#### **EARLY RECESSIONS** PARTLY COVERED

New York, Feb. 24.—The reactionary tendencies manifested during today's short and very dull session were popularly ascribed to events abroad, particularly the restrictive measures adopted by the British government. All initiative came from a small faction of the professional element, with the usual week-end settlement, with the usual week-end settlement, with the usual week-end settlement of outstanding contracts.

Early recessions of one to two points in shippings, oils and various specialties within the scope of England's embargo were partly recovered in the final dealings. Rails were sluggish and without material change. The closing was irregular. Sales were estimated at, 140,000 shares. Bondwere Chandler Bros. & Co., members New Chandler Br

# Margin on Profits

Buying on margin offers several distinct advantages to the purchaser of securities.

Where 100 shares are purchased outright for cash 300 shares might be purchased on a conservative marginal basis of 33 1-3% for the same amount of money, thus enabling the buyer to draw down a three-fold profit from any advance in market price.

The margin trade is especially profitable when

especially profitable when applied to dividend-paying stocks. Many issues in this class, purchased on the marginal basis mentioned, show an annual net return of anywhere from 25 per cent. to 35 per cent. on the money involved after allowing for all brokerage charges.

Our booklet on Margin Trading contains much profitable information. Copies sent free on request.

This Advance Announcement is Printed for the Purpose of Asking You to Investigate and Convince

Yourself That This is a Safe, Permanent and Profitable Enterprise.

THIS IS ONE OF THOSE BIG OPPORTUNITIES IT'S A REAL INVESTMENT PROPOSITION—NOT A WILD CAT SPECULATIVE SCHEME

It's a proposition for men and women who want their money to make money for them. Our first and last word to you is—INVESTI-GATE. Turn our proposition upside down—analyze it—make searching inquiry—convince yourself absolutely that there is REAL opportunity presented before you invest a penny. You owe it to yourself to do this. The number of speculative schemes presented to lure your dollars these days makes it imperative that you be careful—EXTREMELY CAREFUL. It's the careful men and women that we want to

This is one of those opportunities. One of those WONDERFUL opportunities. An opportunity which, if neglected,

You have heard how original fortunate investors of small sums in automobile tire stocks have made fortunes in a few years How an original investment of \$100 in Goodyear stock, a like amount in Kelly-Springfield stock, and \$70 in Firestone, would to-day be

worth from that transaction alone \$32,298.00.

The above facts and scores of others equally as remarkable are true—ABSOLUTELY TRUE—but did these opportunities ever come

If there ever was a "royal road to wealth" surely this was one. Is there any better or easier way than this to make money?

TO-DAY the whole world realizes the great past, the greater present, and the incredibly greatest future of the automobile tire industry.

## REASONS WHY—STUDY THEM

WE HAVE BOUGHT AND PAID FOR ONE OF THE MOST MODERN FACTORIES POSSIBLE TO OBTAIN. SIZE 500 FEET X 120 FEET, LOCATED AT WASHINGTON, PA. VALUED AT OVER \$150,000. WE ARE EQUIPPING THIS FACTORY WITH MODERN EQUIPMENT THAT WILL MANUFACTURE 3,000 TIRES AND TUBES PER DAY, we have contracts and pledged orders from financially responsible Tire Distributors to manufacture 425,000 tires and tubes. This order should net us \$1,487,500, or approximately 50% on our entire capitalization of \$3,000,000.

our company will manufacture and introduce in America the famous Stungo Tires, United States Patent Number 1,106,-748. This improved patented tire has been thoroughly tested and is used by several foreign governments in their military operations. These tires are constructed on a new system and secret process that makes it possible for them to give more than 18,000 miles service. Blowouts are impossible. Tires require half the amount of air pressure of ordinary tires, hence possess greater resiliency, ride smoother and with greater comfort. Will stand retreading many times. Does not deteriorate with age, consequently will outlive any other tire known. MAKE US PROVE THESE STATEHENTS.

Mr. Joseph Stungo, our Vice-President, and under whose direct supervision these tires will be manufactured, was formerly Technical Adviser and Tire Manager of the North German Rubber Works, Germany, also former Tire Manager for the Rimless Tire Company, Glasgow, Scotland. Mr. Stungo has spent his entire life in the rubber industry and is conceded to be the peer of expert tire men in Europe and is the Patentee of the "STUNGO TIRE" as well as owner of SECRET COMPOUNDS and SYSTEM of VULCANIZATION.
