

MOST OF WILSON'S PROGRAM OF LAWS WILL FALL DOWN

Congestion Caused by Filibuster Responsible For Anxiety Over Many Bills

By Associated Press
Washington, Feb. 26.—Most of the administration's program of general legislation probably will not be enacted before adjournment of Congress next Sunday. It appeared to-day. Leaders were even a bit anxious about the revenue measure, and the army, navy and other appropriation bills because of the unusual legislative congestion, caused largely by the Republican filibuster on the revenue bill which ended Saturday midnight.

Legislation generally believed to have no chance of passage included railroad, labor, flood control, conservation, corrupt practices, public buildings and national prohibition measures. Extreme doubt was expressed over the fate of bills to amend the Federal Reserve Act, enlarged powers to the shipping board and provide severe penalties for espionage. A lump sum allowance will be substituted for the pending rivers and harbors itemized appropriation bill, it is believed.

Prohibition for the District of Columbia and measures relating to the food situation, particularly the \$400,000 appropriation for a Federal Trade Commission investigation, will be watched with special interest when they come up this week.

Fix New Schedule Between City and Linglestown

New schedules for Penbrook, Progress and Linglestown were announced this morning by the Harrisburg Railway Company. The changes will be effective to-morrow. They are as follows:

Cars will run to Linglestown every 45 minutes, beginning with 5.24 a. m., until 11 p. m., the last car for Linglestown at 5 a. m., the second car at 5.24 a. m., and the third car at 6.12 a. m., after which the cars will leave Linglestown every 45 minutes, until 11.48 p. m., last car for Harrisburg. There will be a 12-minute service between Market Square and Progress, from 5.12 a. m. until 12 o'clock midnight, the last car.

Between 5 a. m. and 9 a. m., and 3 and 8 p. m., there will be a 12-minute service between Market Square and the Colonial Club. There will be a 6-minute service from 5 a. m. until 11 p. m., between Market Square and Twentieth and State streets. Between 5 and 9 a. m. and 3 and 9 p. m., the 6-minute service will be extended to Penbrook Square.

Potatoes Legal Tender in Somerset Grocery

Somerset, Pa., Feb. 26.—The market value of potatoes in Somerset has been inflated to the extent that the starchy tubers are supplanting the precious metal as a medium of exchange. For two bushels of potatoes one of the leading grocery establishments in the town, advertise that they will give the following merchandise:

Twenty-five-pound sack of flour, pound of coffee, two pounds of evaporated peaches, ten cakes of soap, 100-pound oyster shell box of poultry powder, twenty-five-pound calf meal and a washboard.

RELIEVE PRESIDENT OF WORK

Washington, Feb. 26.—Under a ruling of the Judge Advocate General of the army, the President is relieved of the task of signing commissions for officers of lower grade in the army and hereafter will sign only the commissions of general officers. Officers of lower grade, the signature of the Secretary of War as "by the president," it is held, will comply with the law. The ruling lifts a heavy burden off the President, particularly in view of proposed increases in the army. It is estimated that if fifty thousand officers were commissioned for an army of 5,000,000 men, it would take the President more than a week of full working days to sign the commissions.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission announces the following examinations to be held in this city on the dates named: Laboratory apprentice, March 14 and 15; fireman, March 15; junior engineer, (male), March 21-22; aid, bureau of standards, March 21-22 and April 11-12. Application papers and additional information may be secured from the secretary, board of examiners, post office, Harrisburg, Pa.

HARRISBURG, PA.

SULLIVAN HELPED GREET 'EM TOO

GREAT CROWD AT ARMORY

MUSTERING OUT OF TROOPS UNDER WAY

(Continued From First Page)

Thomas J. Stewart at an early date on the matter.

Plan Big Reception

On March 5, at the Armory, the Women's Home Committee will tender the Harrisburg soldiers an entertainment, banquet and dance. The committee includes mothers, wives and sisters of the soldiers. Preparations for the big event have been on for three weeks. Sub-committees will meet this week to complete the details.

The plans include addresses by prominent citizens, vocal and musical numbers, a banquet and dance. The program will start at 8 o'clock in the evening. In addition to the soldiers there will be 500 other guests. The decorations will be an attractive feature. Music will be furnished by the Lemer orchestra.

Were You There?

More than half the population of Harrisburg turned out yesterday morning and gave the soldiers of the Eighth regiment a rousing reception. It was a welcome long to be remembered.

The Harrisburg troops arrived at 7.30 in the morning. They came on the first section, making good time between Pittsburgh and Harrisburg. The signal was given when the train reached Altoona at 4.45 a. m. Notwithstanding the early hour and chilly blasts, all Harrisburg answered the call and was on the streets two hours before the train arrived.

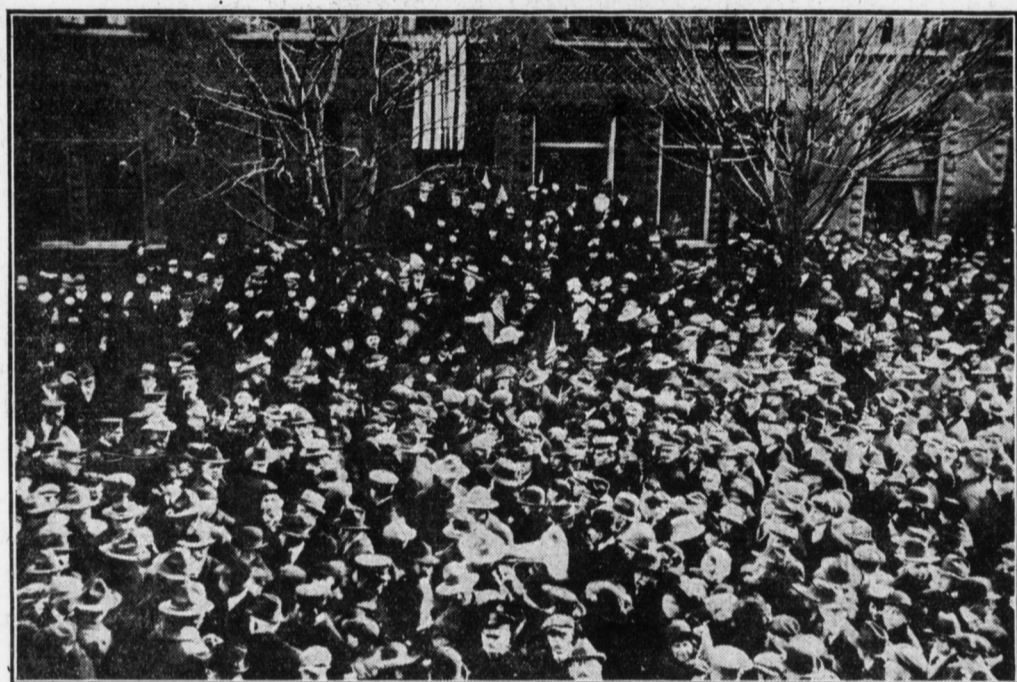

It was an hour after the soldiers reached here that the reception parade got under way. There were delays in unloading the machine guns. In the meantime Chief Marshal Henderson Gilbert and his staff lined up the paraders and awaited orders to march.

The program for the parade as announced was carried out to the letter. Military and other organizations prepared for the parade at Third and State streets. They were ready to move one hour before the troops arrived. An aide was sent to the Pennsylvania railroad station and notified Chief Marshal Gilbert when the train reached the station.

Wait For Soldiers

The parade moved out Third to North, to Fourth, to Market, to Market Square, to Second street. When the head of the line reached Second and Locust streets, the procession halted until orders were received that the soldiers were in line.

The reception committee met the Troop and escorted them to Fourth and Market streets. The first division of the parade was made up of the local military veterans organizations, G. A. R., Sons of Veterans, Spanish-American War Veterans and Governor's Troop. In the second division, Thom-

BRONZE MEDALS TO SHOW HARRISBURG'S APPRECIATION OF MEN WHO SERVED COUNTRY

as P. Moran, marshal, were civic organizations, businessmen, Tech high school boys, members of the Women's Committee, men from the store of William Strouse, and the Dives, Pomeroy & Stewart March Club.

Fire Chief John C. Kinder with Assistant Fire Chief Marion K. Verbeke headed the third division made up of the local fire companies. The Hope Fire Company with 50 members and the Commonwealth Band headed the division. The Citizens, Rely Hose and the Volunteer Firemen had uniformed men in line.

The reception committee headed the fourth division. Back of the committee was Colonel Maurice E. Finney and staff. Then came Companies D and J, the headquarters company, supply company and machine gun company. Two of the machine guns were in line and attracted much attention. The auto truck furnished the Eighth Regiment by the citizens of Harrisburg brought up the rear of the procession.

Police Have Big Job

Along the route there was prolonged cheering. Several times friends and relatives of the soldiers tried to get to the parade, but they were held back by a detail of mounted members of the Governor's Troop. At the Armory there was a crush. Several windows were broken by the crowd in an effort to get inside and it was a hard task for the local police to keep the crowds back.

On the inside there was a general handshaking between soldiers and committee men, and later the troops were turned over to the committee of women who gave them a luncheon of sandwiches and hot coffee. After the luncheon an opportunity was given for the friends and relatives.

Then came scenes beguiling description. Mothers rushed to their boys for a first fond embrace. Sisters and sweethearts fought their way through the crowds. Very little time was given for greetings, however, as Colonel Finney was anxious to arrange many details. He gave orders to have the men report at intervals, and the soldiers were then dismissed until 9 o'clock this morning.

Police Chief to Wage War on Air Rifles

Police Chief T. Edward Wetzel this morning declared a war against air rifles used by boys within the city limits, the riding of bicycles without lights, bells or horns and against automobile drivers, who make a practice of driving over the streets of this city without dimmers on the headlights of their machines. The chief was moved to action by several accidents which have resulted from violations of city ordinances and has instructed every member of the police force to arrest immediately any offender.

Numerous complaints have been made about windows being broken, pedestrians being shot and passing automobiles being fired upon by boys who are in possession of air rifles. These youths, the chief said, do not know how to handle the small guns and do not realize the danger of opening fire upon passersby. One autoist, whose name has been withheld, has called at police headquarters frequently, during the past several weeks, to complain about several boys, in the vicinity of Third and Forster streets, who have shot at him as he passes that point in his machine.

BEIDLEMAN TO PRESENT HOME RULE MEASURE

Would Give Each City Opportunity to Frame Its Own Charter

Senator Edward E. Beidleman, of this city, will present to the Senate to-night the resolution proposing a constitutional amendment to permit third class cities and boroughs to draft their own charters covering details of government under general State laws applying to those classes of municipalities. This will embody the "home rule" feature recommended by solicitors of the third class cities and the State League of Boroughs. If passed by this Legislature and the next it would enable the people to vote on the question of amendment in 1919.

The advantage of the plan would be that the council of each third class city or borough could draft an ordinance specifying a form of government whether by a manager, two directors or half a dozen as might be desired, and the people would then vote on the proposition. The general scheme of the government would come under State laws which would be enacted to make the proposed amendment operative. It would relieve cities with small populations and boroughs with small resources from being required to have the same governmental machinery as the larger and more affluent municipalities of their class.

Rotarians Give Kemper Royal Welcome; Praise For Penna Soldiers

To-day's luncheon of the Rotary Club resolved itself into a reception for C. Linford Kemper, who is just recovering from a recent severe illness, and Lieutenant Colonel James E. Kemper, of the Eighth Regiment, who returned with the troops yesterday.

Kemper told the club some interesting experiences at the border, he with several other officers being present when Pershing's column brought thousands of refugees from Mexico to the border.

"This was the first time in history," said Colonel Kemper, "that thousands of the citizens of invaded territory followed the invader back to his own country for protection."

Colonel Kemper was high in his praise of the Pennsylvania Division. "General Funston sent a message to General Clement," said he, "to the effect that the Pennsylvania troops had caused less trouble than any other State unit at the border."

The Eighth Regiment, he said, he regarded as the best all around military organization in Pennsylvania. The trainer of the section on which the Harrisburg men rode coming North all told him that the troops were the most gentlemanly they had handled in their long experience since the call for men last summer. Colonel Kemper urged the Rotary Club to encourage the local organizations and to do what is possible to recruit them up to full strength.

The club voted that each member shall salute the men in uniform wherever they meet them in the street.

DRIED CODFISH SINK SCHOONER

"Codfish Sank Big Schooner" was the title of a news item of recent date, which besides being most unusual, seems to open up a new method of sinking wooden ships or navies at war at a trifling cost compared with the present \$5,000 to \$10,000 torpedoes used by the submarines and destroyers.

The schooner Pohnok, under a captain and crew of seven men, left St. John, N. B., for the Azores, with a cargo of dried codfish, explains the Popular Science Monthly for March. Soon afterward she ran into a heavy sea and shipped considerable water. The dry codfish absorbed this like a sponge, and it was but a couple of days before the expansive pressure of the swelled codfish had forced open the seams of the vessel's planking so that the water began to seep in, little by little, until the ship was beyond saving and had to be abandoned.

Food and Fuel

The food problem has reached an acute stage. Soaring prices on staples and public disturbances have tended to bring matters to a climax. The paralyzing of railroad traffic is partly responsible for conditions.

That has been the trouble with the fuel situation—lack of cars to carry the coal from the mines to the market.

Fortunately the coal shortage has not reached such a critical stage as the food question, but the scarcity is a reality as only those who are not stocked for the winter may find out later to their sorrow.

Better take advantage of the little supply in the yards at present.

GERMANS ALONG SOMME RETIRE ON WIDE FRONT

British Occupy Both Sides of Ancre Brook in Direction of Bapaume

Military operations on the European battlefields are growing in scope and importance.

London dispatches last night announced the retirement of the Germans along a wide front in the Somme where the British have occupied large areas in the direction of Bapaume, on both sides of the Ancre brook. Unofficial advices declare the advance has reached a depth of nearly three miles in some places giving the British possession of Pys, Serre, Miraumont, Petit Miraumont and the Butte de Warlencourt and placing them in a position where the evacuation of Bapaume may shortly be forced.

To-day's dispatches added nothing to the details of this movement.

THIS MEDICINE WOMEN VALUE

Positively Relieves the Suffering. More Convincing Proof.

When Lydia E. Pinkham's Vegetable Compound was first introduced its curative powers were doubted and had to be proved. But the proof came, and gradually the use of it spread over the whole country. Now that hundreds of thousands of women have experienced the most beneficial effects from its use its value has become generally recognized and it is now the standard medicine for women's ills.

The following letter is only one of the thousands on our files.

Dennis, Texas. "I cannot feel that I have done my duty until I tell what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles so I could hardly drag around and do my work. I was very nervous, and had dizzy spells, heat flashes, and headaches until life was a burden. My husband brought me a bottle of Lydia E. Pinkham's Vegetable Compound and I soon began to improve. I continued its use and am now free from all pains and aches that made life a burden. You may use this letter in any way you like for I want the world to know what a grand medicine Lydia E. Pinkham's Vegetable Compound is."

—Mrs. G. O. LOWERY, 911 S. Barrett Ave., Dennis, Texas.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like at 10c and 25c per box. All druggists

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untried research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drain of the house.

Those of us who are accustomed to feel dull and heavy when we arise splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallowness, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Don't Take Risks

If your stomach is strong, your liver active, and bowels regular, take care to keep them so. These organs are important to your health. Keep them in order with

Beecham's Pills

and avoid any risk of serious illness. A dose or two as needed, will help the digestion, stimulate the bile, and regulate the habits. Their timely use will save much needless suffering, fortify the system and
