London, Feb. 23.—It is quite possible that the American steamers Rochester and Orleans may escape German submarines on their way through the barred zone from New York to Bordeaux, says the Berlin Lokal Anzeiger, as quoted in an Exchange Telegraph Company's Amsterdam dispatch but America should not rely upon their doing so.

Hundred Representative Publishers Asked to Meet Federal Trade Commission

Washington, Feb. 23.—More than 100 representative newspaper publishers were asked by the Federal Trade Commission to come here early next week for conferences regarding the proposal of the paper manufacturers that the commission fix prices for news print paper.

Until the publishers are heard the commission probably will not decide whether to accept the manufacturers' suggestion. In the meantime Francis J. Heney, conducting the commission's news print paper investigation, is conferring with manufacturers who do not sign the proposal and it generally is believed many more of them will join the move and that the commission will agree to act.

Publishers invited to come here represent every class of the business in the country. Many of them print small papers, hardest hit by the present high news print paper prices. An agreement fixing prices will carry with it the stipulation that publishers limit their paper to a minimum, and that point will be taken up particularly at next week's conferences.

The print paper committee of the American Newspaper Publishers' Association held a meeting here last night to consider the paper situation. Their general attitude, it is understood, is toward co-operation with the manufacturers and the trade commission in any reasonable price fixing plan.

David P. Baker Endorses Move For Organization of Americanization League

David P. Baker, chairman of the educational committee of the Young Men's Hebrew Association, this morning heartily endorsed a movement for the organization of an Americanization League for the education of the foreign element of Steelton to American ways. Mr. Baker, who came to this country from Russia fourteen years ago, said he is in a position to sympathize with the foreigner who comes to this country unable to speak English and not accustomed to the ways and customs of Americans.

Mr. Baker said, "We should have Americanization to create one solid nation that should respect and honor one country and one flag; whose interests should concentrate in only one ambition and that is to be patriotic." In order to bring this about it is essential, he believes, to educate foreigners who are at present making up a large percentage of the population. "The alien should be shown the superiority of the United States not only by way of making more money but impressing their minds and teaching them how our country is superior in liberty, freedom of speech, freedom of press and freedom of religion and progress and schools and municipal work."

"Show them the good side of American life," said he. "Instead of crowding them into tenement houses where everything but healthy conditions exist, teach them how to live properly. All these things could be given foreigners through a league, such as suggested in the Telegraph several days ago. "In order to form an organization of this kind the co-operation of the entire community is needed and there should be no time lost in joining hands in the move," Mr. Baker concluded.

Abraham S. Felker, Old Steelton Jeweler, Dies

One brother, John, living near Middletown and three sisters, Mrs. George Hoffman, of Royalton; Mrs. Amanda Poorman, of Royalton; and Miss Anna Felker, of Royalton, also survive. No arrangements for the funeral have been announced.

"I WAS AFRAID TO RISK IT" HE SAYS

Brakeman Feared His Rheumatism Would Make Him Fall From Cars

ACHES AND PAINS GONE NOW

"I had rheumatism so bad that I was scared every time I had to make a trip over the top of the cars these cold days," says Ralph Jergens, a well-known P. R. R. brakeman, who lives at 6th St., Harrisburg, Pa.

"Sometimes I was so sore in my joints that I was afraid to risk it for fear I'd get a fall that would finish me."

"My appetite wasn't any too good either and I was constipated and didn't feel up to the mark by a long shot."

"Well I knew I had to get fixed up before something happened and I had read in the papers that Tanlac had helped a lot of folks with rheumatism so I got a bottle and started taking it."

"It's great stuff, Tanlac is, for it got to work right away and I began to feel better as soon as I got a few doses under my belt."

"Now I'm feeling a Number 1 and can run the cars without giving it a thought. My aches and pains are all gone and I'm strong as I ever was. My appetite is fine, too, and I sure am grateful to this medicine."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.
