Wife to Blame if Husband Drinks, Says Druggist Brown of Cleveland, Who Tells Wife What To Do

A New Treatment Given Without the Consent or Knowledge of the Drinker Cleveland, O.—No wife has a right to blame her husband because he drinks, says Druggist Brown of Cleveland. It is her fault if she lets him drink and bring unhappiness and poverty to her home and she has no right to complain. A woman can stop a drinking husband in a few weeks for half what he would spend on liquor, so why waste sympathy on a wife who refuses to do it? Druggist Brown also says the right time to stop the drink habit is at its beginning unless you want drink to deaden the fine sensibilities of the husband you love. Begin with the first whiff of liquor on his breath but do not despair if he has gone from bad to worse until he is rum-soaked through and through. Druggist Brown knows the cure of strong drink because he himself has been a victim. He was rescued from the brink of a drunkard's grave by a loving sister who, after ten years' time, revealed the secret to him. She saved him from drink—rescued him from his own depraved self, by giving him a secret remedy, the formula of an old German chemist. To discharge his debt to her and to help other victims of the mark and mire he has made the formula public. Any druggist can put it in the hands of any suffering wife, mother, sister or daughter. Just ask the druggist for prepared Tescum powders and drop a powder twice a day in tea, coffee, milk or any other drink. Soon liquor does not taste the same, the craving for it disappears and in one more drinker is saved and knows not when or why he lost the taste for drink. Note—Tescum, referred to above, should be used only when it is desirable to destroy all taste for alcoholic drinks of every kind. The wife who approves of drinking in moderation and believes her husband safe should give it only when she sees, as most do in this formula has been made public by Nelson Clark, and other druggists have filled it repeatedly.
