This Little Chap Is Never "Dosed" For Colds

The Hyman's Now Use the "External" Treatment for Croup and Cold Troubles

MR. PAUL S. HYMAN, of 438 E. Washington Street, Chambersburg, Pa., is the father of this fine baby boy. Sometime ago Mr. Hyman tried the Southern method of treating colds externally—Vick's VapoRub Salve, and was so delighted with the results that he has given us permission to reprint his letter as follows:

"I had a very bad cold on my chest, and coughed very hard. I rubbed Vick's VapoRub on my chest for about five or six times and the results were wonderful. Also, I have a fifteen months old baby boy who had a very bad cold in his head. My wife simply rubbed some on his nose and forehead, and the cold was loosened in no time at all. We have used a great many other remedies, but yours is best so far."

Vick's VapoRub is quicker and better than internal medicines for cold troubles and is particularly recommended for children, as it does not disturb their digestion. The heat of the body releases a soothing pine tar vapor that is inhaled with each breath, and, in addition, VapoRub absorbs thru the skin, taking out the tightness and soreness. Mothers will find it a "true Bodyguard for the home".

Three sizes, 25c, 50c or \$1.00.

1,000 LOCKERS ON INDEPENDENCE

Private Controlled Bathhouse Will Be Run on Island Since City Fails to Act

City council failing to provide in the budget this year for facilities for the thousands of bathers in the city who crowd the Susquehanna basin each summer, E. Charles Ensminger, owner of Independence Island, announced that a private bathhouse containing 1,000 lockers will be erected there this spring.

While the announcement that proper facilities are to be provided for the met with hearty approval, many of the thousands of people who have started a campaign for a municipal bathhouse severely criticized the City Commissioners again for not providing for the evident needs of the large crowds who use the river almost daily during the summer for bathing and swimming.

Mr. Ensminger, who is deeply interested in the development of the river basin, when it was seen that Council did not intend to provide bathing facilities, began planning for a private bathhouse, and the project was started as soon as river conditions permit.

Rates for renting lockers will be 10 cents for each person, it was said; or 25 cents, including a bathing suit. Mr. Ensminger is planning, also, to rent some of the lockers for the entire season.

While persons interested in aquatic sports said to-day that these charges were reasonable, it was pointed out that Council could have saved thousands of persons this expense by providing a municipal bathhouse.

The site for the bathhouse on Independence Island will be selected for soon as the ice moves out, and work started as soon as possible. The cable on the ferry to the island will be raised to get more speed for the new boat which has been ordered.

An End To The Curse Of Wearing Worthless Trusses

No More Rupture Troubles 60 Days Trial To Prove It

You Don't Have to Risk A Penny

Here is something absolutely guaranteed to keep your rupture from coming out.

And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny.

If it doesn't hold—if it doesn't keep your rupture from bothering you in any way—then it won't cost you a single cent.

The Only Thing Good Enough To Stand Such A Test

You know as well as we that you can't tell anything about a truss or anything else for rupture merely by trying it on. That's the worst of going to a drugstore or local truss fitter.

A truss or so-called "appliance" may seem alright when you first put it on, and afterwards prove utterly worthless.

The only way in the world you can make sure of exactly what you're getting is by a **60 days' trial**—a thorough day-after-day test.

And our guaranteed rupture holder—the famous **Clothe Automatic Massaging Truss**—is the only thing of any kind whatever for rupture that you can get on sixty days' trial, the only thing good enough to stand such a long and thorough test.

Something Nothing Else Does

The **Clothe Automatic Massaging Truss** is so utterly different from anything else for rupture that it has received **eighteen separate patents**. It provides the **only way ever discovered** for overcoming the weakness which is the real cause of rupture.

Just how it does that—entirely automatically—is all explained in the free book.

Will Save You From Operation

The **Clothe Truss** has so thoroughly proved its merits that physicians in all parts of the world and surgeons in the U. S. Army and Navy now recommend it instead of advising operation. It has brought complete recovery in hundreds of cases after operation has proved a failure.
