

FEDERAL AID IS FOR GUARDS ONLY

Interesting Order Issued From National Guard Headquarters For Information

Formal notice that federal aid or pay will be extended only to military organizations that are recognized as part of the National Guard and not to such as are merely organized militia is given in a circular issued by the Adjutant General's department as coming from the bureau of militia affairs at Washington.

Membership in the National Guard is determined by taking of the federal oath, which was taken by Pennsylvanians in the border service. The circular states that when it became apparent that the period allowed for transition from organized militia to National Guard should be brought to a close for a particular organization, not in federal service, which fails to comply with the new law, recognition as organized militia will be formally withdrawn by specific notification in each case.
