The New Spring Hats Are Most Enchantingly Lovely

Spring Hats are marvelously new and different. High colors, fancy materials, novelty trimmings, unique shapes and combinations of straw braids and fabrics in color contrasts indicate the trend of millinery fashions for the new season.

The sports type of millinery dominates the situation and is destined unprecedented popularity. These gay, attractive hats are the most youthful a woman can wear, and this subtle charm is ascribed as the reason for the great vogue of sports hats even for semi-dress occasions.

Hundreds of new Spring Hats are here in all kinds of straws, combinations, styles, colors and what not.

At \$4.95, \$5.95 and \$6.50—a brilliant showing as usual. Smart, extremely fashionable and exclusive models by the score at \$6.95, \$7.50, \$10.00, \$12.00 and \$15.00. Hundreds of the new straw shapes in black and colors, \$1.95, \$2.95, \$3.95, \$4.95 to \$10.00. And never such a beautiful showing of trimmings.

The New Coats For the Spring Season Are Fine of Design and of Lovely Textures

Many Smart Styles Now in Their First Showing

Cleverly indeed have the master coat designers of this country caught the new note that has come from Paris, for never before have we seen more fetching styles. Big smoked pearl buttons play an important part and there is a charming touch to many of the garments through the use of khaki kool sports stripe collars.

The materials include velours, poplins, gunni burl gabardine and Poiret twill and the colors are delightful in their rich tones of gold, tan, green, hunting red and gentian blue.

An idea as to price: Fine quality poplin coats in various colors, with deep collar of silk. In all sizes \$14.50

Sport coats of wool velour in gold; made with a large sailor collar and patch pockets with narrow strap belt. \$12.50
Shepherd check and poplin suits in tan, made with plaited back; large collar and cuffs of green poplin, trimmed with self covered buttons. \$18.50
Wool velour coats in gold, with a high waist line; plaited back finished with several rows of fancy stitching and button trimmed; sailor collar and cuffs trimmed with broad band of white broadcloth. \$22.50
Burella cloth coats in Copenhagen; made with a full plain back with inverted

plait over hips and fancy patch pockets; broad belt and large square collar. \$25.00
Burella cloth coats in apple green, gold and Copenhagen, in plain tailored styles or box plaited from the waist; finished with a broad belt; large pointed collar trimmed with fancy stitching. \$35.00
Wool velour coats in American Beauty, gold and blue; made with a high waist line; full shirred skirt finished with narrow straps; large round collar of self material finished with stripe silk crepe collar, lined throughout with white peau de cygne. \$37.50

This Chinese Renaissance Rug Was Designed in Peking and Woven in America

Some time ago there was a competition throughout China for the most beautiful rug designed by a native artist.

A Peking rug designer won the prize with the above design, the fame of which soon reached America.

In view of the tremendous popularity of Chinese rugs, the makers of the famous HERATI WILTON decided to use this unique design in one of their rugs.

That is how it is now possible for you to own a rug, the original of which is worth many thousands of dollars.

It is called the CHINESE RENAISSANCE rug, because the pattern is symbolic of the re-birth of Chinese civilization. The border indicates the restless, turbulent past of the Chinese people, and the center a lyrical forecast of the great and happy destiny to which they move.

The CHINESE RENAISSANCE rug is one of the greatest products of the loom, both in coloring and design that America ever produced, and you should not miss this opportunity to see it, in our Rug Section, Third Floor.

STATE WILL FIGHT THE GRAIN MOTHS

Sanders Calls Upon Farmers of the State to Give Him Their Co-operation

Announcement was made to-day at the State Department of Agriculture of completion of plans to inaugurate an active campaign to eradicate the augomais grain moth which has caused hundreds of thousands of dollars of loss in Central Pennsylvania during the past few years. Zoologist J. G. Sanders will ask the help of the farmers in the work and would like to hear from all farmers in the State who have suffered losses during the past year. Farmers should write the State Department of Agriculture, giving details of the amount of damage that was done, how many bushels were damaged, they were forced to sell early, and the losses sustained on account of the appearance of the moth. Farmers should also give any other details in regard to the moth which they think might help with the solution of a practical control.

Reports reaching the department indicate that the damage has been greatest in Lebanon, Lancaster, Berks and Chester counties, although considerable damage has been caused elsewhere in the State. Professor Sanders will endeavor with the assistance of trained experts to discover the time of flight of the moths to the field to infest the standing wheat and will go into the life history of the pest. The active co-operation of the farmers will be sought as the practical control of this pest will mean a saving of great sums of money each year by the farmers.

Mrs. Samuel Ditmer Buried Two Weeks After Husband

Dillsburg, Pa., Feb. 19. — Funeral services of Mrs. Samuel Ditmer was held from her late home on Saturday morning. The Rev. W. A. Dixon, of Chambersburg, and the Rev. E. O. Krenz, conference evangelist who lives here, conducted the service. The choir of Calvary United Brethren church sang. There survive the father and mother, nine sons and daughters, thirty-seven grandchildren and seven great grandchildren. John D. Bushey, C. U. S. G. Coulson, R. A. Spahr, W. S. Lelew, William Weaver and Joseph Bauman were pallbearers. The husband of Mrs. Ditmer was buried on Tuesday, February 6, less than two weeks ago, and the preachers, the pallbearers, the members of the choir, the undertakers and the friends in attendance were the same at both funerals.

I'm No Truck Horse, Says Wife—Granted Divorce

Wilkes-Barre, Pa., Feb. 19.—Because he married a woman and planned to use her as a truck horse, instead of a wife, the court has granted a divorce to Grace Stanziole against the husband, from Paul Stanziole, aged thirty-six.

The couple were married in Hazleton on May 29, 1906, and resided together at different places until November 5, 1915, when the wife claims she was no longer able to endure the treatment of her husband, and deserted.

In giving testimony, Mrs. Stanziole declared that from the day of her marriage she was treated cruelly. When she remonstrated with her husband over his treatment, she charged that the husband made the following reply: "I didn't just marry you for a wife. I married you for to work and carry coal and pick berries."

Zero at Altoona For Fourth Time in Ten Days

Altoona, Pa., Feb. 19.—Another cold wave swept in from the west to-day, the temperature dropping to zero for the fourth time within ten days. It fell forty-nine degrees in thirty-six hours. Demands for relief from the poor were greatly multiplied. Most of them were for coal, orders for which could not be filled on account of the coal famine.

Poor Director Henry Pensyls said that distress was greater now than in fifteen years. "Men are deserting their families," he added. "Five cases of desertion were reported to me to-day and every one of them left the family without money, food or fuel."

CHILD FATALLY SCALDED

Columbia, Pa., Feb. 19. — Elizabeth, a 13-months old daughter of Mr. and Mrs. Howard Leber, was fatally scalded, when a boiler of boiling water slipped from her mother's hands and splashed over the child's body.

CHURCH LECTURE ON FISHING

Columbia, Pa., Feb. 19.—The Rev. George W. Gensler, pastor of St. John's Lutheran church, who is known as an enthusiastic fisherman, last night delivered a lecture on "Fishing," in his church, before a large audience.

TALK ON PURE FOOD

Columbia, Pa., Feb. 19.—Professor Charles H. La Walls delivered a lecture before the Woman's club here, this afternoon on "Pure Food."

LIVING ON YOUR NERVE

Everybody has a store of nervous energy. When work or worry without sufficient rest exhausts this store a condition results that medical men call neurasthenia. It is commonly met with in those who have had keen anxieties, as those who have cared for sick relatives, business men who worry over their affairs and neglect to take vacations. Women who are too active socially, anyone who has too much excitement and too little rest may show the symptoms. The complexion becomes pale, you imagine unpleasant things, your brain insists on working when you want to go to sleep. Sometimes you are melancholy. Things that used to please you no longer do so. Constipation is usually present. You worry about yourself and your work and cannot forget your anxieties. No doctor can cure neurasthenia. You have to do it yourself. The first thing is to write to the Dr. Williams Medicine Co., Schenectady, N. Y., for the booklet on the home treatment of nervous disorders. If you want to start the treatment before the book comes get a fifty-cent box of Dr. Williams' Pink Pills from the nearest drug store and follow the directions carefully.

Will pay for the chance to heal Catarrh

After an experience of 25 years, during which time 50 million Americans have used Kondon's Catarrhal Jelly, the manufacturers of this remedy feel so sure that it will relieve catarrh—that they offer to pay for a chance to prove its benefit to any catarrhal sufferer. They announce that any resident of this community can go to almost any drug store and get a complimentary trial can at the expense of the manufacturers. If the druggist has no gratuitous packages, the person may buy a 25 cent tube with the unqualified understanding that if that first tube does not do that person more than a dollar's worth of good, he or she can get their quarter back from either the druggist, or the Kondon Company at Minneapolis. Over 35,000 druggists know Kondon's Catarrhal Jelly is effective, harmless, clean and pleasant to apply—and they know the Kondon people will gladly live up to this offer—"quarter back if not worth a dollar." Address—

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

FIRE AT ELIZABETHVILLE

Elizabethville, Pa., Feb. 19.—Fire broke out in a clothes room at the home of Lewis H. Zeigler last evening about 6 o'clock, when a small box containing some children's clothes was found to be burning. But for the presence of the families of Lee and George Zeigler, who occupy the house,

and who were at supper this very large house and tinware shop would have been destroyed. The hose company responded at once to the alarm, but their services were not needed. This is the home of the L. H. Zeigler and Sons' store and hardware plant, and is one of the largest buildings in town.
