### HOW ONE HOUSEWIFE TRIPLED HER BAKING CAPACITY

"One day, when baking cookies," says a housewife in the March Woman's Home Companion, "I expressed a wish for larger pans. My husband said, 'Why not have some made to fit the oven?' He then measured the grate and went down to the hardware store. In a few days I had two Russian iron pans 19 1/2 by 13 1/2 inches, and one inch deep. As these pans hold three dozens of cookies, I can do my baking very much more quickly than I could with the old pans, which held only twelve cookies."
