of the courts would be the filing officer. Every voter is to be sent a copy of the pamphlet at specified times. The State would pay the bills for publication except in certain instances and also the postage.

The bill provides each candidate shall pay for publishing his original statement, presidential and State-wide candidates at the rate of \$7.50 and other candidates at the rate of \$5.00. The act would be to restrict all campaign literature to the State publication and cut out all advertising.

To Restrict Train
A bill forbidding operation of freight trains more than half a mile in length or passenger trains of over ten cars was presented by Mr. Clements, Northumberland. It also provides that any employee or passenger who shall be hurt by operation of a train contrary to the act "shall in no case be held to have assumed the risk thereby occasioned in any suit instituted to recover damages for such injuries. The penalty is to be a fine of \$100 to \$500.

Mr. Showalter, Union, introduced a bill forbidding holders of liquor licenses to maintain grill rooms, wine rooms or cabarets "wherein persons of both sexes may assemble for the drinking of liquors, other than hotel dining rooms where meals are served." The penalty for violation is fixed at fine of not over \$500 or imprisonment for not more than three months, or both, at the discretion of the court.

The bill was passed for the first time.

USING MORE COTTON

Washington, Feb. 14.—American manufacturers are using more cotton than ever before in the country's history. Mills throughout the United States in the six months ending with January consumed 3,367,664 bales, a new record, the Census Bureau announced to-day. During January 33,008,609 cotton spindles were active.

More Answers in the Jiney Cases

John B. Wilver and D. F. Jones, two of the men in the cases brought before the Public Service Commission by the Harrisburg Railways Company in the Jiney actions, to-day filed answers specifically denying the charges and asking that the cases be dismissed.

The commission will arrange a hearing on the cases when more are filed and it will probably be held in March. To-day Commissioner Magee gave a hearing to the complaints of residents of Newmansville, Scheffers town, Kincaidville and Richland against the service of the Newmansville Electric Light and Power Company. There were twenty-five witnesses and the complaints were presented by Gabriel H. Moyer and L. Raymond Rogert.

Dyspeptics Should Avoid Drugs And Medicines

Try a Little Magnesia Instead
Some people instinctively shut their eyes to danger, and it may be that instinct, or custom or habit causes dyspeptics to take drugs, patent foods and medicines, artificial digestants, etc. But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia.

Relief, but ever increasing quantities must be taken, and all the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice so often suffers from digestive and stomach trouble is "Just get about an ounce of pure blauded magnesia from your druggist and take a teaspoonful in a little water immediately after every meal. This will instantly neutralize all the harmful acid in the stomach and stop all food fermentation, thus enabling you to enjoy hearty meals without experiencing the least pain or unpleasantness afterward."—Advertisement.

Heavy Fine For Pennsy; Work Yardmasters Overtime
Philadelphia, Feb. 15.—Holding that the duties of assistant yardmasters of a railroad come within the scope of the "hours of service act," because of the characters of some of their duties, Judge Dickinson filed an opinion yesterday in the United States District Court imposing a fine of \$100 and costs on the Pennsylvania Railroad for working three of their men in the forty-second street yards more than nine hours a day as prescribed by the statute.

The act applies to telephone and telegraph operators and train dispatchers or "other employees" who give orders for the movement of trains in interstate commerce. All of the facts in the government's prosecution were admitted by the railroad, but the legal point was raised that the duties of the three assistants did not come within the act. The court, however, decided otherwise, and instead of working twelve hours a day as heretofore, the men will be limited to nine hours.

You Need Glasses

If you have headaches, if your eyes burn or glimmer, if spots rise up to greet you, if you have trouble in reading, sewing or carrying on many of your daily tasks, your eyes are out of order. There is something wrong and it may result seriously in time.

In buying glasses, the public does not want glasses alone. It wants service—certain results. The glasses are only a means to an end. It takes expert knowledge to prescribe the right sort of lenses.

Gohl, Rinckenbach & Rouse High-Grade Optical Service has been prescribing the right sort of lenses to hundreds of people. Make your next pair of glasses "the right sort of lenses." The price you will find most reasonable.
