

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

MAJOR CAMERON DIES AT MARIETTA

Was Well-Known Member of Prominent Family, Mason and National Guard Officer

Marietta, Feb. 19. — Major Simon B. Cameron, aged 6 years, one of Marietta's most prominent and well-known citizens, died at his home here on Saturday afternoon shortly before 5 o'clock. Major Cameron had been ill for a number of years, but for some time after contracting the illness he was able to move about. Some months ago while preparing to retire he fell and fractured one of his hips and since that time failed rapidly.

Major Simon Brum Cameron was born at Middletown, Dauphin county, May 11, 1855, and was the oldest son of Mr. and Mrs. Rufus Cameron. The first twelve years of his life he lived at Middletown, and then went to Litzitz to attend the Academy. He was subsequently a student at Sheffield Scientific Seminary, Easthampton, Mass., and Upson Seminary, New Preston, Conn. At this latter school he took the examination for entrance to Sheffield Scientific School at Yale College. At this time he was offered a position with the Wheeler exploring expedition which he accepted, and two years' time was occupied on this trip. He then became an instructor at Upson Seminary, and held the position for a number of years. In May, 1881, Major Cameron came to Marietta, and was quartered in East Donegal township, where his father owned several farms, and took charge of them. Major Cameron still owns one of the farms, known as "Lochabor," and on his land the Boys' Club of the Presbyterian church holds an outing yearly.

From 1894, when he came to Marietta, Major Cameron conducted a real estate, insurance and collection business, and four years later was elected a member of the peace, a post he held until failing health compelled him to retire.

In 1894 he served as a delegate from Lancaster county to the Republican State convention, and also served as a member of the Marietta School District.

Major Cameron in 1890 became a member of the National Guard of Pennsylvania, and he served as quartermaster of the Fourth Regiment until May, 1897, when he was promoted to the staff of the Third Brigade, under General J. P. S. Gobin, as commissary of subsistence, ranking as major. During the riot at Hazleton he provided the food for the troops in service there, and was complimented for his superior officers. In 1900 he also accompanied the Guard to the anthracite coal fields during the strike trouble.

Major Cameron was a charter member of Chiques Council, No. 1825, Royal Arcanum, and while this organization was in its infancy the membership in his council, and to which he is one of the largest in the borough of Marietta. He was a past master of Ashara Lodge, No. 398, Free and Accepted Masons, and for a number of years was its secretary. He is a member of Harrisburg Consistory, A. A. S. R., of Harrisburg, and a thirty-second degree Mason. He was a member of the Cymme Commandery, No. 34, Templars, of Columbia; Corinthian Chapter No. 224, Royal Arch Masons, and was also a member of the Lodge of Perfection. He was an elder in the Marietta Presbyterian church many years.

On February 15, 1887, Major Cameron was united in marriage at Harrisburg to Miss Helen Markley, daughter of Dr. George H. Markley, and two children blessed the union. Besides Mrs. Cameron, a daughter, Miss Elva Cameron, at home, survives.

Mrs. Bricker attended the Market Square, Presbyterian Church since childhood and became a member at an early age. Failing health and domestic cares prevented her from doing work in recent years, but her support and interest continued. She was a teacher in the sewing school which the church first started that work and was actively interested in all the church missionary societies.

Mrs. Edna DeHaven Newbold is the only child of Mrs. Bricker. She and her son, Willis George Newbold, Jr., are the only direct descendants. Mr. and Mrs. Jones of this city, a sister, also survive.

MT. JOY CHURCH "GETS LEFT" IN PULPIT EXCHANGE MIXUP

A hitch in the mail "and the deed was done"—Mt. Joy was without the services of a rector when the Episcopal congregation began its evening worship. The Rev. James F. Bullitt, rector of St. Andrew's Episcopal church of this city, who was supposed to exchange with the Rev. L. C. Morrison, of Mt. Joy, did not know of the arrangement until he was preparing to begin the service in his own church.

got to a telephone, 7:01 when he got Mr. Bullitt on the line. The train for Mt. Joy left at 7:02 o'clock. "You're not in Mt. Joy?" queried Mr. Morrison anxiously. "I'm not," replied Mr. Bullitt. The Rev. Mr. Morrison was visibly distressed, but nevertheless made the best of a bad situation and conducted the St. Andrew's service in conjunction with Mr. Bullitt. The latter explained the situation as being due to a hitch in the mail. The two rectors some six weeks ago agreed to exchange pulpits for an evening. Two weeks ago the Rev. Mr. Morrison sent Mr. Bullitt a letter picking yesterday as the day, but the Rev. Mr. Bullitt never got the notice.

REFEREE SITS IN COMPENSATION

Numerous Local Cases Are Being Heard at the Headquarters by Mr. Snyder

The claim for workmen's compensation, filed by H. A. Sears against the Department of Parks and Public Property of the city of Harrisburg, is being heard this afternoon before Referee Jacob Snyder, of the Albion district, substituting in the Harrisburg district since the death of Referee E. K. Saylor. Sears was injured September 13, 1916, when acting as a guard in Campunk parkway, he attempted to eject a drunken man who resisted, and fractured one rib and inflicted other body bruises on the claimant.

An agreement for compensation between E. Z. Gross, representing the Department of Parks and Public Property, and H. A. Sears, the claimant, set the time of disability, for compensation to be paid, as until December 1, 1916. Sears now claims that his disabilities did not cease on December 1, and has filed an additional petition to that effect. An answer filed by E. Z. Gross, denies that the condition of the claimant is either directly or indirectly caused by the accident which occurred to him.

Referee Snyder this morning heard the claim of George C. Smith against W. E. Anwyll, both of Camp Hill. Smith claims that his left arm is now useless as a result of a fall from a ladder he sustained October 23, while painting the residence of Anwyll.

The continued case of Katharine Johnson against the Central Iron and Steel Company, for compensation for the death of her husband, was also heard.

To-morrow Referee Snyder will hear four claims filed against the Philadelphia and Reading Railway Company. Ralph Mentzer, of 1216 Derry street, a brakeman, claims compensation from June 25 to September 5 for a fractured wrist and other injuries sustained while working in the Harrisburg yards.

Isabella Stakley, of Rutherford, claims compensation for herself and three children for the death of her husband who she alleges was killed at Rutherford yards, December 3, 1916, while employed as a brakeman. She alleges that the Reading Railway Company has paid no medical, surgical or hospital services or any part of the expenses of the sickness and burial of her husband.

Ross N. Hogen, of 413 South Fourteenth street, a flagman, claims compensation from November 4, to December 25, as the result of a fracture of three ribs while employed at Alburts.

Harry Brehm, Jr., 1232 1/2 Christian street, a brakeman, claims compensation for fifty-four days as the result of a fractured wrist and other injuries sustained while at work November 30, while at Rutherford yards.

EXPEDITION TO AID ALLIES BEING PLANNED BY T. R.

In Event of War, He Contemplates Raising Force and Sailing For Europe

New York, Jan. 19. — Colonel Theodore Roosevelt is planning to raise an expeditionary force in the event of war with Germany and to sail to Europe with it just as soon as possible, according to excellent authority. It is his intention to place this force at the disposal of the entente generals who have charge of the fighting scheme and to lead it in accordance with their ideas.

Those who are acquainted with the colonel's plans say that he is making them with the idea of joining directly with those who are fighting Germany now, any idea which the army and navy officials of the United States may have for conducting a distinctly American campaign to the contrary notwithstanding. It is declared that Colonel Roosevelt feels that the sending of an expeditionary force to Europe would give additional zest to the struggle of the allies and convince them that nothing is being done that America is wholeheartedly devoted to the cause for which they are fighting.

Size of Force Uncertain. How large a force he would raise would depend entirely upon the conditions obtaining at the particular time at which the United States entered the war. He is known to have obtained pledges from a sufficient number of trained men at the time the formation of a division possible within a very short time. His present plans are known to cover the possible raising of a corps, or even of an army of 200,000 men.

HIS LIVER FELT BIG AS A BUSHEL

Wasn't Working Right And Caused Pains All Over His Body He Says

TANLAC WOKE IT UP

"My liver was worse than torpid, it was sound asleep on the job," says James Longwell, a well-known Marysville, Pa., man. "It wasn't even thinking about doing its work and as a consequence my whole system was upset and I felt like the last days of a hard winter."

"My liver felt as big as a bushel basket. I had pains in both sides of my stomach and in my back just over my liver and aches in my neck and the back of my head."

"I had no energy or ambition and felt lousy and run down. I didn't want to do anything at all and was just dragging myself around."

"Then one day one of my neighbors asked me why I didn't take Tanlac and I remembered that I had seen a lot about it in the papers where a good many local people spoke highly of it."

"Well, I started taking it and the way it woke up that liver of mine was a shame. It came to life on the jump and got on the job so quick you'd think it never had laid down on me."

"And as soon as old Mr. Liver got to working all my aches and pains left me and I began to feel tip-top. Tanlac is a great medicine."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.

The scene presented was in sharp contrast to that enacted early last January, when Judge Charles Bush aroused such a storm by granting a continuance of the negro's case, that Governor A. C. Stanley found it advisable to make a hurried night trip half the length of the state to avert possible mob violence against officials of the court. To-day everything was quiet.
