C. OF C. TO HEAR CITY MANAGER PLAN TONIGHT

Dayton Man to Explain Advantages of System to Businessmen

More than three hundred members of the Harrisburg Chamber of Commerce will be present at the dinner meeting at 6.30 this evening, in Chestnut street hall, where Jesse M. Switzer, of Dayton, Ohio, will deliver an illustrated talk on the city manager plan of government.

The audience will be augmented at 8 o'clock by a large number of ladies and nonmembers of the chamber who have been invited to hear the speech which will be given at that time after the conclusion of the dinner.

Officials of the Chamber of Commerce pointed out to-day that Harrisburg is very fortunate in having Mr. Switzer address this meeting because it is probably the last time that he will be in a position to leave Dayton on such a mission for several months. Mr. Switzer is an associate of his in the National Cash Register Company have purchased one of the largest manufacturing institutions in Dayton and are in the midst of preparations to take over the operation of this large industry. He made the engagement to come to Harrisburg just before those matters came to a head and nothing but his desire to keep his engagement permits Harrisburg to have him here to-day.

The Digest's Comment
The current issue of the Literary Digest contains the following short article which shows the attention that is being given the city manager form of government in America:

"Now that nearly a hundred of our smaller cities have 'city managers,' usually civil engineers—directing the business of the city, some of the largest municipalities are beginning to consider abandoning present forms of government in favor of an executive selected by 'directors.' We are told by 'Engineering and Contracting' (Chicago) that the change is now advocated by daily papers in Philadelphia, Pittsburgh, Cincinnati, Cleveland, Chicago, Kansas City and Minneapolis. Says this magazine:

"In Cleveland, for example, a nominating committee appointed by fifty civic organizations is just met to consider the selection of fifteen men to investigate the city manager plan. Among the members of this committee is Dr. Charles S. Howe, president of the Case School of Applied Science. The Cleveland Press urges a change in the city charter to enable the city to adopt the modern method of managing a city like a stock company. The Press says: 'The conduct of city affairs should be in the hands of a thoroughly trained and well-tried city manager, chosen not for a definite period, but to hold office as long as he does his work well.' At last the American public begins to see that periodic selection of councilmen and mayors by election is a poor way of getting good municipal government. Imagine a railway system operated under the direction of men selected anew every two to four years by popular vote! The glib speaker, the sweet smile, the hearty hand-gripper, would then have a better chance of being president of the railway than the man who had spent all his life studying and practicing railway construction and operation. The fact is that our entire system of 'representative government,' in which representation comes solely through elections, is an uneconomic system, and is destined shortly to be changed."

President Wilson Will Take Oath of Office in Private, March 4

Washington, Feb. 23.—It was definitely decided to-day that President Wilson will take his new oath of office in private in the White House on Sunday, March 4. Whether he will take it again at the public ceremony on March 5 or merely make that the occasion for delivering his inaugural address has not been decided.

A State Department ruling to-day made clear that the President may wait and not take any oath at all until March 5, if he chooses to do so.

"There is no interregnum between the expiration of the term of one president and the beginning of the term of his successor," says the State Department ruling, "although there may be a slight interval when the executive power is suspended."

The opinion is given in a circular letter made public by Assistant Secretary Adee.

A Medicine for Women

For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Mrs. Kieso Cured After Seven Month's Illness.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unfit to do my house work, I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for herself how good it is."—Mrs. KARL A. KIESO, 596 North Ave., Aurora, Ill.

Could Hardly Get Off Her Bed.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did, and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. JOSIE CORNER, 1668 Harrison Ave., Fairmount, Cincinnati, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
