The Millinery Section Is Gay With New Hats That Charm

That the hat is to be part of the costume is the message these early displays at once proclaim—and they produce it by hats of ratines, linens, gingham, silk and wool jerseys, rough wove silks, satins, taffetas and leather-like fabrics.

The loveliest of the model hats make their initial appearance—quaint, flattering mushroom shapes, gay with bright flowers; open woven straws, light as air upon one's head; ribbon hats revealing hours of painstaking workmanship; lace hats, hats trimmed with Chinese embroidery and with tassels and novelty ornaments.

The Sport Hats—and hats for travel and street wear have never been more lovely—quill-encircled models, collapsible crown sun hats, white milans, embroidered bangkoks and sport sailors—an assemblage fascinating and smart.

The moderately priced hats are offered in delightful combinations of fabric and straw, others are elaborately shirred, made of crepes, satins and taffetas, straw brimmed. The shapes are small and large, drooping and straight-brimmed, colonials, turbans and sailors.

Excellent styles at \$4.95, \$5.95 and \$6.50—on up to \$15.00 and \$20.00.

HALF BILLION FOR NAVY APPROVED

Senate Naval Committee Favors 3 Years' Building and Commandeering Plants

Washington, D. C., Feb. 21.—Final approval of the naval appropriation bill was voted yesterday by the Senate Naval Committee, with the total raised to about half a billion dollars by adding \$123,000,000 to the measure as it passed the House.

Appropriations are carried for the coming year's share of the great three-year building program, and there are various special provisions, including authorization for the commandeering of private shipbuilding and munition plants in time of national peril.

\$35,000,000 For Submarines
The emergency construction appropriation of \$150,000,000 recommended by the Senate subcommittee was reduced to \$115,000,000, with a specific direction that \$35,000,000 of this be

expended for submarines. An amendment by Senator Poindexter was adopted directing that forty of the additional submarines should be coast vessels and ten fleet submarines, half of each type to be built on the Pacific coast.

The committee also added to the House program three coast guard cutters to cost \$1,350,000, \$772,000 for extension of the Washington navy yard and \$750,000 for a dry dock at Charleston, S. C.

Naval Academy Class
Provision is made for increasing the class at the Naval Academy by 614 members, providing for appointment of four instead of three midshipmen by each Senator and Representative, for 100 from enlisted men instead of 25 and for four from the Philippines. The term at the Naval Academy would be reduced from four to three years for a period of five years.

Other important increases approved include \$400,000 for a high power radio station in Porto Rico; \$600,000 for batteries for merchant marine auxiliaries; \$450,000 for ammunition for such auxiliaries; \$2,000,000 for reserve material for the navy; and \$1,950,000 for engineering purposes, including radio installation on light vessels.

Kill Desperado Who Terrorized Easton

Easton, Pa., Feb. 21.—In a spectacular running fight between two young highwaymen and several policemen on Canal street yesterday afternoon, Walter Ellis, 23 years old, of Phillipsburg, N. J., was fatally wounded and Patrolman Benjamin Raul is in the City Hospital with a dangerous bullet wound in the right groin. Ellis' companion, Theophilus Pysker, 21 years old, of Easton, is in the county prison.

The actions of the young men prior to the gunfight led the police to believe that they started out with the deliberate intention of "shooting up" the South Side.

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocconut oil, for it is pure and entirely greaseless. It's very cheap and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out evenly. The hair dries quickly and brightly, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

AMMONIA STILL BURSTS, 6 MEN OVERCOME, 2 DYING
